FIELD DAY.

November third, 1902, is a date to be remembered; it marks the first Field Day that the Wellesley of the New Athletics has achieved. It is surely for us all to be justly proud of such an event; one in which athletics took the dignified place which rightfully belongs to them, and held the interest of the college more successfully than ever the “stunt races” did in the Field Days of the past.

The day began at nine o’clock, with the exciting basket-ball game between 1903 and 1906, the Seniors and the Sophomores. It was played with even more than the usual spirit, and the flags and cheers of the on-looking multitudes added much to the interest of the game. The result was a score of 64 in favor of 1903. This gave 1903 first and 1906 second place in basket-ball. At 10.15, Miss Lillian Bruce, 1903, played Miss Charlotte Thomas, 1906, for second place in tennis. Miss Thomas won this for 1906, and the first place was decided for 1904 in the afternoon tournament, by Miss Ida Kitchen, 1904, winning from Miss Thomas and keeping the college championship which she already possessed.

At 10.30 came the low hurdles, in which all four classes contended. The heats and their results were as follows:

First Heat.
Won by Mabel Sengrave, 1905.
Second, Florence Holflin, 1906.

Second Heat.
Won by Margaret Ladd, 1906.
Second, Clara Richards, 1903.

Third Heat.
Won by Bertha Todd, 1906.
Second, Edna Moore, 1906.

Fourth Heat.
Won by Maria Dowd, 1905.
Second, Mae Perkins, 1906.

Fifth Heat.
(For winners of second places in previous heats.) Won by Florence Holflin, 1906.

Final Heat.
Won by Maria Dowd, 1905.
Second, Mabel Sengrave, 1905.

The championship was thus won by 1905, with 1906 coming in for second place.

At eleven came the Relay Race, for all four classes. This was run in two heats, the first won by 1903, and the second by 1906. The final heat, between 1905 and 1906, resulted in 1906 winning, in a time of one minute, twenty-seven seconds, for about three hundred yards. The winning runners of 1906 were Catherine Jones, Sarah Hall.

The morning closed with English Hockey, played between 1904, 1905 and 1906. The Freshmen beat both Juniors and Sophomores, thus winning first place in hockey. The game for second place was played off on November fifth, resulting in 1904’s victory, which gave the Juniors second place.

Golf was played by two members from each class, and the championship was won by Hilda Weber, 1903, giving the Seniors first place in golf.

The points on Wednesday evening, November fifth, stood as follows:

<table>
<thead>
<tr>
<th>Class</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>1903—15.</td>
<td></td>
</tr>
<tr>
<td>1904—8.</td>
<td></td>
</tr>
<tr>
<td>1905—15.</td>
<td></td>
</tr>
<tr>
<td>1906—10.</td>
<td></td>
</tr>
</tbody>
</table>

Unfortunately for the Seniors, however, they lost one point by default, making them twelve; and still more unfortunately for the Freshmen, they lost three points by default, and with them the cup, which was awarded to 1905.

Such was the practical side, and the practical result, of Field Day. But no one who wandered about over the grounds through that long, golden, Indian Summer day, watching and cheering one sport after another, could help realizing that Field Day meant something besides points and class rivalry. It took its place, we hope, forever, as one of Wellesley’s own out-door days, when every one who belongs to the College Beautiful, and nobody who does not, may rejoice in the open world of Wellesley, and take a long breath in the midst of a hurrying, restless life.

The Spring-Flower Planting.

Wellesley girls who are proud of their campus may now await with more delight than ever the spring days here, for something new has been added to the sum of Wellesley’s lovely spring features in the hyacinths and crocuses planted on Field Day by the Seniors. The grass sloping away from the chapel in front will be golden and purple when the snow is gone, and as we walk toward College Hall there will be green hyacinth stalks and delicate flowers among the oaks. And 1906 will remember the Field Day this fall, when it went forth and put into the ground nearly two thousand bulbs, the gift of its honorary member, President Hazard, to be left by her class for the beautifying of its college grounds. The day was a tense, exciting one, and the rest was welcomed that came in the hour when the girls left tennis racket and basket-ball, and with knife or trowel went to planting their bulbs on the chapel lawn in the bright sunshine. And then there were songs and cheers and the class song; then Miss Hazard, who had been directing the planting, gathered the class about her and read the verses she had written for the ceremony, verses which every 1906 girl will carry always in her memory.

The secret of a happy life,
As all the sages show,
Is simply that for each grass blade
We make two grass blades grow.

How doubly happy then are we
Who in bright autumn hours,
Displace the grass blades as we plant
Potential gay spring flowers.

President Eliot’s Address.

President Eliot of Harvard College spoke at 3:20 on Saturday afternoon, in College Hall chapel. His subject concerned the sphere and work of women in the world—a subject which, to men at least, seems to be exhaustless. However, the decision to which President Eliot came in regard to the matter was one pleasing to Wellesley Students, in that he argued with them that college life is a worthy preparation for women’s work, whatever it may be.

COLLEGE NOTES.

Through the courtesy of Mr. Plympton of New York, Miss Jackson brought to the college last week, to show the classes in Italian and to English 6, a very rare pamphlet, Savonarola's exposition of the Lord's Prayer. It was printed in Florence in 1494, at the height of Savonarola's power, four years before his death. The old yellow pages on which the printing is still so black and clear—it was printed about sixty years after the discovery of printing—were of deep interest to class in English 6, who are studying "Rondina." This pamphlet is one of the collection of early Italian books which Mr. Plympton has presented to Wellesley, and which will come into our possession as soon as we have a fire-proof library. Among the other almost priceless treasures are manuscripts of Petrarch's, the earliest books of Boccaccio, Marsilio Ficino, Pico della Mirandola, Lorenzo di Medici, and Poliziano.

The Indoor Meet.—New departures in athletics seem to have no end this year. The latest development is the plan for an indoor athletic meet, to be held in the Gymnasium at the close of the fall term. Notices will be posted on all the class bulletin boards and all students wishing to enter for this event are asked to sign their names. Everybody in college is eligible for this competition. The ten sports in each class having the best physical skill and equipment will be selected for the final meet. The exhibitions will be of vaulting, jumping, and apparatus work. With the success of Field Day behind us, there is no reason why this new venture should not open up the prospect of another success before us.

Vassar-Wellesley Debate.—The challenge to an intercollegiate debate was sent to the Student's Association of Vassar College on November 1. A reply from the Association has been received, stating that the challenge, with its accompanying conditions, will be given the earliest attention; and that immediate notice of the decision will be sent to Wellesley.

Our Intercollegiate Debate Committee consists of fire members: Miss Thaddea, 1905; Chairman; Katherine Landale, 1905; Kate Lord, 1905; Clara More, 1905; Bess Balsey, 1905.

CHRISTIAN ASSOCIATION.

At the vespers service on Sunday, November 2, the Rev. C. H. Feun of Shanghai, China, addressed the college, giving a very graphic description of the siege of Peiping and the wonderful deliverance of the foreigners imprisoned there. He also spoke briefly of the causes which led to the Boxer uprising, and of the present conditions in China. The address was one of the most interesting ever given in the chapel.

On November 6, the Thursday evening service of the Christian Association was led by Professor Botes. The thought of her address is found in John 14:2, "In my Father's house are many mansions."

The theme was developed by reading several short poetical selections, which showed the individual conceptions of "Many Mansions" in the thought of different poets.

Miss Alice Stockwell, 1865, has been obliged to withdraw from college, owing to ill health. The Senior class feels, as a whole, and as individuals, that the loss of Miss Stockwell is as great a one as the year could well, or rather ill, have brought. Hers is one of the places that cannot be filled, and while 1905 mourns its own loss, it congratulates 1904 on having Miss Stockwell one of its members next year, as she expects to return to College in September, 1905.

I.

This question of intercollegiate athletics that is occupying our minds now, has a deeper bearing than appears on the surface. Our first thought is perhaps, "what fun!—let's have them," but on second thoughts, the many evils appear. The question must be looked at in two ways, as it affects us personally, and as it affects us in the eyes of others, and in both these aspects the good is overbalanced by the evil. It is said that it will make us stronger physically, but is not the tendency rather toward an excessive training that results finally in physical harm? that it gives proficiency in sport, that can be gained just as well by contests within the college, as without; that it will increase college spirit—which without is daily seen to be increasing among us.

Moreover, how will this affect us in the eyes of the world? Is the college girl there to make her most conspicuous appearance, not as engaged in living the most developing, improving, restraining life in college, but as going about the country, for the purpose of excelling in "sport"? How eagerly, how distastefully this would be commented upon by the newspapers, the publicity under which we already suffer, tell us. Contests of strength belong primarily to men, we will admit, but not intercollegiate athletics encourage the tendency among girls? And can any amount of muscle compensate for loss of womanliness, the refinement and enrichment of which is our chief aim here?

Lastly, our athletes should be kept strictly our own, with all the advantages they now give, and not made public property, with all the attendant evils of public property. 1894.

II.

One of the students remarked the other day that if instead of gossiping and complaining around the corridors, people would take their complaints to the Free Press, others would have a chance to mend. It seems this is very true. We have too much of this complaining every day. Complaining which does no good, but merely makes people discontented. Now if the fault finders would only stop to analyze their feelings, and if they found them worth while would send them to the Free Press, and if not worth publishing would keep still, college life would be benefited. 1895.

III.

"Call us up with morning faces and with morning hearts, eager to labor, eager to be happy, if happiness shall be our portion and, if the day be marked for sorrow, strong to endure it;" so said Robert Louis Stevenson, who bravely lived out what he said.

Here in college we awoke to forget about morning faces, we come down stairs to breakfast worried and preoccupied, thinking of the reserved book to be returned to the library, of papers, lessons, committee meetings, and the many other things which go to make up our busy life. We are so busy in thinking about these things, that we forget their real relations, we forget to put ourselves above them, and see them with clear vision in their true proportions. And so our lives lack the glad strength that they should have, and the people we meet fail to get the stimulation which would make it pleasanter for them to live, easier for them to work. 1896.

IV.

A Free Press Article on "Elevator Etiquette" appeared in a previous issue; but few of us seem to realize that there are some rules of etiquette and courtesy due in the College Post Office. I do not mean to say that anyone (with exception of the Faculty) should have precedence in entering or coming out of the Post Office; here the old rule applies "First there, first served." However, we all know too well that the College Post Office is far too small. Will those girls therefore, who arrive at a quarter before nine, A. M., and stand inside the office leaning against the wall, ready to "grab" every letter as it is sorted, please remember the size of the Post Office, and leave it, as soon as they have once taken their mail? 1897.

The large magazine will be double sized, with colored pages and supplements, and opening with a new poem by Rudyard Kipling, entitled "Van in Vermont." It will contain articles on such winter sports as ice-hoisting, hockey, curling, skating, tobogganing, sleighing and snow-shoeing.

Douglas, Page & Co. are publishing W. S. Gilbert's "Patience," which has never been available in attractive and convenient form. By arrangement with the author, this revised edition will be issued as a book of literary value, aside from its musical interest, the text being printed by itself. Mr. Gilbert has written an introduction telling how "Patience" originated and was worked out.

Douglas, Page & Co. publish Yarns by a Shipbuilder, called "Cap'n Vitus," which is said to be written not by Clay Emery, as the title page reads, but by Mr. Clayton Mays, who is secretary and treasurer of one of the largest ship-building companies in New York City.

Macmillan will publish "Biographical Sketches" by Mr. James Bryce, the author of "The American Commonwealth." Mr. Bryce in this book has made a collection of some very interesting articles, which have from time to time appeared in the leading English journals. Most of the men of whom he writes are those with whom he has been closely associated in public life and friendship. Among them are Mr. Gladstone, Lord Beaconsfield, J. R. Green, W. Robertson Smith, Lord Haldesleigh, Robert Lune, C. S. Parnell, Lord Cairns, Sir George Jessel, Cardinal Manning, Archbishop Tait, Bishop Fraser, Dean Stanley, Lord Acton, Henry Sedgwick and Anthony Trollope.

It is interesting, but maddening, to notice that, according to the librarian of the Fabernd Inn and the Booklovers' Library, the three most popular novels during the past three months have been "The Virginian," by Owen Wister, "Dorothy Vernon of Haddon Hall," by Charles Major, and "The Compestr," by Gertrude Atherton. Ye nuns! consoled at shall they discern inferno ut?
