NEW INDEPENDENT JOURNALISM IS NOW ARIVING IN COLLEGE

A new journalism, critical, indepen- dent, is springing up in many of our colleges, and is expected to have a salutary effect upon the college and upon the world at large. The new stuff of the Ackerian Press is that of the Bostonian Society, and the independence is more or less complete, in that the college faculty do not interfere with it. The Ackerian Press is a weekly, and is printed on the presses of the Bostonian School. The office is at the second floor of the school, and is kept by the students.

SEVERAL MORE IMPROVEMENTS MADE ON THE CAMPUSE GROUND

Many minor changes and improvements about the college have come, and the campus is now quite a different place. The new buildings have been completed, and the old one is being removed. The new one is a large and handsome structure, and is located on the upper part of the campus. The old one is being used as a temporary residence for the students.

HATHAWAY HOUSE IS NEW NAME OF COOPERATIVE BOOKSTORE

A new name has been given to the old bookstore, which has been in active operation for many years. The name is Hathaway House, and it is located in a new building on the campus. The changes have been made to improve the facilities of the bookstore, and to better the service rendered to the students.

Reynolds.

The attention of the news has been called to an event which occurred on June 12. At the Semi-Centennial celebration of Smith College the degree of B. A. was conferred upon Wellesley’s President. At that time Professor Reynolds was introduced as a college president with a position for justice and a sense of the importance of the faculty who brought this citation to the attention of the News: the discussion was to the extent that I think all Wellesley students desire to hear.

WHY RIFE DOES!

To the Wellesley College News:

Why the elevation of Miss Dornoy to the chairmanship of the eight-year-old Literary Society, but they cannot be missed under the circumstances.

So far, we have not heard one word of praise for them. Frankly, the mood of the editor has been that of ascertainment.

In one case, the sentiment of the society was that Learned Hall, with the few remaining, the only one as the President of the United States, the President of the United States.

Forensics: in former times, not only was Rife, but of speeches also. This forensics is a manuscript work called a forensic paper. At some time in the spring, the paper was published in the society.

Thus far the record has been that of a nature.

The Farm Electrical

Of the six and a half million farm homes in this country, only half a million have electricity.

Still, the advantages of electricity are widely known. But there is more to farm electrification than the installation of motors, lights and heaters. Current must be brought to the farm, and that means many miles of transmission line, supporting poles, transformers, and adequate generating equipment.

Slowly but surely the electrification of American farms is taking place. As farmers learn how to use electricity, rural service lines reach out farther and farther into open country.

Six million farms to be electrified! Here is a vast and virgin field for the application of electricity, with countless opportunities for college-trained men in the technical and commercial phases of this undertaking. And for the agricultural college student and others planning a future life in rural sections, it means a better, bigger, happier life-time now in the making.

PRISCILLA COOPPER WEDDING
TAKES PLACE IN THE CHAPEL

Memorial Chapel took on a bette atmosphere on Saturday morning, September 26, at nine o'clock, when the marriage of Priscilla Cooper to Henry Astor French of Wellesley Hill was solemnized. The altar was flanked with palm and white azaleas. Tall candles flamed at either side.

An expectant hush pervaded the chapel as the bridal party came down the aisle.

The bridesmaids were Eleanor Boswell '25 of Brookline, Sylvia Chapman '25 of Newtonville, Eleanor Wade of Wellesley Hills, the bridesmaid's maids, Francie Pennell and Betty How of Brookline, and Priscilla Quilici. Two of the bride's maids were yellow georgette over white, with crimson sashes, and carried yellow plaid fans, two were white chiffon and carried pink plaid fans. The mall of honor was Mary Gordon, a friend at the Barnard School. She wore pink georgette edged with white satin and carried pink rose posies.

The bride wore white satin-trimmed wedding costume. Her face, which was her mother's wedding veil, was fastened to a lace collar which had previously been embroidered, and was caught with orange blossoms. She carried a shower bouquet of roses and lilies of the valley. Prettily the bride was a tiny ring bearer, Richard Jones, dressed in black velvet breeches and beret and white shirt, with the initials "P.C." on his beret. The mother of the bride wore blue georgette.

The double-ribbon service was effectively used. As the bridal party returned down the aisle, Mrs. Macdonald played Mendelssohn's Wedding March.

The bridge and groom have gone on a motor trip and will be at home in Wollaston, Mass., sometime in November.

FRESHMAN CLASS INCLUDES 21 WELLESLEY GRANDDAUGHTERS

In this year's freshman class there are twenty-one Wellesley granddaughters. Their names with those of their maternal grandmothers are given below.

Author of Pageant Welcomes Freshmen at Chapel Vispers

"Opportunities Wellesley offers from the standpoint of alumnae" was the subject of an address delivered by Mrs. Marie Warren Porter, acting principal of Wellesley, and president of the Alumnae Association, at Vespers last Sunday. Mrs. Porter brought the greetings of the alumnae to the freshmen, to whom especially she wished to point out the opportunities offered by Wellesley which an undergraduate might seize through near-shore-ships, but which can be clearly seen from the perspective of an alumna.

In the first place, Mrs. Porter said, Wellesley gives the student a chance to view herself away from the environment by which she is usually judged. At Wellesley she is judged by her own personality, and here, too, she enters a new world with a clean slate. Another opportunity which many take little note of, Mrs. Porter thinks, is the heritage to be found in books before the great scholars of the past have left their accomplishments. Wellesley provides the hook with which her students may search in quiet, truth, as Mrs. Porter has expressed this heritage to be found in the ellipses of The Winged Stork, which she quoted.

"Wellesley is a thing of the spirit, a head of scholarship stretching around the world," Mrs. Porter affirmed, and the youngest members of the class of 1929, have the privilege of entering this fellowship, with all its ideals.

"Tests on current History" BETRAY LACK OF INFORMATION

A surprising lack of information regarding the tests currently being given by the recent tests given by the Review of Review, and reported by the Review of Review. The tests, which were conducted inscrutably, were given to high school, college and university students all over the country.

"Monadnock," governor of Texas, was identified as president of Mexico, and was also a thief. "Talpa Doma," the governor of Washington, was a ten-cent store owner, and was also a thief.

Eleven per cent of the students failed to recognize a photograph of President Coolidge. Only 42 per cent could identify the inventor of vitamins in vitamins.

Species of the students placed Scrooge in sweet, or in the Pacific, the animal of which is identified a reaper and a tractor—even when it was given a setting in a grand field. One youth was convinced that the United States had purchased Japan.
NEW PERSONNEL WORK PLANNED BY BUREAU OF OCCUPATIONS

The work of the Bureau of Occupations during the coming year will be characterized by several changes in methods and policy. The fresh methods are to be conducted by two new employees, Miss Mary A. Miss Florence Jackson is now Associate in the Bureau of Occupations, and will devote her time to conferences with the juniors and seniors. These conferences have been made compulsory by the college administration, and the faculty are to be met this fall and the members in the spring. Miss Jackson will also have office hours for general vocational information, as in former years.

The particular problem before the Bureau this fall is the accommodation and interpretation of personnel data here at Wellesley College, and the cooperation with other colleges and universities in the study of personnel matters. In the interviews the Bureau will have the aid and cooperation of the Department of Psychology. Another aspect of personnel work that will claim attention is the improvement of records, and the Bureau is now at work on a code which will furnish a cumulative account of a student's entrance, courses at Wellesley, grades, extra-curricular activities, studies by the faculty, mental tests, health, as well as vocational aptitudes and interests. This activity is in the interest of dealing with the individual rather than with the class or group, and of learning and putting into permanent form the part played by the individual during her residence at Wellesley. The Bureau continues the record in its accumulation of vocational histories, which are being compiled and kept on file.

In the meantime the work in place now will be continued with a noticeable increase. We believe, in increasing and diversified opportunities for our graduates, the ability will not be belated to render, and all students will have another source of information or assistance on which kind and training for vocations.

A. Earl Perry Wood, 
Director, Bureau of Occupations.

A fresh start, at the very beginning of a new year, and a more general and complete understanding of law was the hope of the College Government Association. When an all-college meeting was called by Elizabeth Smith, President of College Government, in Alma Hall, on Monday, September 21, in introducing Professor Mary to the assembly, she pointed out that this meeting was to follow up the student questionnaires circulated earlier this summer, so that the college might get at the roots of the honor system.

Having made remarks on the difficulty of maintaining a clean and orderly college, the President directed in effect that a new order of things would come into being in the course of the semester. More and more women are interested in college, and a stricter code of rules is required.

The President closed with college songs.

FRESHMAN CLASS COMES FROM FAR AND NEAR TO WELLESLEY

(Reprinted from Freshman Extra)

Out of the hundred and one girls whose pictures appear in the Portrait Directory, thirty-eight states are represented as well as the islands of Porto Rico. New York state alone sends the farthest, thirty-two of them come from New York city, and Washington foreign students, a very old class, was ten, Ohio and New Jersey are near third place, the latter having 28 and the latter 37 other. It is interesting to note that barring only New York City, Cleveland sends the most girls from the twenty-five states in the country, Pennsylvania is well represented, with Connecticut, with Illinois, and Wisconsin with 17. The other members of the class of 1925 are represented at Gates in Colorado, 2 from Mexico, 6 from West Point, Indiana, New Hampshire, Kansas, and 5 from Maryland; 3 from Maryland and New York, 3 from Vermont, California, and Washington, D.C., 2 from Kansas, Virginia, Rhode Island, Oklahoma, and Connecticut. 2 from Colorado, Minnesota, North and South Carolina, and Iowa, and one each from Louisiana, Florida, New York, Texas, Tennessee, New Mexico, Nebraska, Alabama, Wyoming, and Porto Rico.

COLLEGE LIFE CAUSES LACK OF ENTUSIASM FOR CAREERS

Admitting that he in what might be called a "mischief" in the scheme of his life, a student in a well-known Eastern college, defends his school in an article in the Outlook, "Stricker's Magazine, and shows how the colleges all and alert him. It is of no use that we despise the world and its machinery of careers," he says. "We simply have no interest in them. Often we find ourselves working as doctors, lawyers, engineers, teachers, and we may do it only amicable, but they are quite meaningless to an empty room in the chambers of our existence. For they are not the reality. We live in a dream—this dream which is our reality, and cliques, friends, bridges, students, these are but shadows in the dream, the aphorism of many sleepers.

"What you ask, 'how the college to do with this dream? It is at college that the susceptible student finds himself. This is the problem that is not. There is no pretense in this: the boy is directed by irresistible attractiveness. He cannot help himself. He is called into life's dream, into his own private world built up of all earthly pleasures. It he were to become the central figure of a cathedral window he had just as much the world.

ARE YOU IN THE 1925 RUNNING?

at least as far as your clothes and accessories are concerned?

Then you will want to read right down to the bottom of this page.

BESTS HAS

MEDIUM-SIZED FELT HATS, as they are being worn at Decaturville. They come from England, the home of the hat "pour le sport.

TURTLE-NECK SWEATERS —exclusive pugilistic ones that are so smart for sports and campus wear.

TWO-PIECE FROCKS!!!

Dozens of them, for they're the smartest frocks you can think of. Velveteen, jersey, plackets, tweeds and combinations.

ONE-PICE FROCKS with box-plaets, inverted pleats, high collars, ties, long sleeves, hems, uneven hems, frills, up-level fronts.

And all very, very shaggy.

COATS—valued models of mohair frocks from England; afternoon frocks of velveteen for running.

SHOES for every occasion—STOCKINGS in the new solids to match your skin.

BAGS, IMITATION JEWELRY, GLOVES, HANDKERCHIEFS
