Elizabeth annual Judiciary, limn, pictures a that she conduct sing those an learning, had been Caledonia, and had held her in the United States alone. 

The committee heads working under director, General Chairman, and Miss Fletcher prepared the best advantage and I immediately conducted the evening to a close. While white horse stood at one end of the room and smaller hearts decorated the walls, the effect of the whole program proved remarkable music. Minutes later, Miss Fletcher announced the event, and the audience quickly filled the Victoria theater, a recognition which many have not received for many years before to the public eye. 

Miss Fletcher's address was a great success. It was amusing and interesting to hear the story of Miss Fletcher and Catherine Pitts crafted. 

MISS FERGUSON WILL SPEAK AT ROUND TABLE DISCUSSION

Miss Margaret Ferguson of the Boston Board of Representatives will speak on Wednesday afternoon, February 24, to those who are interested in the round table for which several courses are planned. She is invited to meet with Miss Ferguson by the Student Council of the Committee on Intercollegiate Relations.

JEWELRY OPENING WITH WILLIAMS PLAY

A young lady of exquisite taste and refined taste...Miss Helen Beires, was the guest of honor at the opening of the Jewelry Department of the Williams Play...The store was decorated in the latest style...Miss Beires was presented with a beautiful diamond ring, a gift from the store...The jewelry was displayed in the latest and most modern cases...

MISS OTISSEY HAS MANY RARE EXOTIC BOTANICAL SPECIMENS

Miss Alice Otissey, Associate Professor of Botany, returned to Wellesley on January 25 from South Africa, where she was radian Professorship. At the University of the Witwatersrand in Johannesburg, Uitenhage, South Africa, the University...November, with over 1100 students...Miss Otissey brought back to the United States a charming collection of specimens...The pursuit of her activity is indicated in the fact that she collected seven hundred specimens...Miss Otissey arrived in New York last week and left many of her valuable specimens to be utilized by experts before they are sent to Wellesley.

MISS OTISSEY COLLECTED IN SOUTH AFRICA

President Pendleton Goes to Convention in New York

As Chairman of the Committee of International Relations of the American Association of Universities, President Pendleton was on hand at St. John the Divine Church, New York, February 12, when the committee met at the Manhattan Club.

The special item of business was the selection of the five delegates to the International Conference of the International Federation of University Women to be held next summer in Amsterdam. Each organization is to send one delegate for every five members, although this may not have more than 5 votes. As the largest association in the Federation, the American Association of University Women may send over 100 delegates, hence the only 1 to 10 ratio which were selected at Saturday's meeting.

At the close of the World War in 1918, the Federation was organized for the purpose of mobilizing the friendship among women of various countries. The membership now includes 22 countries.

President, Third Vice-President, and Treasurer of the Federation are Dr. Alice Otissey, Miss Helen Beires, and Mr. Ralph S. Beires, respectively.

Miss Elizabeth Gilman, Miss Hollis, B.S., 1932, M.A., 1935, has been awarded the Alice Freeman Palmer Fellowship for the year 1942-43. Miss Gilman is studying for a master's degree in the Department of Chemistry at Yale University, where she plans to complete her studies for her Ph.D. degree.

The Alice Freeman Palmer Fellowship, valued at an income of about thirteen thousand dollars, was founded in 1907 by Mrs. Alice Freeman Palmer. The purpose of the Fellowship is to provide a graduate of an American college of approved standing who is free to devote her time to study abroad, or at any approved institution of learning, or privately, for independent research. Within three years she must present her thesis embodying the results of the work carried on during the period of tenure.

Miss Gilman won the Fellowship for this year over other candidates. Three of whom were Wellesley graduates.

COLLEGE NOTES

Dorothy Moore '25 and Grace King '25 gave a dinner at Alumnae Hall on Wednesday, February 16, for Charlotte Brandeis, who is studying in Europe.

Beth Drake and Elizabeth Bodell '22 gave a kitchen shower for Elizabeth Dawson at Agnes on Saturday, February 2.

Elizabeth '22, Katherine '25, and Martha '26 gave a dinner for Miss Margaret Fish '25, who entertained the Dean while she is in town.

In Wrentham, Miss Alice J. Cockcroft, Wellesley Class of 1892, was hostess for a dinner which was held in Chelsea last year. Inclusive representation was secured from students, alumnae, teachers, retired students, and school pupils all over the country.

STUDENTS INVITED TO OPPOSE THEORY TO PRACTICE BY WORK

The News publishes with interest the following letter received from the Committee on Students in Industry:

"At our recent intercollegiate Conference of theLeslie Institute, we are in the minority in our efforts to encourage a consciousness of the industrial needs of the nation. We try to stimulate students to decide on the occupa tion for which they would like to work after graduation. If we find that there are ten candidates interested in our financial aid and a scholarship in the industrial field, we try to find for them a field for the exercise of experi ence and opportunity. This has led us to establish a list of students who are interested in the different phases of the industrial. Our committee wishes to ask for such a clearing house for all students interested in the industrial and to establish an industrial club."

We are sure that there are many students interested in this subject and that there are many industrial agencies that are already interested."

We sincerely yours,

E. T. Slattery Co.,

DEAN TRIPS TO LEAVE TODAY

For MEETING IN WASHINGTON

Miss Ethel W. Dean, Dean of the College, will leave on Thursday, February 18, to attend the annual meeting of the National Association of Deans of Women, which is to be held in Washington, D.C., from February 24 to Miss Tufna will be in Baltimore during the next few days. She will attend the meeting of the American Association of University Women (Katherine Terry '41) of whose class she is a honorary member. The Tufna will be present to make a speech at the welcome dinner.

In Wrentham, Miss Alice J. Cockcroft, Wellesley Class of 1892, was hostess for a dinner which was held in Chelsea last year. Inclusive representation was secured from students, alumnae, teachers, retired students, and school pupils all over the country.

PUBLICITY FOR JUDICIA

That strange, unknown force operating in the sound and speak of an audience is that force which has both surrounded and pervaded it. In recent past, this force manifested itself in the activities of the college house and college organization with rather definite results. Interested members of the public have even dared to ask questions—what is Judiclia? Why Judiclia? What are Judiclia? To whom was Judiclia?

The experiment of jury-duty is one whose success is greatly to be desired. It is the consideration of a matter of interest in affairs judicial and, consequently, to increase the legal ability of the community. We must therefore seek out all possible means of providing the privilege of a vote. It seems so in the outside world that the college girl has sufficient intelligence to justify such an experiment. Needless to say, it would afford valuable training in a career where women's suffrage is being recognized.

The college, as a whole, is to be commended for the efforts which have been made. As the students learned at some of the cases, and the college soon realized that, while ladies of intelligence, if educated, but dull, is undoubtedly the less promising method of selecting a jury, many have been privileged to have an opportunity. It is to be hoped that Judiclia will be as wise in its selection as the women of the college have been voluntary as it has been revealing itself to the public.

THE PRINCIPLE OF THE THEORY

When we hear the questions of labor, of socialism, of education discussed by the students, it is evident that the subject of the role of the teacher and the role of the student in the college is of great importance. But, as the teacher cannot be satisfied with the profession that we are aiming for, it is necessary to know what the teacher is and what the student is. The understanding of these principles is necessary for the understanding of the principles of education and the principles of the college.

THE EFFECT IN THE LABORATORY

We find that the student who is satisfied with the profession that he is aiming for is satisfied with the principles of the college. But, as the student cannot be satisfied with the profession that he is aiming for, it is necessary to know what the student is and what the student is aiming for. The understanding of these principles is necessary for the understanding of the principles of the college and the principles of education.

THE CURRICULUM

We find that the student who is satisfied with the profession that he is aiming for is satisfied with the principles of the college. But, as the student cannot be satisfied with the profession that he is aiming for, it is necessary to know what the student is and what the student is aiming for. The understanding of these principles is necessary for the understanding of the principles of the college and the principles of education.

"THE BIG PARADE"

Frigidly, we were disappointed, for before we saw no commotion that was not the least beginning. This was our personal opinion. The Big Parade was planned to present a spectacle that we would have liked better if the plot elements, the two girls, and the comedy had been properly adjusted; hence the scenes were debatable. A large number of scenes that had promised to be effective were omitted. When we were left at the end of the film, details such as the conceptions of the hobbies, the plot, to be specific, and the varied performances of all and films.

The delicate scenes were handled with the utmost care and an evident desire to make of the story a spectacle. The ballad contrasted, however, in the rapid shift of the film from the scene of the crime to the scene of the adventure. The effective character of the song, however, still held our attention. In the last scene, the song was the only thing left to the audience. The film proved a failure.

The cast was uniformly excellent. "Jim" and "Sally" gave an admirable performance, while the support of "Bill" and "Jean" was effective. The acting in the village scenes was great, and parts of the war scenes produced much good material.

If you are interested in war pictures, you will find this film very good; still you will probably like it. We have been called curious before this.

WELLESLEY COLLEGE NEWS

The Projector Workshop offers
EDUCATION AND DRAMATIC ART

Those who are naturally interested in the theater, either professionally or as a hobby, will find the study of dramatic and the development of the school play an enjoyable experience. The Projector Workshop with its practical training in stage management and related subjects will be taught by James H. Shepley, head of the music and dramatic department in the school, and the workshop will have the cooperation of the Dramatic Club in the production of original plays written in the workshop.

Special courses have been planned to cover all branches of the work, combining theory and practice to give a broad training. Those who show special talent in acting, writing, or directing will be accepted for a special training for a career. The object of this workshop is to be reported in the "Theater Spectator".

The object is to provide an adequate and practical training school for the stage where audiences will demand and expect a high degree of technical skill and perfection of performance. The Dramatic Workshop will be open to all students and to those desiring a thorough and complete training.

Further information on the possibilities of this school may be obtained by writing to the Theater Department.

Hygiene Department Assures Graduates of Fines Positions

The only difference in the college that offers a definite professional training during the two-year course might be called a graduate school, and because of the advanced curriculum, most of the younger students are expected to join the working world of some Chicago company. The average salary for the first year out is $3,200, the hygiene department never loses more than 10% and more frequently they are given a prize of $1,500 or more; for instance, the first batch of graduates that were employed in the hygiene department in the midst of the influenza epidemic has already been paid off, and the remaining part of the graduates are expected to take two years of graduate work. The instructor, Miss Hinkley, assures the girls that those who put in a proper amount of equal responsibility with the same encouragement, as well as at the same time, are the girls, is expected to make a good, by reason of their high education, especially if they are in the line of economics and finance. More than this is expected, however, for the student must combine with her education other requisite—practice, finance, and the ability to sell herself to people.

Two hundred and ten college students are now employed, and drawn quite variously by the influence of the popular women on the various women which the state offers. A great many of them are instructors of the hygiene course, and the experience they gain will be placed, in the order of qualification, to the students who have to be interviewed by three persons in different departments. If, according to her impression, she has the requisite qualifications she is admitted to the training squad, and for the first six months there is a constant training and supervision, aimed at the several sections of the department. Then the second six months is devoted to the non-solicitation of departments in which there are various vacancies, or to the students who have decided to work in one, and is paid for results, and the third six months the department is placed in the department of her choice and is free to make her own selection and advancement as she in competition with the others in the training department.

For the first six months the teacher pays $25 a month, and the teacher is free to choose at the close of that period. From then on salary increases depend on the work of the individual. In this section Miss Hinkley stressed the fact that although many of the students are given, there is no preference other than the students themselves, and the superior qualifications given then an excellent chance to large ahead. The qualifications most necessary are strength and health, enthusiasm and unlimited interest, and personality qualifications that appeal in the majority of cases, success.

Next to the personal interest of the in the Hygiene Department, the second position is that of faculty, and the next is the giving the students an opportunity to make a definite choice of courses. In the case of all persons who are desirable, the students will have decided to work in the line of teaching, the preparation of the student will be through three examinations, and the effectiveness of the student will be determined by the degree of excellence at the end of the third examination, the last year in the course as being fifty and sixty million dollars.

Employment offered in Many Fields

The people who have devoted their lives to the work of teaching, are instructors, and the school of the United States, is a graduate in higher teaching.

NEW PRIZE NOVEL CONTEST IS ANNOUNCED FOR CURRENT YEAR

A new prize novel contest for 1956, even larger in plan and scope than the 1950 contest which was won by Morris Oster's Wild Goose, has been announced by Dodd, Mead and Company. As several recent successful novelists have been the work of graduate and undergraduate students of American colleges and universities, the attention of academic students is especially called to this contest.

For the first time novel submitted between September 1, Dodd, Mead and Company, the Publishers Review, and the First National Pictures, interpreted, offer $5,000 in cash. Pull book rights will be paid on all copies sold in the regular way. The winner of the prize is announced at the end of the contest, which is entered into the whole literary field without the usual introductory difficulties. The publication of the contest is being managed by the National Book League, in charge of the New England Publishing Company. The terms of the contest are as follows:

1. The contest is open to all works of fiction, including short stories, written in English, by anyone who is not over 30 years old. The work must be submitted in manuscript form, and must be the author's own original work. The manuscript must be at least 50,000 words in length, and must be complete at the time of submission. The manuscript must be typed, double-spaced, and must be accompanied by a typed letter of 500 words or less, describing the work and the author's background.

2. The winner of the prize will receive $5,000 in cash.

3. The manuscript must be postmarked by the date set above, which is the deadline for submission. No extensions of the deadline will be granted.

4. The decision of the judges will be final. The judges will be selected by the trustees of the National Book League, and will consist of five members, each of whom will be a well-known literary figure. The judges will be blind to the identity of the author of the manuscript, and will base their decision solely on the quality of the work. The judges will meet twice a year, at the beginning and end of the contest, to review the manuscripts and to select the winner.

5. The manuscript must be submitted in English, and must be written in clear, concise language. The manuscript must be submitted in hard copy, and must be accompanied by a typed letter of 500 words or less, describing the work and the author's background.

6. The manuscript must be submitted to the National Book League at the address below, which is the deadline for submission. No extensions of the deadline will be granted.
