MR. MUSSEY TALKS ON EVENTS

SPEAKS ON WESTERN FARM REVOLT AND NEW GOVERNMENT POLICY IN CURRICULUM MEASURES

RUSSIA AS PEACE BOND

The Phil Sports season closes next week with the quarterfinal games Saturday afternoon, November 2, and Final Day on Saturday afternoon, November 4. It is still light enough to watch them. The French class only has five of their sophomores left, and the French, German, and Spanish classes will race first, and then the first and second crews of the baseball team will play.

Huzza! informal players with encoring flowers——
they'll seem to jump right out of the box and say "BRAVO" after the curtain is down. And they'll just scream and again on again on Sunday, Monday and Tuesday, and maybe Wednesday and Thursday, and their turquoise and thoughtfulness is one test of admiring friendship. The flowers are waiting for you at

I keep coming back to that word "balanced" on the back of the Chesterfield package.

You often hear the word balance—something is out of balance—top-heavy, not on an "even keel." What you read, "Chesterfield Cigarettes are a balanced blend," means that the right amounts of the right kinds of tobacco are welded together; that is, home-grown tobaccos, the right kind, the right quantity—are blended and cross-bred with tobaccos from Turkey and Greece. When these tobaccos are balanced one against the other, then you have a mild cigarette.

When they are in balance, then you have a better-tasting cigarette.

May we ask you to read again the statement on the back of the Chesterfield package? May we ask you to try Chesterfield?

**VERMONT SAP**

It is not all that, however, that this column has numerous news of current interest to offer. Often it concerns things with which many students are familiar, but not always is it on this list. This section was begun and is continued as a monthly feature. It is always open to suggestions from all students.

**VU SUNDAY**

To the Wellesley College News:

No longer can we find any mention of Wellesley in the New York papers. There is no mention of that college in the Press Board bulletin. While our editors are tired of the endless stream of news that New York papers seem to be unaware of, we must admit that the change is for the better. We are grateful to the New York papers for their cooperation in keeping the name of Wellesley College away from the public eye.

We wish to take this opportunity to express our appreciation to the students at the various educational institutions with whom we correspond. They have been most cooperative and understanding throughout this period.

**SHADOWS OF TWEED**

To the Wellesley College News:

The editorial on college politics in last week's News was excellent. It is a shame that some of the students who are interested in politics and social issues were not aware of it. Perhaps this is because it was not published.

We are grateful to the Wellesley College News for its cooperative efforts to bring political awareness to the student body. We hope that this trend will continue in the future.

not as sad as they look. Sometimes bascules are given for them, and as a result they are not very popular with the public. In some places they are very popular, however, because they give the impression of being a part of the local community. Is there anyone else who knows the reasons why there is a trend towards bascules? A.E.L.

**STUDENTS SING SONG**

With a stamp of our boot tips,
With ked shoes and fringed coats,
We stand in the sun,
Till tak tak tak tak.

Our faces are ruddy ski,
Our feet are blue,
Our lessons are muddy ski,
Till tak tak tak tak.

Our hearts beat at Pupello Yet sorrow seems to grow no more
As we hold hands in the snow,
Till tak tak tak tak.

We never ask why ski
Tomorrow we die ski
Let's live now, let's die now,
Till tak tak tak tak.

The changes of the past few years have been dramatic. The coming of the Russian occupation of Finland has been a severe blow to the Finnish economy. The Finnish government has done its best to keep the country running, but the economic situation is still very critical.

The war with Russia has also had a great effect on the Finnish army. The Red Army has been very successful in its offensive, and the Finnish forces have been unable to stop it. The Finnish government has been forced to sign an armistice, and the peace negotiations are now under way.

The Finnish people are determined to continue the fight against Russia. They believe that they can win, and they are prepared to do whatever it takes to achieve victory. The Finnish government is working hard to develop new industries and to improve the economy. It is also trying to raise funds from abroad to help finance the war effort.

The Finnish people are very proud of their country and their culture. They believe that they can overcome the difficulties they face and emerge stronger and more united as a result. The Finnish government is committed to building a strong, independent, and prosperous Finland for the future.

**MR. MUSSEY TALKS ON RECOVERY ACT**

Continued From Page 1, Col. 1

The President's radio message Sunday, October 22, in part answered the criticism of the government, stating that much results could not be expected, and setting forth a new feature in the recovery program. This is the establishment of a gold market, with prices determined on the basis of the commodity value of the dollar, that is, a money unit whose value depends on the purchasing power of the dollar.

**THE HEART of a Lucky Strike**

The finest tobaccos—only the center leaves

The very heart of Lucky Strike's fine quality is choice tobaccos—ripened by warm sunshine, rich soil and gentle rains. Right now, up to $100,000,000 worth of fine Turkish and Domestic tobaccos, the Cream of the Crop, are aging and mellowing for the makers of Lucky Strikes. For only a special selection of choice tobaccos is used in making your Luckies so round, so firm and fully packed—free from loose ends. The reason why Luckies are always the same in mildness, smoothness, in delicious taste.
