Wellesley College was established for the purpose of furnishing to young women who desire to obtain a liberal education such advantages and facilities as are enjoyed in institutions of the highest grade. The first building of the College, erected and equipped under the supervision and through the personal means of the founder, was opened to students in 1875, with the announced purpose "of giving to young women opportunities for education equivalent to those usually provided in colleges for young men." Throughout his work the founder aimed to put into visible form his ideal of the higher education for women, "the supreme development and unfolding of every power and faculty."

By the charter, granted by the Commonwealth of Massachusetts, "the corporation of Wellesley College is authorized to grant such honorary testimonials, and confer such honors, degrees, and diplomas, as are granted or conferred by any University, College, or Seminary of learning in this Commonwealth; and the diplomas so granted shall entitle the possessors to the immunities and privileges allowed by usage or statute to the possessors of like diplomas from any University, College, or Seminary of learning in this Commonwealth."

In accordance with the spirit of the founder, the College is undenominational, but distinctively Christian in its influence, discipline, and instruction.

The members of the College meet daily for morning prayers in the beautiful chapel presented in 1899 by Miss Elizabeth G. Houghton and Mr. Clement S. Houghton as a memorial to their father, Mr. William S. Houghton, a trustee of the College from 1880 to his death in 1894. Services on Sunday are conducted in this chapel by preachers of different denominations. At all these services and at vespers on Sunday, the singing is led by a trained choir of students under the direction of the department of music.

The Wellesley College Christian Association is organized to foster religious life, and interest in social reforms and in home and foreign service.

The department of Biblical History affords the systematic study of the Bible required of all students.
ADMISSION

Candidates for the Bachelor of Arts degree may qualify for admission to Wellesley College either as members of the freshman class, or as students with advanced standing who present records from accredited colleges. Since the size of the student body is limited to about fifteen hundred students, candidates in both groups are chosen very carefully in order of the excellence of their credentials, which include testimonials concerning health, character, and scholarship.

APPLICATION FOR ADMISSION

Forms of application will be furnished on request. An application fee of $10 is required of all applicants and no registration is recorded until the fee is received. If the candidate cancels her registration or does not enter the College for any reason, the fee is not refunded, but it may be transferred to apply to a later year if the request for the transfer is received before November 1 of the year for which the candidate is registered to enter college. If no request to transfer the application is filed by November 1, the name of the candidate will be automatically dropped from the list.

Application for admission to the College may be made to the Secretary of the Board of Admission at any time up to May 1 of the year of entrance. A student is advised to make application at the beginning of her secondary school course and she is urged to do so not later than the fall of her junior year in secondary school so that her plan of work may be approved before it is too late to make schedule changes. Since rooms are assigned according to the date of application, there is an added advantage in early registration.

All communications concerning admission should be addressed to the Secretary of the Board of Admission, Wellesley College, Wellesley, Massachusetts.

HEALTH CERTIFICATES

A report from the applicant's physician showing that she is organically sound and in good health, together with a certificate of vaccination, must be filed with the Secretary of the Board of Admission before May 1 of the year in which admission is sought. The College reserves the right to reject any candidate who, in the opinion of the college physicians, is not fitted for work in the college community.

ADMISSION TO THE FRESHMAN CLASS

Through its admission procedure, the College tries to select students with good intellectual ability, adequate preparation for further study,
genuine interest in some of the lines of study offered at Wellesley College, and a purpose which will give incentive to steady work. In making its selection of students, the Board of Admission reviews school records and recommendations, entrance examinations, psychological and scholastic aptitude tests, and information from the candidate concerning her interests and plans for study. Students who are interested in admission should consult the following description of plans of entrance subjects and methods of admission.

**Plan of Entrance Subjects**

The plan of entrance subjects proposed by Wellesley College is designed to give the student a foundation for various fields of study in the liberal arts college. Since most college applicants have good general ability in several lines of work and are uncertain when they enter college where their interests in more advanced study may lead, it is important for them to secure in secondary school such training and information as will give them an introduction to several fields of study and such fundamental courses as will open to them the greatest freedom of election in college. All students should offer a minimum of 15 entrance units,* chosen in general according to the following plan:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>3 units†</td>
</tr>
<tr>
<td>Foreign Language</td>
<td>5 units</td>
</tr>
<tr>
<td>Latin or Greek</td>
<td>3 units</td>
</tr>
<tr>
<td>‡A modern language</td>
<td>2 units</td>
</tr>
<tr>
<td>French; German; Italian; Spanish</td>
<td></td>
</tr>
<tr>
<td>History</td>
<td>1 unit</td>
</tr>
<tr>
<td>Mathematics</td>
<td>3 units</td>
</tr>
<tr>
<td>Algebra</td>
<td>2 units</td>
</tr>
<tr>
<td>Plane Geometry</td>
<td>1 unit</td>
</tr>
<tr>
<td>Science</td>
<td>1 unit</td>
</tr>
</tbody>
</table>

This plan allows every student 2 elective units for additional work in the fields which she believes have greatest value for her. Since most students complete more than 15 units in secondary school, there is usually even wider opportunity for election. This plan is recommended by the College as the admission program to be followed by most candidates. An exception to the usual program either in foreign language, mathematics, or in science is allowed to students who meet the conditions stated in paragraph (1) or paragraph (2) below. Any other exceptions necessitate a special permission from the Board of Admission.

* A unit represents a year's study of a subject with four or five class appointments a week or not less than the equivalent of 75 sixty-minute hours of classroom work, two hours of laboratory work counting as one hour of classroom work.

† The usual four year secondary school course must be completed for 3 units of credit.

‡ A single unit of language is not accepted for admission credit.
Admission

(1) Students who wish to specialize in college in mathematics or science must offer at least 3 units of mathematics for entrance but may be allowed to substitute for the foreign language requirement stated above 5 units of foreign language made up from any of the following: French, 2 or 3 units; German, 2 or 3 units; Latin, 2 units.

(2) Students who wish to specialize in college in languages, literature, the arts, or social sciences (all subjects other than mathematics or science) must offer 3 units of Latin for admission but may offer 2 instead of 3 units of mathematics, provided the course includes both algebra and plane geometry, or they may omit the unit of science. Students who are interested in economics should offer 3 units of mathematics for entrance.

In the elective group of units the College will be glad to accept additional units in any of the subjects listed in the normal program or 1 or 2 units of art or music, a unit of Biblical history, and 1 or 2 units in the social sciences besides history. Students interested primarily in languages, literature, and the arts are advised to offer for admission 4 units of Latin and 2 units of history, of which 1 unit should be European history.

The Board of Admission is interested also to consider courses which do not follow the published descriptions of unit requirements in subjects as they are indicated in this Calendar, especially if such courses are organized as sequences of study in given fields.

The College wishes to cooperate with schools and applicants for admission in their effort to organize such programs of study as will further the real educational needs of students in their secondary school course and will also give an adequate basis for continuing their work in college. Students are urged to discuss their plans of work early in their secondary school course with their school advisers and to confer also with the Board of Admission at Wellesley. In advance of correspondence with individual students, the Board will welcome from the school principals information about unusual curricular plans or courses which the schools recommend to their college groups.

School Records

Complete records of a student's work in secondary school are required. Blanks for the preliminary records are sent to school principals in the spring, a year in advance of the student's completion of preparatory work. Blanks for supplementary records are sent in the spring of the year of final preparation for college.

The school record must be supplemented by statements from the school principals, concerning the special abilities and interests of the
student, power of sustained work, good health habits, integrity, sense of responsibility, coöperativeness, initiative and self-reliance in work and in social action. The College wishes to be informed of circumstances which may have furthered or interfered with a student's work and of special honors and accomplishments during the student's secondary school course.

Admission Plans

There are several possible plans of admission to Wellesley College. A description of each plan follows:

Plan A.—Under Plan A, examinations must be taken in all subjects offered for admission credit, either the examinations of the College Entrance Examination Board, Regents examinations of New York State or, for foreign students, the matriculation examinations of a foreign university. Plan A is used by less than a third of the candidates for admission to Wellesley College.

Examinations may be taken in two or more successive years. Students are advised to take final examinations in subjects which they expect to continue in College.

Entrance examinations in Biblical History, Harmony, Music Appreciation and Applied Music will be conducted by Wellesley College. Applications for these examinations must be made to the Secretary of the Board of Admission of Wellesley College by May 1.

For detailed information concerning the application for the examinations of the College Entrance Examination Board, candidates should consult the statement on pages 33–34 under the caption "Examinations of the College Entrance Examination Board."

Regents examinations with a rating of 75 per cent may be offered by students in New York State schools in place of the examinations of the College Entrance Examination Board. Credits must be presented on the card verified by the State Board of Education of New York. The Board of Admission considers an average lower than 90 per cent as doubtful evidence of ability for college work. For further information concerning the acceptance of Regents Examinations, candidates are referred to the Board of Admission of Wellesley College.

Plan B.—Under Plan B, four examinations of the College Entrance Examination Board are considered in connection with the school record to determine a candidate's admission. One examination subject must be chosen from each of the following groups: (1) English or History; (2) a foreign language; (3) * Mathematics, Physics, or Chemistry; (4) a fourth subject designated by the applicant from the list of admission subjects in which the College Entrance Examination Board offers ex-

* In group (3) an examination in Biology may be offered in place of Mathematics, Physics, or Chemistry, with the approval of the Board of Admission.
aminations. At least two examinations must each cover more than two years of work.

The Board of Admission must give its permission before the applicant may take the examinations. The comprehensive examinations set by the College Entrance Examination Board are rated by readers appointed by this Board, and are not reported to the candidate but only to the College for final decision by the Board of Admission.

Under Plan B the candidate, if admitted to college, will be admitted free from all conditions. Failure to meet completely the standard in either kind of evidence required will not necessarily involve rejection of the applicant; the Board may accept unusual excellence in one part of the credentials submitted as offsetting unsatisfactory evidence or even failure in another part. If the candidate fails of admission, she may be permitted to take examinations under Plan A or Plan B the following June.

The four examinations must be taken in one examination season in June in the examination centres provided by the College Entrance Examination Board. Full details about applying for these examinations will be found on page 33 under the caption "Examinations of the College Entrance Examination Board."

Plan C.—Under Plan C, candidates must take at the end of the junior year the Scholastic Aptitude Test and two examinations of the College Entrance Examination Board chosen from the groups required under Plan B (see page 30). The English examination should not be taken until the end of the senior year. On the basis of the results of these examinations, the Scholastic Aptitude Test, school records, and recommendations from the principal, candidates may be given permission to complete their credentials by taking two examinations in the next examination season. Acceptance will depend upon the results of the final examinations and upon the school records of the senior year. As in Plan B, the results of the examinations are reported to the College instead of to the candidate.

A candidate whose examination record at the end of the junior year is not satisfactory may apply for admission by examinations to be taken in the senior year under Plan A or B.

Candidates wishing to use Plan C should make application to the Board of Admission on or before May 1 of their junior year in secondary school and permission to take examinations must be obtained from the Board of Admission.

Plan D.—Under Plan D, admission depends on the school records and recommendations and the Scholastic Aptitude Test, which should be taken at the end of the junior year. To be considered for admission by Plan D, a candidate must apply for entrance to Wellesley College by
Admission

May 1 of the year in which she first graduates from secondary school and she must have ranked during the last two years of her school course among the highest seventh of a class containing at least seven students. When the graduating class numbers less than 75, Plan D as a method of admission is usually not advised for students low in the highest seventh group. Unqualified recommendation of the candidate by her school principal or headmistress is essential. Since all admission is on a selective basis, candidates for entrance by Plan D cannot be guaranteed admission.

Candidates from any school except those offering New York State Regents examinations may be considered for admission by Plan D. The College, however, will feel free in making its choice of students to consider the geographical distribution in the entering class and the proportional representation from public and private schools.

Progressive Education Association Plan.—Wellesley College is cooperating with the selected group of schools in the experiment in secondary education inaugurated by the Progressive Education Association. For the period of the experiment students with promising records from these schools will be eligible to be considered for admission on the basis of the school records and tests administered by the schools together with the Scholastic Aptitude Test of the College Entrance Examination Board.

Scholastic Aptitude Test

The Scholastic Aptitude Test of the College Entrance Examination Board is required of all candidates for admission and students are advised to take it at the end of the junior year in secondary school.

September Examinations

The comprehensive examinations of the College Entrance Examination Board are offered at Wellesley College September 20 to 24, 1937. Special permission to take these examinations must be obtained from the Board of Admission of Wellesley College, and requests should be entered by August 20. The September examinations are conducted as final examinations for a limited number of promising students for whom further examination in September is found necessary by the Board of Admission.

Dates on Which Admission Credentials Are Due

The following credentials must be in the hands of the Board of Admission before July 15 of the year in which entrance is desired:

1. Within at least two weeks after receipt, personal information blank with the candidate's choice of examination plan.
2. Before March 1—Scholarship applications and requests for financial aid. (*Form* must be obtained in advance. For information of basis of award, see page 159.)

3. Before May 1—Health certificates and two 2" by 1½" photographs.

4. During May—Application for examinations of the College Entrance Examination Board, including Scholastic Aptitude Test (for exact dates, see below).

5. Before July 1—Official transcript of school record for the final year. (Blank sent to school in May.)

**Examinations of the College Entrance Examination Board**

**June Examinations.**—The College Entrance Examination Board will hold examinations in June 1937 at over three hundred points in this country and abroad. A list of these places will be published about March 1, 1937. Requests that the examinations be held at particular points should be transmitted to the Secretary of the College Entrance Examination Board not later than February 1, 1937.

Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1. Upon request to the Secretary of the College Entrance Examination Board a single copy of this document will be sent to any teacher without charge. In general, there will be a charge of thirty cents, which may be remitted in postage.

All candidates wishing to take these examinations should make application by mail to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York, N. Y. Blank forms for this purpose will be mailed by the Secretary of the Board to any teacher or candidate upon request by mail.

The applications and fees of all candidates who wish to take the examinations in June 1937 should reach the Secretary of the Board not later than the dates specified in the following schedule:

**For Examination Centers:**

In the United States east of the Mississippi River or on the Mississippi . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . May 25, 1937

In the United States west of the Mississippi River or in Canada . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . May 18, 1937

Outside of the United States and Canada, except in Asia . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . May 4, 1937

In China or elsewhere in the Orient . . . . . . . . . . . . . . . . . . . April 20, 1937

An application which reaches the Secretary later than the scheduled date will be accepted only upon payment of $5 in addition to the regular examination fee of $10.
When a candidate has failed to obtain the required blank form of application, the regular examination fee will be accepted if the fee arrive not later than the date specified above and if it be accompanied by a memorandum with the name and address of the candidate, the exact examination center selected, and a list of the subjects in which the candidate is to take the Board examinations.

Candidates who have failed to file applications for examination may be admitted by the supervisor upon payment of a fee of $5 in addition to the regular examination fee. Such candidates should present themselves at the beginning of the period of registration. They will receive from the supervisor blank forms of application which must be filled out and transmitted to the Secretary of the College Entrance Examination Board.

In order to exhibit their tickets of admission, to present their identification cards, and to obtain seats in the examination room, candidates should report for a morning examination at 8:45 and for an afternoon examination at 1:45. An examination will close for candidates admitted late at the same time as for other candidates. The examinations will be held in accordance with the time (Standard Time or Daylight Saving Time) observed in the local schools.

No candidate will be admitted to the Scholastic Aptitude Test late, that is, after the test has begun.

The Scholastic Aptitude Test may be taken upon the completion of the school course or at the end of the third year of secondary school work. Each candidate desiring to take this test, even though he is to take no other examination, must file with the Secretary of the Board the usual application for examination. If the Scholastic Aptitude Test is taken in connection with other examinations, no additional fee is required; if taken alone, the fee is $10.

A week in advance of the Scholastic Aptitude Test each candidate who is to take the test should receive a booklet containing, with explanations and instructions, a specimen test, the blank spaces of which are to be filled in by the candidate. In order to secure admission to the test, the candidate must present not only his ticket of admission but also this booklet with the spaces filled in as requested.

It is very desirable that candidates who are to take the Scholastic Aptitude Test file their applications with the Secretary. Applications for the test will be accepted by the supervisor, however, up to the day before the test provided the supervisor's supply of material for the Scholastic Aptitude Test is sufficient.

Definition of Requirements

The requirements in all subjects in which the College Entrance Examination Board offers examinations are based on the statements out-
Admission

lined by this Board. The complete statement of these requirements may be found in the pamphlet called “A Definition of Requirements,” published annually by the College Entrance Examination Board, which may be obtained by sending thirty cents in stamps to the following address: College Entrance Examination Board, 431 West 117th Street, New York City.

Information about requirements for examination in subjects not covered by the pamphlet of the College Entrance Examination Board may be obtained directly from the Board of Admission of Wellesley College. A printed folder on the requirements in applied and theoretical music may be obtained from the Board of Admission.

ADMISSION TO ADVANCED STANDING

Terms of Admission

The number of students admitted to advanced standing in any year is limited and all entrance is on a selective basis. If a student has maintained an excellent record in college and has special interests which she can follow at Wellesley College, the Board of Admission encourages her to apply for entrance with advanced standing credit. For information about registration candidates should read page 27.

A candidate should show that she has covered in general the admission requirements for the freshman class of fifteen units of secondary school work (see page 28) and has completed at least a full year of highly satisfactory work at another college. She should be entitled to honorable dismissal from the college which she has attended and should be recommended by her instructors. The Board of Admission will give information about the colleges and universities from which credits are accepted.

Residence of at least two years is required to obtain the B.A. degree, of which one must be the senior year. The work of these two years must include all the prescribed work (see page 38), not covered by the credentials submitted. The exact amount of credit given for work completed in another college will not be determined until after the first year of residence. The success with which advanced standing candidates carry the work in the first year at Wellesley is an important consideration in deciding credit.

The selection of applicants for admission with advanced standing will be made in July of the year in which entrance is desired.

Credentials

The following credentials must be in the hands of the Board of Admission before July 1 of the year in which entrance is desired:
1. Official statement of college credits, with dates of attendance, courses offered for credit, grades attained in each course, entrance credits, and honorable dismissal.

2. Official record of any entrance examinations which have been taken.

3. Copy of the catalogue of the college attended, with name of candidate, list of courses offered for credit, and page references.

4. Letter of recommendation from one of candidate’s instructors and the Dean.

5. Health credentials.

6. Statement from candidate of her reasons for wishing to transfer to Wellesley College and of the subjects of her major interest.

**Admission of Candidates for the M.A. and M.S. Degrees**

Candidates for the degree of Master of Arts or Master of Science in Hygiene and Physical Education must be graduates of Wellesley College or of other institutions of satisfactory standing, and must present adequate credentials signifying their ability to carry on the work for the degree.

Application for admission as a graduate student in any department should be made upon a form which will be furnished by the Dean of Graduate Students on request. It is desirable that the application be sent by March first of the year in which the student proposes to enter. It should be accompanied (1) by the official record of courses and grades, (2) by a copy of the catalogue of the institution attended, marked to indicate the courses taken, (3) if possible, by papers and reports of work.

A matriculation fee of five dollars is payable when a student is accepted as a candidate for the Master’s degree. The amount of this fee will be deducted from the diploma fee of twenty-five dollars payable when the degree is received.

Graduate fellowships and scholarships are described on pages 154-157.

A circular containing full information for graduate students will be sent on application to the Dean of Graduate Students. For requirements for the M.A. and M.S. degrees see page 42.

**Admission of Students Not Candidates for a Degree**

**candidates for the certificate in hygiene and physical education**

A two years’ course, especially designed for the training of teachers of hygiene and physical education, and leading to the certificate of the
Degrees

Department of Hygiene and Physical Education, is offered to graduates of approved colleges who meet the requirements. Full information will be found on pages 113–118.

Correspondence should be addressed to the Dean of Graduate Students.

Candidates for Special Work in Other Departments

Applicants who give satisfactory evidence of ability to pursue advanced courses of study may be admitted at the discretion of the Board of Admission, provided that they satisfy the requirements of the departments which they propose to enter. It will be noted that opportunities for prosecuting work along special lines are thus open to persons of experience and success in teaching who possess the requisite qualifications for admission to college classes.

Applicants of less maturity and attainment are not ordinarily admitted. If such desire admission they must expect to meet the requirements prescribed for admission to the freshman class, or a full equivalent for them, and to satisfy such additional requirements as are prescribed by the departments which they propose to enter. Specific statements of these requirements in Music will be found on page 131.

As the capacity of halls of residence is not sufficient for candidates for degrees, special students cannot be lodged in the college buildings. Comfortable homes may be found in the village at about the same expense as in college houses.

Correspondence should be addressed to the Secretary of the Board of Admission.

Degrees

The following degrees are conferred by the Trustees upon recommendation of the Academic Council:

Bachelor of Arts.
Master of Arts.
Master of Science in Hygiene and Physical Education.

Requirements for the B.A. Degree

In constructing the curriculum of which the requirements are given below, the faculty was guided by a belief that a student's four years in college should give her several specific sorts of training. The prescribed work is planned to assure her possession of certain skills which are of general use, and to add to the information which she has acquired before coming to college further information considered of fundamental importance. Thus the prescribed work in English Composition, Speech, and foreign language is designed to assure her having accuracy and effectiveness in speaking and writing English, and in reading at least one foreign language. The prescription in Hygiene affords the student a knowledge of the laws of health. The prescribed work in Biblical History gives a knowledge of the historical basis of Christianity.

The requirement of work for distribution is made with the purpose of securing for each student some acquaintance with methods of work and ways of thinking in various repre-
sentative fields of knowledge. The requirement of work for concentration is made in order that the student shall make a reasonably thorough study of one field of knowledge. The curriculum is so planned that a student has an opportunity for a considerable amount of absolutely free elective work.

Every candidate for the B.A. degree must complete before graduation the equivalent of sixty hours, and have in addition a reading knowledge of either French or German.

The examination to test the student’s reading knowledge of French or German may be taken at the beginning of the freshman, sophomore, or junior year. A reading knowledge of either Italian or Spanish may be accepted by the Academic Council as a substitute for a reading knowledge of French or German in cases in which students can show that such a knowledge of Italian or Spanish is needed by them for work in some particular field. Students majoring in a modern foreign language will be tested in a reading knowledge of a second language, ancient or modern; such students may postpone the examination until the beginning of the senior year.

Of the sixty hours required for the B.A. degree a certain number is prescribed, a certain number must be elected to fulfill the requirements of work for distribution and work for concentration, the rest is free elective.

I. Prescribed. The following subjects are required as specified:

Biblical History . . . . . . . . . . . . . . . . . . . . . . 3 hours
English Composition (unless exempted for the second
semester by the department) . . . . . . . . . . . . . . 3* “
Hygiene and Physical Education 120 (unless exempted by
examination) . . . . . . . . . . . . . . . . . . . . . 1 hour
Hygiene and Physical Education (practical) . . . . . 1† “
Speech (unless exempted by examination) . . . . . 1 “

Of the required subjects, English Composition, three hours, must be taken in the freshman year; Hygiene and Physical Education one and one-half hours in the freshman year, and one-half hour in the sophomore year; Biblical History, three hours, in the sophomore year; Speech, one hour, before the junior year.

II. Work for Distribution. Six hours in addition to the prescribed work, to be elected in each of the three groups given below. The six hours in each of the three groups are to be elected so as to fall three hours in one department and three hours in another. Only one beginning course in a modern language may be counted for distribution.

Group I. Art, English Composition, English Literature, French, German, Greek, Italian, Latin, Music, Spanish, Speech.

* If a student fails to pass with a grade of at least C in the second semester of English Composition 101, she will be required to take an additional semester course in the sophomore year.
† The second hour in Hygiene and Physical Education is met by four periods in practical work, two periods per week in the freshman year and two in the sophomore year.
Group III. Astronomy, Botany, Chemistry, Geology and Geography, Mathematics, Physics, Zoology and Physiology.

Every freshman must take for distribution three hours in each of two groups; and every student is required to have had by the end of her sophomore year at least three hours counting for distribution in each group.

III. Work for Concentration. Twenty-one hours in one field of concentration, of which a major of twelve to fifteen hours shall be in one department, and nine to six hours shall be in courses related or supplementary to the major but falling in one or more departments other than that in which the major is taken.*

All courses are classified in grades I, II, III; grade I including elementary courses and grade III the most advanced courses. Of the courses offered to fulfill the requirement of work for concentration at least one full course of grade III must be taken in the senior year. Of the twenty-one hours required at least nine hours must be above grade I and at least six hours must be of grade III.

Every candidate for the B.A. degree must pass a general examination in a major subject in addition to the regular course examinations.

Course Examinations

An examination period occurs at the end of each semester. At these periods, and also during the days of the admission examinations in September, examinations for the removal of conditions and deficiencies and for advanced standing may be taken.

A student who wishes to take an examination upon a course which is not a part of her approved schedule for the year, must apply to the College Recorder for the requisite card of admission to the examination. The last day for receiving applications for such cards is for the September examinations, September first; for the mid-year examinations, January first; for the June examinations, May first.

N. B. Examinations for the removal of conditions and deficiencies excepted, no student can be admitted to examination upon a course which is not a part of her approved schedule for the year without permission both from the chairman of the department concerned and her class dean. No student, therefore, should enter upon preparation for such an examination until her plan has been approved by both of the above named officers.

Standard for Graduation

A certain quality grade is required for graduation and, for the purpose of determining this quality grade, numerical values called "points" are given to the grade letters as follows: for grade A, three points for each

*In the interpretation of this requirement the departments of Geology and Geography, History and Political Science, Philosophy and Psychology shall count in each case as two departments.
semester hour of the course in which the grade is received; for grade B, two points; for grade C, one point; for grade D (passing), no points; for a grade below D, no points and not counted in hours toward a degree. In order to be recommended for the degree of Bachelor of Arts a student must in each semester attain as many quality points as the hours she carries, i.e., a C average. Deficiency of points in any semester may be made good only in accordance with regulations adopted by the faculty. Students who are deficient in quality points at the end of the third year or who are otherwise not of diploma grade will not be permitted to continue.

The College reserves the right to require the withdrawal of students whose scholarship is not satisfactory, and of those who for any other reason are regarded as not in accord with the ideals and standards which the College seeks to maintain.

**Honors in a Special Field**

Students who wish to become candidates for Honors may apply in the spring of their sophomore or junior year to the special committee appointed to consider these applications. All applications must be accompanied by recommendations from instructors.

A student electing to study for Honors will choose a Field of Special Study and will work in that field under the direction of one or more of the instructors concerned who will advise her on the possible development of her field and will guide her in the carrying on of independent work within it.

A candidate for Honors in a Special Field must take all the prescribed work, and a minimum of twenty-one hours in the chosen field. This field includes work in the major department and allied courses, and with the approval of the major department directing the work may include three hours of directed study independent of scheduled courses in the junior year and three hours in the senior year. The able student is thus led to form habits of investigation in a manner to assist her in advanced study.

Admission to Honors in a Special Field will be confined to candidates whose scholarship, maturity, and previous range of acquirement justify exceptional concentration. The work in the Field of Special Study for such a candidate will be subject to the following tests:

1. In general, the regular tests of the courses in the Field of Special Study must be taken.

2. A comprehensive examination must be taken in the student's field at the close of the senior year. This examination will take the place of the general examination required for seniors and will be in part or wholly oral.
Pre-Medical Course

Each student who is planning to study medicine is advised to confer with her class dean before the beginning of her sophomore year.

Entering students are advised to elect two pre-medical sciences in the freshman year.

In general, requirements for admission to medical schools of Class A can be met by nine hours in Chemistry and six hours in Physics and Zoölogy respectively, but each student is advised to study carefully the requirements for the particular school which she has chosen.

Attention is called to the fact that twelve hours are required as a basis for the general examination in any department. It is, however, possible to fulfill the minimum requirement for medical schools, and to take the general examination in an entirely different field.

Preparation for Hospital and Public Health Work

Students planning to prepare for work in hospital or public health laboratories should begin both Chemistry and Zoölogy in their freshman year in order to have the necessary foundation for advanced courses. The departments of Botany, Chemistry, and Zoölogy should be consulted concerning combinations of courses in later years of the college course.

General Instructions

The program in the freshman year is as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>English Composition 101</td>
<td>3</td>
</tr>
<tr>
<td>Hygiene 120</td>

<td>½</td>
</tr>
<tr>
<td>Electives, 4 three-hour courses</td>
<td>12</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>16½</td>
</tr>
</tbody>
</table>

The courses must be chosen in accordance with the prerequisites given in the department statements from the list of courses named below, with the provision that one course must be chosen from each of two of the three groups (see below and also page 38), and with the advice that the choice should not include two beginning courses in modern language.

Elective Courses Open to Freshmen, Arranged by Groups

By special permission a student who wishes to carry only fourteen and a half hours in her freshman year may take the one-hour French course 202, or Italian 102, or the required one-hour course in Speech if she has not elected the three-hour course in Speech.

If 16½ hours are satisfactorily completed in the freshman year, the normal program for the remaining years would be as follows:

- Sophomore year ........................................ 16½ hours
- Junior year ........................................... 15 “
- Senior year ............................................ 12 “

If 16½ hours are not completed in both the freshman and sophomore years, it will be necessary for a student to attend summer school or to carry more hours in the junior and senior years than specified above, subject to the usual regulations.

Elective courses must be chosen with great care so that changes will not be necessary. Students are held responsible for observing the requirements for the degree and the proper sequence of courses.

Students, except entering freshmen, are required to choose in May their electives for the year following. All requests for changes of elective courses should be sent in time to reach the College before September 15th.

Requirements for the M.A. and M.S. Degrees

Wellesley College offers graduate work leading to the degrees of Master of Arts, and Master of Science in Hygiene and Physical Education. The work required of a candidate is considered to be the equivalent of twelve hours of college work. In general, a candidate is required to work in one department. The program includes no fewer than two full courses of Grade III or their equivalents, and may include a thesis embodying the results of original research, or a report or reports based on independent work. A candidate for either degree is required to have a working knowledge of either French or German, to be tested by examination at entrance. Individual departments may require a second language. At least one year of graduate study is required of all candidates, but more time may be needed for the completion of the

* Require special permission of Dean of Freshmen.
work. One year *in residence* is required of all candidates except graduates of Wellesley College who have done the work at some institution which does not grant a Master’s degree to women.

Information regarding requirements for admission, theses, final examinations, etc., will be found in the Graduate Circular which will be sent on application to the Dean of Graduate Students.
COURSES OF INSTRUCTION

1936–37

The following courses of instruction are offered by the several departments. The College reserves the right to withdraw the offer of any course not chosen by at least six students.

All courses are classified in grades I, II, III; grade I including elementary courses and grade III the most advanced courses. Grade I courses are numbered 101, etc.; grade II courses 201, etc.; grade III courses 301, etc.

An asterisk (*) before the number of a course indicates that it is open to freshmen.

HISTORY OF ART

Certain courses in the history of art include laboratory work in drawing, painting, and modeling, in order to develop observation and increase appreciation of aesthetic values. This laboratory work requires no artistic aptitude, and is recommended to all who wish to make a serious study of art. On the other hand, work in the laboratory will be adapted to those students who have had previous training in art. For those who do not wish to try the laboratory method, other courses are offered.

This course, though planned to lay foundations for further study of the history of art and leading directly to course 205, is complete in itself, having for its theme classic art, its inheritances and its part in later Italian art. First semester: Greek art, its predecessors in Egypt, Mesopotamia and Ægean lands, and the art of pagan Rome. Second semester: Christian art in the East and in Italy. The laboratory work includes drawing, modeling, and water color.

Open to all students except those who have completed or are taking course 102 or 203. Three hours a week for a year.

MISS AVERY, MISS DE NERSSIAN, MR. CAMPBELL, MRS. ROBINSON, MISS ABBOT, MISS KREINER, MISS WALWORTH.

1 Absent on leave.
4 Appointed for the first semester only.
5 Appointed for the second semester only.
205. **Introductory Course (2): Mediaeval, Renaissance, and Modern Art.**

First semester: Mediaeval art, with emphasis on Romanesque and Gothic architecture. Second semester: Renaissance and modern art, with emphasis on painting. The laboratory work includes modeling and oil painting.

Open to students who have completed course 101 or an equivalent. Not open to students who have completed or are taking course 202. Three hours a week for a year.

Miss Der Nersessian, Mrs. Robinson, Miss Terry.

*102. Ancient, Early Christian, and Italian Art.*

The ground covered is in general the same as in course 101, but studies in the technique of drawing, modeling, and water color are not included.

Open to all students except those who have completed or are taking course 101 or 203. This course may be offered as prerequisite for course 205 if supplemented by course 104 or an equivalent. Three hours a week for a year.

Mr. Jeffery, Mrs. Robinson.

202. **Mediaeval, Renaissance, and Modern Art.**

The ground covered is in general the same as in course 205, but studies in modeling and oil painting are not included.

Open to students who have completed course 101 or 102 and to juniors and seniors without prerequisite. Not open to students who have completed or are taking course 203 or 205. Three hours a week for a year.

Mr. Jeffery.

203. **Outline Course in the History of Art.**

This course follows the development of styles in architecture, sculpture, and painting, emphasizing Greek sculpture, French mediaeval architecture, and Italian Renaissance painting. The purpose is to develop observation and to provide a basis for the appreciation of contemporary art as well as to study the great monuments of the past. Laboratory work is not included.

Open to seniors except those who have completed or are taking course 101, 102, or 202. Three hours a week for a year.

Miss Avery.

207. **Chinese and Japanese Art.**

A study of the art of China and Japan as it reflects the life and philosophy of the major periods. The laboratory work includes some practice in Japanese brush handling.

Open to juniors and seniors without prerequisite. Three hours a week for the first semester.

Mr. Campbell.

209. **Art of the Roman Empire.**

A study of the major monuments of architecture, sculpture, and painting throughout the Roman Empire from the formation of the Roman style to the beginning of the Byzantine. Laboratory work is not included.

Open to sophomores, juniors, and seniors who have completed course 101, 102, or 106; or to juniors and seniors who have completed History 204 or a grade II course in Latin. Three hours a week for the second semester.

Mr. Campbell.
Courses of Instruction

The life and thought of ancient Egypt, Mesopotamia, and Persia as expressed in their art. The contribution of recent excavations will be carefully considered. Laboratory work is not included.

Open to sophomores who have completed course 101, 102, or 106 and to juniors and seniors without prerequisite. Three hours a week for the first semester.

Miss Der Nersessian.

211. Moslem Art.

A study of the architecture, sculpture, painting, and minor arts of the Moslem people, beginning with the time of the khalifs of Damascus and of Bagdad, and continuing to the XVIII century. Monuments of Syria, Asia Minor, Persia, North Africa, Spain, and Turkey will be considered, with special emphasis on the decorative arts. Laboratory work is not included.

Open to juniors and seniors without prerequisite. Three hours a week for the second semester.

Miss Der Nersessian.

212. Spanish Art.

A study of the architecture, sculpture, painting, and minor arts of Spain from the period of classical influence to the present day. The material is divided into six main parts: the pre-Romanesque churches, Moorish architecture and decoration, Romanesque art, Gothic art, Renaissance art, and the art of the XVII and XVIII centuries. Architecture and painting will be emphasized and special attention given to the great painters of the later period: El Greco, Velasquez, Ribera, Zurbaran, and Goya. The art will be related to the cultural background of the different periods. Laboratory work is not included.

Open to juniors and seniors without prerequisite. Three hours a week for the second semester.

Mr. Heyl.

302. Florentine and Umbrian Painting of the Renaissance.

Beginning with Cimabue and Giotto in the late XIII century and culminating with Michelangelo and Raphael in the XVI century, this course traces the development of Florentine and Umbrian painting of the Renaissance and relates this art to the general cultural background of the period. Emphasis will be placed upon a stylistic analysis of the works of individual artists and upon the more general changes in style which occurred during the Renaissance. Problems connected with Giotto, Masaccio, Leonardo, and Michelangelo will be studied.

Open to juniors and seniors who have completed course 205 or, by permission, course 202. Three hours a week for the second semester.

Mr. Heyl.

303. Painting of the Italian Renaissance. (Not offered in 1936-37.)

A study of the rise and development of painting in Italy, including some study of contemporary sculpture.

Open to juniors and seniors who have completed or are taking course 205 or, by permission, course 202. Three hours a week for the second semester.

Mrs. Bongiorno.
304. **The Architecture of the Renaissance.**

The period considered extends from the dissolution of the medieval styles to the appearance of the revival styles of the XVIII century in Italy, France, Germany, and Spain. The student is given a variety of approaches to the many aspects of architecture in the lectures and in the assignment of problems. These approaches consider architecture as building, with problems of stability and permanence of structure, as an expression of a certain culture to which they are related, and as products of aesthetic theories expounded in the written works of architects of the period. Laboratory work is not included.

*Open to juniors and seniors who have completed course 205 or 202. Three hours a week for the first semester.*

**Mr. Jeffery.**

305. **Modern Painting.**

Emphasis will be placed on the development of French painting from the XVII century to the present day, as a background for the study of contemporary movements. Practical experiments in composition, form, and color will be used as a basis for the study of modern characteristics.

*Open by permission of the department to seniors who have completed course 303, 311, or 313. Three hours a week for the second semester.*

**Miss Kreiner**

306. **Engraving and Etching from the Renaissance to the Present Time.** (Not offered in 1936-37.)

A study of the rise and development of engraving and etching including comparisons with the allied arts of woodcutting, mezzotinting, and lithographing, and a brief study of technical processes. Frequent visits to the Boston and Fogg museums will be required.

*Open to juniors and seniors who have completed or are taking course 205 or 202. Three hours a week for the second semester.*

**Mrs. Bongiorno.**

307. **Studies in Medieval Art.** (Not given in 1936-37.)

Problems in style and iconography connected with the origins of Italian painting and sculpture, involving the study of medieval miniatures and ivories and early frescoes and sculpture of Campania and the Abruzzi. Laboratory practice in the technique of tempera, fresco, and manuscript illumination.

*Open to juniors and seniors who have completed course 205 or, by permission, course 202. Three hours a week for the second semester.*

**Miss Avery, Miss Abbot.**

309. **Modern Architecture.**

The purpose of the course is to analyze and relate to contemporary thought the development and variety of architectural styles of the modern period. Emphasis will be placed on the architecture of our own country, as a preparation for which the course will begin with a study of XVII century work in England. The various revivals and eclectic styles of the XIX century will be studied and related to the expression of these ideas in other arts. The course concludes with a study of the integration of the new materials and methods of construction in the architecture of the XX century. Laboratory work is not included.

*Open to juniors and seniors who have completed course 205 or 202. Three hours a week for the second semester.*

**Mr. Jeffery.**
310.† Medieval Sculpture.
A study of the blending of classic and barbarian inheritances in the Middle Ages and the emergence of the sculptural expression of the Renaissance. The laboratory work includes modeling from life to develop a better understanding of the conventions of sculpture.

Open to students who have completed or are taking course 205 or, by permission, course 202. Three hours a week for the first semester.
Miss Avery, Miss Abbott.

311. Painting of Northern Europe.
The period of study extends from about 1300 to 1600 in France, Germany, and the Low Countries, and includes the XVII century in Flanders and Holland.

Open to juniors and seniors who have completed course 205 or an equivalent. Three hours a week for the first semester.
Mr. Heyl.

313. Baroque Art.
This course discusses architecture, sculpture, and painting of the XVII century in several European countries, from three points of view: the rise and development of these arts, the iconography of the period, and the general principles underlying the baroque style. In architecture and sculpture, Italy will be emphasized with Bernini as the leading figure; in painting, with which the course is largely concerned, the development in Italy will be traced and related to the work of such contemporary artists as El Greco, Poussin, Rubens, and Rembrandt. Baroque art will be considered also as an expression of the religious and philosophic thought of the period. Laboratory work is not included.

Open to juniors and seniors who have completed course 205 or 202. Three hours a week for the first semester.
Mr. Heyl.

314. Byzantine Art. (Not offered in 1936–37.)
Mosaics and paintings of Byzantine, Bulgarian, Serbian, and Russian churches from the VI to the XIV century. Problems in style and iconography with opportunities for independent work and comparative studies with Italian art. Laboratory work is not included.

Open to juniors and seniors who have completed or are taking course 202 or 205. Three hours a week for the first semester.
Miss Der Nersessian.

320. Greek Sculpture.
A study of Greek sculpture from the Archaic to the Graeco-Roman period, supplemented by comparison with collateral material, such as Greek vase painting, to amplify the knowledge of style in different periods.

Open to juniors and seniors who have completed or are taking course 205 or 202 or History 203 or a grade II course in Greek or Latin. Laboratory work will include drawing and modeling. Three hours a week for a year.
Mr. Campbell.

324. Studies in Domestic Architecture. (Not offered in 1936–37.)
A critical study of selected types of house design. This will include comparisons of one type in different countries, such as the half-timber house in England,

† The second semester of course 310 (Renaissance and Modern sculpture) will not be offered in 1936–37.
France, and Germany; analysis of developments and interrelations, as in the Renaissance styles; and an investigation of the underlying principles of modern house building. Laboratory instruction in architectural sketching.

This course will be concerned with the fundamental principles underlying design, the development of form and movement in representative art, and of architectural forms and ornament in different periods and regions. Such general topics will be considered as: portraiture, treatment of space and of backgrounds, plastic and linear representation, the effect on a work of art of the artist's conception of his subject, limitations of material and of technical methods, reflections of cultural and political changes. Throughout the course, although the emphasis will be placed on direct study of works of art, the contribution of writers in each field will be evaluated. Some problems will be worked out in the laboratory.

Open to seniors who have completed or are taking six hours of grade III or, by permission, to seniors who have completed twelve hours in art. Three hours a week for the second semester.

Miss Avery.

350. Research or Individual Study.

Independent work on special problems under direction of one or more members of the department.

Open by permission of the department to juniors and seniors who have completed or are taking a course of grade III. Three hours a week for a semester or for a year.

STUDIO COURSES

Three hours of studio work may count toward the degree if one full course in the History of Art has been completed; and four and one-half to six hours after two full courses in the History of Art have been completed.

*103. Studio Practice.

Modeling, drawing, sketching, and painting (oil and water-color).

Open to sophomores, juniors, and seniors, and to approved freshmen who have studied art before entering college. Six periods of class instruction and three of studio practice counting three hours a week for a year. This course may count toward the degree after one full course in the History of Art has been completed.

Miss Abbot, Miss Kreiner, Miss Scudder.

104. Laboratory.

This course covers the same ground as the laboratory work of 101, and is designed for students who have taken course 102 instead of 101 and wish to major in art. It includes elementary studies in drawing, modeling, and water color and is planned for those who are conscious of no talent for practical art. Its purpose is to develop informed appreciation through practical study of the elements of the artist's technique, and to train students of the history of art in quick sketching and the use of color for recording observation.

Open to sophomores, juniors, and seniors who have not taken course 101 or course 103. One period of class instruction and two of studio practice counting one hour a week for a year. This course may count toward the degree after one full course in the History of Art has been completed.

Mrs. Robinson.
Courses of Instruction

204. Studio Practice.

Design.

Open by permission of the department to sophomores, juniors, and seniors who have completed course 101, 103, or 104. Six periods of class instruction and three of studio practice counting three hours a week for the first semester. This course may count toward the degree after two full courses in the History of Art have been completed.

Miss Abbot.

208. Composition.

Principles of design related to various types of composition, in conjunction with direct study from the human model, still life, or landscape. Problems may take the form of book illustration, painting and mural decoration, decorative sculpture, etc.

Open to students who have completed course 204. Six periods of class instruction and three of studio practice counting three hours a week for the second semester. This course may count toward the degree after two full courses in the History of Art have been completed.

Miss Abbot.

Directions for Election

Courses 101 and 205, followed by grade III courses, form the usual sequence for a major in Art. Courses 102 and 202 may in special cases be substituted for courses 101 and 205 by permission of the department. A reading knowledge of French, German, and Italian is important if a serious study of the History of Art is contemplated.

Students wishing to major in classical archaeology should take at least one college course in the Greek and Latin languages; and, in accordance with the chosen field, should elect some of the following courses: Latin 104, 303, 304, 306, 307; History 203, 204.

General Examination

The general examination will be in two parts, two hours in the morning (with slides or photographs) and two hours in the afternoon.

It will be designed to test:

1. Knowledge of outstanding examples from earliest times to the present day.
2. Understanding of the meaning of terms commonly used in the study of art.
3. A general comprehension of the relations of the different styles and periods.
4. Ability (a) to make use of visual material in presenting a subject; (b) to perceive the value of evidence; (c) to coordinate material and present it logically.

Museum Training Course

This course is open to graduates only and is described in a separate circular.
Astronomy

Astronomy

Professor: John Charles Duncan, Ph.D. (Chairman)
Instructor: Helen Walter Dodson, Ph.D.
Assistant: Alice Eleanor Taylor, B.A.
Custodian: Katharine Bullard Duncan.

*101. Descriptive Astronomy.
A general survey of the facts of Astronomy, of the methods by which they are obtained and of the theories that account for them; facts with which every educated person should be familiar in order to understand the astronomical allusions occurring in literature and to be alive to the beauty of the order that is about us.

Open to all undergraduates. Two lecture appointments, one two-period laboratory appointment, and an average of one hour of evening observations, with an additional lecture appointment at certain seasons, counting three hours a week for a year.

Mr. Duncan, Miss Dodson, Miss Taylor.

206. The History of Astronomy. (Not offered in 1936–37.)
Development of the science from ancient times to the present, with special emphasis on the period since Copernicus. Recitations, and reports by students.

Open to students who have completed course 101. Three hours a week for the second semester.

Mr. Duncan.

207. Practical Astronomy.
Practice in the use of astronomical instruments and methods, with emphasis on observation with the equatorial telescope and its attachments.

Open to students who have completed course 101 or 102. Three hours a week for the first semester. This course involves both daytime and evening work at the Observatory.

Miss Dodson, Miss Taylor.

208. Practical Astronomy.
Practice in the use of astronomical instruments and methods, with emphasis on the transit instrument and the determination of time, longitude, and latitude.

Open to students who have completed course 101 or 102 and who have a knowledge of Trigonometry. Three hours a week for the second semester. This course involves both daytime and evening work at the Observatory.

Mr. Duncan, Miss Taylor.

300. Stellar Astronomy.
Studies of the number, brightness, distribution, and motions of the stars; double and variable stars; structure of the Galaxy; extra-galactic systems.

Open to juniors and seniors who have completed Astronomy 101 and who have a knowledge of Trigonometry. Three hours a week for the first semester.

Miss Dodson.

301. Astrophysics.
Astronomical spectroscopy; the laws of radiation; determination of radial velocities; physical properties and constitution of the stars.

Open to students who have completed course 101 and Physics 301. Three hours a week for the second semester. When combined with Physics 301 it may be counted toward a major in Astronomy or Physics.

Miss Dodson.
302. Determination of Orbits.

Determination, from three observations, of the elliptic and parabolic orbits of bodies in the Solar System. Orbits of binary stars. Theory and practice.

Open to students who have completed course 101, and who have a knowledge of Calculus. This course may be counted toward a major in either Astronomy or Mathematics. Three hours a week for a year. Mr. Duncan.

303. Celestial Mechanics. (Not offered in 1936-37.)

The attraction of bodies of various forms under Newton’s law of gravitation. The problems of two and of three bodies. Perturbations.

Open to students who have completed Differential and Integral Calculus. Three hours a week for a year. Mr. Duncan.

Open to graduate students. Ordinarily, three hours a week for a year. Mr. Duncan, Miss Dodson.

350. Research or Individual Study.

Work under one or more members of the department on subjects to be determined by the interests and capabilities of the individual student. This course may be taken repeatedly.

Open by permission of the department to graduates and other advanced students. Two or three hours a week for a semester, or one to three hours for a year. The amount of work contemplated must be indicated at the time of handing in electives.

DIRECTIONS FOR ELECTION

All students who desire a general knowledge of astronomy and of the universe around them as a part of their general education should elect course 101. Those for whom this course is insufficient but who would avoid technicalities may well continue with course 207 or course 206.

A major in astronomy should ordinarily include courses 101, 207, 208, 300, 301, and 302. This combination of courses demands as prerequisites two courses in mathematics and one and one-half courses in physics. In addition, a reading knowledge of French and German is useful.

Astronomy 301 may be counted toward a major in physics, and Astronomy 302 toward a major in mathematics.

GENERAL EXAMINATION

The general examination in astronomy will be based upon the combination of courses which the student has taken as a major. A choice of questions will always be allowed. In addition to the written questions, there will be an opportunity for the student to show her familiarity with the use of astronomical instruments. No study during vacations will be required.
BIBLICAL HISTORY, LITERATURE, AND INTERPRETATION

Professors: Louise Pettibone Smith, Ph.D.
Seal Thompson, M.A.

Associate Professors: Muriel Streibert Curtis, B.A., B.D. (Chairman)
Gordon Boit Wellman, Th.D.

Assistant Professors: Katy Boyd George, M.A.
Joseph Garabed Haroutunian, B.D., Ph.D.

Instructors: James Philip Hyatt, M.A., B.D.
Milton Vasil Anastos, B.A., S.T.B.
Margaret Hopkins Wengren, B.A.

The requirement in Biblical History may be met in any of the following ways:
2. By course 104.
3. By course 210 (see prerequisite).

If 112 and a semester course in the New Testament are chosen, one and one-half hours may be counted as a free elective or, if another semester course is taken in the department, it may be counted toward distribution.

Students intending to major in the department are advised to choose the first alternative.

104. STUDIES IN THE OLD AND NEW TESTAMENTS.

First Semester: Selected Parts of the Old Testament. Aims: (1) Some comprehension of the religion which prepared the way for Christianity and which is one of the principal influences that has shaped our civilization. (2) Familiarity with some of the prose and poetry of a great classic. (3) Some understanding of scholarly methods of handling Biblical material. (4) A perspective in religious thinking which may aid in building a foundation for the student's own religion.

Second Semester: A study of Jesus as he is presented in the first three gospels. The aim is to examine the environment in which he lived, to study the events of his life from the historical point of view, to understand his teaching, and to discover his abiding significance.

Required of sophomores except as indicated above. Three hours a week for a year.

Mrs. Curtis, Miss Smith, Miss Thompson, Mr. Wellman, Miss George, Mr. Haroutunian, Mr. Hyatt.

112. THE HISTORY AND ARCHAEOLOGY OF THE OLD TESTAMENT. (Not given in 1936–37.)

This course deals with the political and religious history of the Old Testament period. There is included such study of the literary problems of the Old Testament books as is necessary to make intelligible the development of thought. The archaeology of Biblical countries is studied as illustrative of the history and the life of the people at successive periods. This course is advised, not only for those majoring in the department, but also for those who wish opportunity for a more intensive study of the Old Testament than is possible in the first semester of 104.

Open to sophomores. Three hours a week for a year.

Mr. Hyatt.

202. THE LIFE OF JESUS. (Not offered in 1936–37.)

This course continues the study of the Bible begun in course 112. It covers the same general ground as does the second semester of course 104, but in a more mature and intensive way.

* Absent on leave for the second semester.

† Appointed for the second semester only.
Open to students who have completed course 112. Three hours a week for the first semester.

203. Elementary Hebrew.

The elements of Hebrew grammar, with practice in translation and the memorizing of a vocabulary. Reading of selections from the Old Testament. At the end of the course the student should be able to read simple Hebrew and to use the language in the study of the Old Testament.

Open to juniors and seniors. Three hours a week for a year. Miss Smith.

204. The Beginnings of Christianity.

This course is designed to enable those students who have already studied the Life of Jesus in course 104 or 202 to complete their study of the New Testament and to see the principles of Jesus at work as they came in contact with the life of the Graeco-Roman world. It deals with the rise and earliest development of the Christian religion. The New Testament forms the basis for this study, with emphasis upon the thought of Paul and of the Fourth Gospel.

Open to students who have completed course 104, 202, or 210. Three hours a week for a semester. Offered in both semesters. Miss Thompson.

(Not offered in 1936-37.)

The course will deal with the development of Paul’s theology. Such topics as these will be discussed: Paul’s theology as a Pharisee: his conception of God, sin, salvation; his experience of Christ; his later theology. Parts of the following books will be read in Greek: Acts, I and II Corinthians, Romans, Philippians, Galatians.

Open to students who have completed course 210. Three hours a week for the second semester.

207. History of Religions.

The aim of this course is to study the history of religions from the earliest historical period through the leading religions of today. The approach is from the historical standpoint and includes a study of comparative developments and values. Readings, discussions, special topics, and short papers.

Open to juniors and seniors who have completed the required work in Biblical History. Three hours a week for a year. Mr. Wellman.

(Not offered in 1936-37.)

A study of the attitudes of the Christian church toward social and political questions in certain periods of her history. Among the topics studied are the ethical aspects of the conflict between the Christian church and the Roman Empire, the results of the development of monasticism upon the ethical standards of the church, the social ethics of the great Protestant reformers. Emphasis will also be placed upon such modern movements as Christian socialism and the “social gospel.”
Biblical History

Open to students who have completed the required work in Biblical History and who have taken or are taking Economics 101 or History 102 or any other course in modern history. Three hours a week for the first semester.

This course offers opportunity for more detailed work on selected portions of the Old Testament. Both content and emphasis (historical, literary, religious) are determined by the interests of the students. Special reports and papers on selected topics.

Open to students who have completed course 104 and by permission to students who have finished the first semester of course 104. Required of those who major in the department and who have not taken course 112. Three hours a week for the second semester.

Miss Smith.

210. The First Three Gospels in Greek.
This course is planned for those students who, in fulfilling the Biblical History requirement, prefer to study the gospels in Greek rather than in English translation.

Open to students who have completed or are taking a grade II Greek course. Students choosing this way of fulfilling the requirement in Biblical History may postpone the work until their junior year without special permission. Students taking course 112 may elect this course in the second semester. Three hours a week for the second semester.

Miss George.

211. The Old and New Testaments in the Light of Archaeology.
The purpose of this course is to study the results of archaeology in their bearing upon Biblical history and religion. Emphasis is placed upon the value of archaeology in illustrating, testing, and making vivid the Biblical records. Primary attention is given to the discoveries in Palestine as portraying the life and customs of the people in that land, and the inscriptions of Palestine and surrounding countries which have significance for Biblical history are studied in translation.

Open to juniors and seniors who have completed the required work in Biblical History. Three hours a week for the first semester.

Mr. Hyatt.

301. Seminar in History of Religion.
This study consists of readings and discussions in the history of religions. Each student will be expected to investigate and study some particular historical problem. Emphasis will be laid upon the historical method of study as well as upon an understanding of the characteristic development of the religion under attention. The course is given in one weekly appointment, possibly running into extra schedule hours.

Open to approved seniors. Three hours a week for the first semester.

Mr. Wellman.

302. Interpretations of Christianity.
The aim of this course is to study the varying conceptions of the essentials of Christianity as formulated in some of the most important periods of the history of the church; to consider these conceptions in their relations to the religion of the New Testament and to the religious thought of the present day. This
Courses of Instruction

course will be given in one weekly appointment running into extra schedule hours.

Open to approved seniors who have completed course 204 or 206. Three hours a week for a year. Miss Smith.

305. Trends in Contemporary Christianity.
Studies of such developments as Anglo-Catholicism, fundamentalism and modernism, the crisis theology, the Oxford Groups movement, humanism, the social emphasis and the implications for religion of modern scientific concepts.

Open to students who have completed or are taking course 204 or 206. Three hours a week for a semester. Offered in both semesters. Mr. Haroutunian.

350. Research or Individual Study.
On consultation with the department, qualified seniors or graduate students may arrange for directed study in elementary Assyrian, advanced Hebrew, Biblical study, or history of Christian thought.

One to three hours a week for a year. The amount of work contemplated must be indicated at the time at which electives are due.

For additional courses which may count toward a major in Biblical History, see Education 204 and Philosophy 211.

The attention of students is called to the course listed under Group Leadership as being of practical value to those especially interested in the work of this department.

Directions for Election

If a student is intending to major in the department, it is recommended that she begin with course 112. If she begins with course 104, and then decides to major in Biblical History, course 209 is required to complete the Old Testament work. Course 302 is open only to those who have had course 204 or 206.

General Examination

Students will be expected to show a knowledge of the Bible as a whole, especially as a record of religious thought and development, and to relate this knowledge to the material of other courses taken.

Such questions of minute detail concerning Biblical history, biography and literature as might be included in term examinations will not appear, but it is to be expected that the student will show as basic to her understanding of religious developments:

1. A broad knowledge of the outlines of the political history involved.
2. A grasp of the principles, procedure and results of historical and literary criticism.
3. Such a knowledge of the content of the Bible as will make it possible for her to illustrate concretely her general statements.
Botany

BOTANY

Professors: Howard Edward Pulling, Ph.D.
Laetitia Morris Snow, Ph.D.
Alice Maria Ottley, Ph.D.

curator of herbarium.

Associate Professors: Mary Campbell Bliss, Ph.D.
Helen Isabel Davis, B.A. (Chairman)
director of botanic gardens.

Assistant Professors: Grace Elizabeth Howard, Ph.D.
Ruth Hutchinson Lindsay, J. Ph.D.
Theodore Lindsay Steiger, Ph.D.

Assistant: Jean Louise Williams, B.A.

Laboratory Assistants: Helen Winifred Parker, M.A.
Marcella Maureen Gilrain, B.A.

Garden Assistant: Madeline Palmer, B.A.

Secretary and Custodian: Marion Frances Finlay, B.A.

Freshmen presenting a satisfactory year course in Botany may apply for permission to enter course 202, 204, 205, or 206.

*101. General Botany.

The chief objectives of this course are: to introduce students to the study of the principles upon which all life depends; to show them how plants play a part in the health, pleasure, and profit of man; to acquaint them with the origins and characteristics of the great groups of plants, which man everywhere uses or contains with; to afford them opportunity to become acquainted with the cultivation of plants in-doors and out-of-doors; and to help them learn how to obtain answers to their own questions by individual experimentation.

Open to all undergraduates. Six periods a week, in general two of lecture and recitation and four of laboratory or greenhouse or field, counting three hours a week for a year.

Miss Ottley, Miss Bliss, Miss Howard, Mr. Steiger, Miss Williams.

This course deals with the organization of plants and the effects of this organization on the relations of the individual with its environment. The discussion of these relations is based on the student’s intellectual interests and experience, augmented by laboratory and greenhouse experiment, to aid her in learning to correlate knowledge and in securing a broad foundation for further study of biological principles and applications.

Open to students who have completed course 101 or its equivalent and to juniors and seniors without prerequisite. Six periods a week, three of lecture and three of discussion and laboratory, counting three hours a week for a semester; offered in both semesters.

Mr. Pulling.

204. Cultivated Plants.

A study of garden plants—their identification and ornamental value, their culture requirements, methods of propagation, and the means of protecting them against pests and diseases. Lectures and supplementary reading summarize the scientific principles underlying these subjects; field trips and laboratory work in the gardens and greenhouses supply evidence of the way in which some of these principles work out in actual practice. This course is intended to fur-

1 Absent on leave.
nish a background for work in home gardens and also to stimulate an interest in the educational and social value of gardening.

Open to students who have completed course 101 or have had other preparation satisfactory to the department. Six periods a week, in general two of lecture and four of discussion, laboratory, greenhouse or field, counting three hours a week for a semester; offered in both semesters.

Miss Davis.

205. Bacteria in Relation to Daily Life.
A brief survey of the field of microbiology. Emphasis is placed upon the study of bacteria, molds, and yeasts in the home, with special reference to the preservation of foods and to general household sanitation. A less detailed study is made of the larger problems of micro-organisms in relation to agriculture and certain other industries, and to disease and public health. There will be one visit to a Board of Health which may require half a day.

Open to students who have completed one year of either Botany, Chemistry or Zoology. Lecture one hour a week, demonstration in laboratory one hour a week, counting one hour a week for a year.

Miss Snow.

206. The Structure of Plants.
In this course a comparative study is made of the structure of ancient and present day types of vascular plants from the standpoint of evolution. This study includes the origin and differentiation of the structural elements of the plant body and micro-chemical tests of the cell-wall membranes of young and of mature cells. Practice is given in preparing woody tissues for sectioning and in making permanent microscopical mounts.

Open to students who have completed course 101 or its equivalent, and to juniors and seniors without prerequisite. Six periods a week, in general two of lecture and recitation and four of laboratory, counting three hours a week for a semester; offered in both semesters.

Miss Bliss.

302. Comparative Morphology of the Ferns, Gymnosperms, and Angiosperms. (Not offered in 1936-37.)
This course considers the origin, development, and structure of vascular plants from the standpoint of evolution. Special attention is given to tracing the steps in the development of vegetative and reproductive organs, and to a consideration of the homologies of sporogenous, reproductive, and embryological parts. Students will become acquainted with the technique of plant histology and embryology by preparing a considerable proportion of the microscopic slides used in the classroom. The course aims to give that broad grasp of the progressive development of plant life on the earth essential to the highest efficiency in teaching botany and to give equipment for independent research in the comparative morphology of plants.

Open to juniors and seniors who have completed three year-hours of grade II in Botany. Six periods a week, in general three of lecture and discussion and three of laboratory, counting three hours a week for the first semester.

304. Pathology of the Higher Plants.
A general course on the diseases of plants. The structure, pathological processes and effects of representative fungi on plants of either economic or orna-
mental value are studied. A short time is devoted to a study of the methods used in cultivating fungi. Modern methods of combating plant diseases are briefly considered from the standpoint of the principles that underlie them. One or more trips are taken for observation of diseased plants in the field.

Open to juniors and seniors who have completed three year-hours of grade II in Botany. Students who have had course 101 or its equivalent may take this course and the prerequisite of grade II at the same time. Six periods a week, in general two of lecture and discussion and four of laboratory and field, counting three hours a week for the second semester.

Miss Howard.

305. Ecology. (Not offered in 1936-37.)

A study of plants in their natural environment. The purpose of the study is to determine why certain plants are found in meadow, forest, swamp, etc., and how they are fitted for their special places in nature. Wherever possible the history of the succession of plants occupying a given area and the probable future changes in the flora of the area will be determined.

Open to juniors and seniors who have completed three year-hours of grade II in Botany. Students who have had course 101 or its equivalent may take this course and the prerequisite of grade II at the same time. Six periods a week, two of lecture and discussion and four of field and laboratory, counting three hours a week for the second semester.

306. Physiology.

First the nature and behavior of living protoplasm, and the fundamental processes that determine the behavior of organisms are studied in the laboratory. Then, by laboratory and greenhouse experiments with many kinds of plants, the student is shown how these principles, which form the foundation of our understanding of growth and development, can be applied in further study and in controlling the behavior of individual plants and groups of plants.

Open to juniors and seniors who have completed three year-hours of grade II in Botany and who have completed or are taking a year of either Chemistry or Physics. Students who have completed course 101 or its equivalent may take this course and the prerequisite of grade II at the same time. Six periods a week, two of lecture and four of discussion and laboratory, counting three hours a week for a year.

Mr. Pulling.

307. Cytology and Heredity. (Not offered in 1936-37.)

Studies in the structure of the cell; the phenomena of cell division; the constitution of the reproductive cells with special reference to the theories of heredity and evolution. The classroom study of the problems of the transmission of characters from parent to offspring is supplemented by experimental studies, conducted by the students in the greenhouse, in the inheritance of color and other characters in Petunia. At the beginning of the year each student is assigned a practical problem in plant breeding as a basis for the study of the behavior of pure lines in hybridization and the origin and transmission of characters.

Open to seniors, and by permission of the department to juniors, who have completed three year-hours of grade II in Botany. Six periods a week, in general two
308. General Bacteriology.

The course is designed to give the student as wide a knowledge as possible of the whole field of bacteriology. Practice in methods of making media, plating, making transfers, staining, etc., is given to develop technique essential for the study of bacteria and their activities. The work is arranged in problems such as bacteria in relation to (1) their environment, (2) food spoilage and preservation, (3) our milk supply, (4) soil fertility, (5) sewage disposal, (6) our water supply, and (7) disease. There will be three or four half-day trips to observe the practical application of the principles considered in class.

Open to juniors and seniors who have completed one year of Chemistry and either one year of Botany or Zoology, or a second year of Chemistry. Six periods a week, in general two of lecture and discussion and four of laboratory, counting three hours a week for a year. Miss Snow.

309. Landscape Gardening.

This course continues the study of ornamental plants begun in course 204, placing special emphasis upon their use in landscape gardening. The fundamental principles of design, and the historical development of garden design are studied to furnish the background for an intelligent appreciation of present-day landscape architecture as a fine art. The laboratory practice gives training in developing landscape plans for small estates.

Open to seniors who have completed three year-hours of grade II in Botany, including course 204. By special permission course 204 may be taken in conjunction with course 309. Six periods a week, in general two of lecture and four of discussion and practice in drafting-room and field, counting three hours a week for the first semester. Miss Davis.

310. Landscape Design.

This course continues the study of the principles of design with landscape materials introduced in course 309, and also includes a summary of the fundamentals of landscape construction. The problems of city planning are discussed, from the standpoint of aesthetic and recreational requirements. Trips are taken as often as possible for observation and study of actual examples of the art.

Open to students who have completed course 309. Six periods a week, in general two of lecture and four of discussion and laboratory, counting three hours a week for the second semester. Miss Davis.

311. World Floras.

This course attempts to give the student familiarity with individual species as members of the larger plant groups, to enable her to visualize the vegetation of the earth and to understand the conditions that have been operative in producing the characteristic floras of today. This course should add interest to travel and make more evident the influence of climate and plants on human progress. Before the close of the first semester each student selects, in line with
her major interest, a group or groups of plants for study during the remainder of the year. For example, she would choose certain group combinations for Landscape Gardening, others for Pathology, still others for general culture.

Open to students who have taken course 101 or its equivalent, and have completed or are taking three year-hours of grade II in Botany; by permission of the department to seniors who have completed course 101. Six periods a week, in general two of lecture and discussion, and four of field, laboratory, or greenhouse study, counting three hours a week for a year.

Miss Ottley, Miss Howard.

320. THEORETICAL PHYSIOLOGY.

The content of this course in any year depends upon the needs and interests of the students who elect it. The reading and discussions are concerned with the abstract and logical aspects of the subject; the methods by which research problems should be analyzed, the significance of explicit and implicit assumptions, the treatment of data, physiology as a field for deductive reasoning, etc.

Open to graduate students only. Three hours a week for a year. Mr. Pulling.

322. BOTANICAL SEMINARS.

The work in the seminars listed below varies from year to year, depending on the botanical background of each student and on her plan for further study. A field of botanical science is scrutinized from the standpoints of modern achievement, method of investigation, and the theories and reasoning involved in reaching the present-day conclusions: (a) Anatomy; (b) Bacteriology; (c) Comparative Morphology; (d) Cytology; (e) Ecology; (f) Genetics; (g) Geographical Distribution; (h) History of Botany; (i) Pathology; (j) Physiology; (k) Plant Materials; (l) Taxonomy.

Open to graduate students only. Three to six hours a week for a semester or a year.

The Teaching Staff.

350. RESEARCH OR INDIVIDUAL STUDY.

The study will be under the direction of an instructor in the field chosen and may combine reading and investigation in the laboratory or may be restricted to reading. The nature of the work will depend upon whether the student is a senior or a graduate student, and upon the field of interest.

Open to graduate students and, by permission of the department, to approved seniors. One to three hours a week for a year or three hours for a semester. The amount of work contemplated must be indicated at the time of handing in electives.

DIRECTIONS FOR ELECTION

The major is based on course 101 or on two of the following courses: 202, 204, 206.

Course 308 may form a part of a botany major that includes a year of grade III other than, or in addition to, courses 309–310 or 350.

Courses 309–310 may form a part of a botany major that includes a year of grade III other than, or in addition to, course 308.

Students interested in Public Health should include course 308 in their program.
Courses of Instruction

Those students who are planning to continue their botanical work after graduation either along lines of teaching, research, agricultural and experiment station work, or various kinds of technical laboratory work, landscape gardening, horticulture, forestry, etc., should consult with the department regarding the appropriate sequence of courses.

A reading knowledge of French, German, or Latin would be useful to students majoring in botany.

GENERAL EXAMINATION

All members of the staff are glad to discuss methods of review with students and to suggest which of the references already assigned in the regular class work would be most valuable for further study in securing a surer grasp of the subject and a sense of the fundamental unity which underlies the various aspects of the plant sciences. No summer reading is required.

A sufficient number of questions will be given to provide a choice for every student, no matter what combination of courses she has made in her major.

Any group of courses accepted as a major in the department is considered equal to any other group, of the same number of hours, as preparation for the general examination. Students including courses 308 or 309 and 310 in their major will find it valuable to have as broad a background as possible in pure botany.

CHEMISTRY

Professors: Helen Somersby French, Ph.D.
Mary Amerman Griggs, Ph.D. (Chairman)
Ruth Johnstin, Ph.D.

Assistant Professor: Helen Thayer Jones, Ph.D.

Instructor: Dorothy Jane Woodland, Ph.D.

Assistants: Sue Potter Vilter, M.A.
Margaret Skelton Atwood, B.A.
Catherine Mary Gens, B.A.

Custodian: Emily May Hopeins, B.S.

*101. Elementary Chemistry.

This course is for beginners in chemistry and is planned to give the fundamental laws and theories of chemistry, in connection with the study of the non-metals and a brief survey of the metals. Outside reading and reports thereon bring the student some knowledge of the applications of chemistry.

Open to students who do not present chemistry for admission. Three periods of lecture and discussion and one three-period laboratory appointment a week, counting three hours a week for a year. Miss Johnstin, Miss Jones, Miss Atwood.

*103. General Chemistry and Qualitative Analysis.

This course is intended for students who have offered chemistry for entrance. In the first semester the preparatory work in chemistry is used as a basis for acquiring a wider knowledge of general chemistry and for the study of chemical theories. In the second semester a study of solutions of electrolytes is presented and special application of the theory to analytical reactions is made both in lecture and laboratory.

Open to students who have completed the admission requirement or its equivalent. Incoming freshmen may apply to the Dean of Freshmen, and other students to the
chairman of the department, for an examination for exemption from the first semester of this course and admission to a year's work consisting of courses 201 and 202. Three periods of lecture and discussion with one three-period laboratory appointment a week for the first semester, and two periods of lecture with six periods of laboratory a week for the second semester, counting three hours a week for a year. The second semester may be taken separately by those who have completed course 101.

Miss Griggs, Miss Jones, Miss Woodland,
Mrs. Vilter, Miss Gens, Miss Atwood.

201. Qualitative Analysis.
This course presents in lecture and in laboratory a thorough study of solutions of electrolytes, with special application to analytical reactions.

Open to students who have completed course 101. Two periods of lecture and six periods of laboratory a week, counting three hours a week for the first semester.

Miss Griggs, Miss Woodland.

This course deals with some of the elementary methods of gravimetric and volumetric analysis. A study is made of the theory of each method including the calculations. Laboratory technique is emphasized.

Open to students who have completed course 103 or 201. One period of lecture and six periods of laboratory a week, counting three hours a week for a semester. Offered in both semesters.

Miss Griggs, Miss Woodland.

207. Quantitative Analysis. Second course.
A continuation of course 202, dealing with more difficult quantitative methods.

Open to students who have completed course 202. One period of lecture and six periods of laboratory a week, counting three hours a week for the second semester.

Miss Griggs, Miss Woodland.

301. Organic Chemistry.
A systematic study of both the aliphatic and aromatic series. The laboratory work introduces the student to the fundamental methods of preparation and purification of typical organic compounds.

Open to students who have completed course 103 or 201, and, by special permission, to students who have completed course 101. Three periods of lecture and discussion and one three-period laboratory appointment a week, counting three hours a week for a year.

Miss French, Miss Gens.

302.† Qualitative Organic Analysis.
This course presents a systematic treatment of qualitative analysis as applied to organic compounds. The last few weeks of the semester will include an individual problem for each student, involving organic preparations, and leading to a final paper.

Open to juniors and seniors who have completed courses 202 and 301. Two periods of lecture and discussion, six to seven periods of laboratory a week, counting three hours a week for the second semester.

Miss French.

†Courses 302 and 310 will usually be offered in alternate years.
303. **Advanced Quantitative Analysis.**

This course offers an opportunity for the study of some of the following more advanced methods of quantitative analysis: colorimetric and electrometric determination of hydrogen ion, including acid-base and oxidation-reduction titrations, conductimetric titrations, electrodeposition of metals, and the complete quantitative analysis of some more complex inorganic substances.

*Open to juniors and seniors who have completed courses 202 and 301. One period of lecture and discussion and six periods of laboratory a week, counting three hours a week for the second semester.*

**Miss Griggs.**

304. **Chemistry of Food and Nutrition.**

A study of the composition of common food materials and their function in nutrition. Laboratory practice is given in standard methods of analysis of foods including grain products, carbohydrates, fats and oils, milk and milk products.

*Open to juniors and seniors who have completed course 202 and who have completed or are taking course 301. General Physiology (Zoology 308) is recommended as a parallel course. Two periods of lecture and discussion and five periods of laboratory a week, counting three hours a week for the first semester.*

**Miss Johnstin.**

305. **Physical Chemistry.**

This course traces historically, summarizes and applies to practical problems, the laws of matter in its various states of aggregation (including colloidal), and also the laws governing solutions, chemical equilibrium, and reaction velocity.

*Open to juniors and seniors who have completed course 202, have completed or are taking course 301, and have completed or are taking a year of college Physics. Three periods of lecture and discussion and one three-period laboratory appointment a week, counting three hours a week for the first semester.*

**Miss French, Miss Woodland.**

306. **Theoretical Chemistry.**

This course discusses the modern theories of matter and energy, including especially atomic and molecular structure, and theories of valency. It will also include at least two of the following fields of chemistry: electrochemistry, thermochemistry, and photochemistry.

*Open to juniors and seniors who have completed course 305. Three periods of lecture and discussion a week, with approximately one three-period laboratory appointment each alternate week, counting three hours a week for the second semester.*

**Miss French.**

307. **Advanced Inorganic Chemistry.**

A comprehensive survey of the different classes of inorganic substances and the modern theoretical interpretation of their interactions.

*Open to juniors and seniors who have completed course 202 and who have completed or are taking course 301. Three periods of lecture and discussion a week, counting three hours a week for the second semester.*

**Miss Jones.**
308. Advanced Qualitative Analysis. (Not offered in 1936-37.)

A continuation of course 201, dealing with the more difficult problems of qualitative analysis. The course includes the systematic detection of acid radicals, and the complete analysis of unknown substances.

Open to juniors and seniors who have completed courses 202 and 301. One period of lecture and six of laboratory a week, counting three hours a week for the first semester.

Miss Griggs.

309. Physiological Chemistry.

A study of the chemistry of the more important organs and tissues of the body and of the chemical changes involved in the digestion, assimilation and elimination of food constituents. The laboratory work includes a study of the methods of analysis generally employed in hospital practice.

Open to juniors and seniors who have completed course 202 and who have completed or are taking course 301. General Physiology (Zoology 308) is recommended as a parallel course. Two periods of lecture and discussion and five periods of laboratory a week, counting three hours a week for the second semester.

Miss Johnstin.

310. Quantitative Organic Analysis Including Microanalysis. (Not offered in 1936-37.)

This course includes the classical methods of Liebig and of Dumas for the quantitative determination of carbon, hydrogen, and nitrogen in organic compounds; and also the newer methods of elementary micro combustions.

Open to juniors and seniors who have completed courses 202 and 301. Two periods of lecture and discussion, six to seven periods of laboratory a week, counting three hours a week for the second semester.

Miss French.

320. Seminar. (Not given in 1936-37.)

Newer developments in chemistry will be considered with the historical background of each.

Open to graduate students. This course usually meets every other week for two hours during the evening, counting one hour a week for a year.

The Teaching Staff.

350. Research or Individual Study.

Each student electing this work will undertake an individual problem under the direction of the instructor in the field chosen. The work will include both laboratory work and reading.

Open to graduate students and, by permission of the department, to undergraduates who have completed at least nine hours in the department. Three hours a week for a semester or for a year.

DIRECTIONS FOR ELECTION

For any major in Chemistry: Courses 101 and 201, or 103, 202, and 301 are essential. Any other courses in the department may be added to these to complete the twelve-hour major.

It is advisable that all students majoring in Chemistry should complete one

† Courses 302 and 310 will usually be offered in alternate years.
year of college Physics, and acquire a reading knowledge of French and German before the senior year.

Students intending to go on to graduate work in Chemistry should include in the major, course 305 and one year of college Mathematics, with some work in Calculus.

Pre-medical students are referred to the requirements as given on page 41.

For Hospital and Public Health work, students are advised to elect courses 101 and 201, or 103, 202, 301, 304 and 309.

Seniors electing Chemistry 304 and 309 may upon the recommendation of this department obtain special permission from the Zoology Department to take General Physiology (Zoölogy 308) without prerequisite.

Students intending to use their Chemistry after graduation from Wellesley College will be recommended by the department only if they have completed at least nine hours of Chemistry.

GENERAL EXAMINATION

The aim of the general examination in Chemistry will be to test the student's knowledge of the fundamental principles and important facts of Chemistry and her ability to correlate and apply this material.

ECONOMICS AND SOCIOLOGY

Professors: Elizabeth Donnan, B.A. (Chairman)
Henry Raymond Mussey, Ph.D.
Leland Hamilton Jenks, Ph.D.

Associate Professor: Lawrence Smith, M.A.

Assistant Professor: Lucy Winsor Killough, Ph.D.
Mary Bosworth Treudley, Ph.D.

Instructor: John Winchell Riley, M.A.
Assistant: Catherine Anne Epstein, B.A.

This course seeks to contribute to the understanding of contemporary life through a study of the economic order on which our present social and political system is built. It studies the growth of machine technique, corporate organization, mass production, and international trade, with the machinery of money and banking. It analyzes the price system under competition and monopoly. It considers briefly the causes and results of existing inequalities in the distribution of wealth, living standards as related to income, trade unions, trusts, unemployment, social legislation, and other proposed methods of economic reform. One field trip will be required.

Open to sophomores, juniors, and seniors, and to freshmen by permission of the Dean of Freshmen. This course is prerequisite to later election. Three hours a week for a year.

Miss Donnan, Mr. Mussey, Mr. Smith, Mrs. Killough, Miss Treudley, Mr. Riley.

102. Social Organization.

This course is an introduction to the study of society from the cultural standpoint. It embraces an examination of fundamental factors in social behavior, and a survey of the main features and trends of contemporary social organization.

3 Absent on leave for the second semester.
Open to sophomores, juniors, and seniors. Three hours a week for a semester; offered in both semesters. This course, since it covers but one semester, may not be used for distribution without course 101.

Mr. Jenks, Miss Treudley, Mr. Riley.

This course is devoted to the study of structure and change in civilization. Attention is given to some representative primitive cultures, to the movement patterns of several more developed civilizations, to change in such institutions as political units, law courts, business enterprise, the church and the family, and to the nature and types of revolutions.

Open to juniors and seniors who have completed or are taking courses 101 and 102 or 101, 204 and 209, and to seniors majoring in History who have completed or are taking 101 or 102. Three hours a week for a year. Mr. Jenks, Mr. Riley.

204. Economic History of the United States.
A study of our national development in its economic and social aspects, with special emphasis upon the struggle between agrarian and business interests, the growth of business combinations, and the development of government control of business.

Open to sophomores, juniors, and seniors who have completed or are taking course 101. Three hours a week for the second semester. Miss Donnan.

This course attempts a comparison of economic and social life in England before and after the Industrial Revolution. Such topics as the manifestations of capitalism in the seventeenth and early eighteenth centuries, the effect of capitalism on the work of women, the struggle between landed interests and rising manufacturers over factory acts and corn laws, the vicissitudes of poor law legislation, and the increase in the concern of the government for the welfare of the individual are considered.

Open to sophomores, juniors, and seniors who have completed or are taking course 101. Three hours a week for the first semester. Miss Donnan.

This course deals with money, credit, general price levels, and business cycles. It first emphasizes monetary standards and current monetary changes and problems. The work of commercial banks and the functioning of the Federal Reserve system are studied. Business cycles are dealt with historically and theoretically, and current recovery programs are analyzed. Investment credit is considered with respect to investment banks, corporation securities, and stock exchanges.

Open to students who have completed course 101. Three hours a week for a year. Mr. Smith.

301. Theories of Social Reconstruction.
A study of the theories of socialism, communism, and fascism, and of the ideas underlying present proposals for a reorganized capitalism in the United States. The various theories are analyzed critically, and their relations to contemporary labor movements and social policies are examined.
Open to juniors and seniors who have completed course 308 or 316. Three hours a week for the second semester.  

Mr. Mussey.

A study of the historical development of philanthropy and of present problems and practices in the field of social work.

Open to juniors and seniors who have completed or are taking any course of grade II in the department. Three hours a week for the second semester.  

Miss Treudley.

304. The Prevention of Poverty.
A study of standards of living and their maintenance through the development of social insurance, social services and minimum wage legislation, and of changes in the theory and practice of public relief.

Open to juniors and seniors who have completed or are taking any course of grade II in the department. Three hours a week for the first semester. 

Miss Treudley.

305. Public Regulation of Business.
The problems of regulation, especially in relation to capitalization and price control, that have arisen out of the development of railroads, public utilities, and industrial trusts in the United States; the practice of regulation of such industries; the newer demand for regulation by the wide application of public “economic planning.”

Open to juniors and seniors who have completed or are taking any course of grade II in the department. Three hours a week for the second semester. 

Mr. Mussey.

308. The Modern Labor Problem.
A study of the past and present relations of workers to property owners and the state, with special reference to British and American conditions. Trade unionism and other working-class movements are studied. The legal position of labor is examined in view of the labor policies of employers and the state. The present struggle for power over labor in American industries is surveyed.

Open to juniors and seniors who have completed or are taking any course of grade II in the department. Three hours a week for the first semester. 

Mr. Mussey.

310. Public Finance.
A study of the principles and the practical problems of government expenditures and revenues. The social justification of public expenditures and the growth of expenditures resulting from war and from the modern increase of government functions are considered. The theory and incidence of taxation and the chief taxes levied by the cities, states, and federal government are analyzed. The nature and importance of public debts and some economic aspects of public fiscal administration are examined.

Open to juniors and seniors who have completed or are taking any course of grade II in the department. Three hours a week for the first semester. 

Mrs. Killough.

311. Social and Economic Investigation.
A study of statistical methods as used in economics and sociology. The technique of a statistical investigation is examined in detail with emphasis on methods
of classification and presentation. Frequency distributions and simple corre-
lation are studied and applied.

Open to juniors and seniors who have completed or are taking a full course of
grade II in the department. Three periods of lecture and recitation and three hours of
laboratory a week, counting three hours a week for the first semester.

MRS. Killough.

312. Social and Economic Investigation.
The study of economic and social statistics with emphasis on the analysis of
time series. Some time is spent on probability theory and multiple and partial
correlation. Consideration is given to the place of the quantitative method in
the social sciences.

Open to juniors and seniors who have completed course 311. Three periods of
lecture and recitation and three hours of laboratory a week, counting three hours a
week for the second semester.

MRS. Killough.

313. Seminar. Selected Topics in Economic and Social Movements and
Theories.
Open to graduates and approved seniors who are taking a major in the department.
Three hours a week for the second semester.

Mr. Mussey.

A study in modern political economy, examining the economic position of the
United States in relation to other countries. It deals with theories of interna-
tional trade and capital movements; national resources and trade; government
control over commerce, especially tariffs and raw material control. Various
aspects of economic nationalism are considered.

Open to juniors and seniors who have completed or are taking course 210. Three
hours a week for the second semester.

Mrs. Killough.

316. History of Social Thought.
This course deals with outstanding trends of thought from the Greeks to mod-
ern times, as reflected in the writings of such social and political philosophers as
Plato, Aristotle, Augustine, Machiavelli, Locke, and Rousseau.

Open to seniors who have completed or are taking courses 101, and 202 or 209–204,
in the department, or Political Science 104 and any other course of grade II in His-
tory or Political Science. Three hours a week for the first semester.

Mr. Jenks.

A study of the development of economic thought with special emphasis on the
relation between economic conditions and economic thinking in the nineteenth
century. After a brief review of Greek, Roman, and mediaeval thought and
some attention to the doctrines of the mercantilists and the physiocrats, the work
of Adam Smith, Ricardo, Malthus, J. S. Mill, and the Austrians, is examined
with more detail, and some consideration is given to the writings of nineteenth-
century American economists.

Open to seniors who have completed a full course of grade II in the department.
Three hours a week for the first semester.

Miss Donnan.
318. Modern Economic Thought.
A study of recent economic doctrine with special emphasis on those aspects which diverge from nineteenth-century theory, and some attention to the relation of economic science to other social sciences.

Open to seniors who have completed course 317. Three hours a week for the second semester. Miss Donnan.

319. Modern Social Thought.
A study of the principal trends of social and political thought manifested since the revolutionary period, especially in Great Britain and the United States.

Open to seniors who have completed or are taking courses 101, and 202 or 209–204, in the department, or Political Science 104 and any other course of grade II in History or Political Science. Three hours a week for the second semester. Mr. Riley.

320. Population Problems. (Not offered in 1936–37.)
A study of population theories beginning with Malthus, and of practical problems arising out of the increase, the distribution, and the movement of population.

Open to juniors and seniors who have completed or are taking any course of grade II in the department. Three hours a week for the first semester. Miss Treudley.

350. Research or Individual Study.
To a limited number of advanced students wishing to do individual work outside of regular courses the department is prepared to offer a course of directed reading, to be tested by examination.

Students desiring to register for such a course must secure the approval of the chairman of the department in advance of the time at which electives are due. Three hours a week for the first semester.

For the course in Group Leadership, of special value to students interested in the practical application of economic and social study, see page 103.

GENERAL EXAMINATION
The aim of the general examination set by the Department of Economics and Sociology will be to present for analysis new problems, calling for an application of the principles and the body of factual material acquired by the student in those courses which have constituted her major in the department. In the same way that the examination at the end of each course attempts to test the student’s power to reorganize and to correlate the material of the course and to bring it to bear upon a new situation, so the general examination will attempt to test that power with the larger body of material at the student’s command as a result of all her work in the department.

Director: Lorna Lougee Crittenden, B.A.

The Department of Education offers both undergraduate and graduate courses. Nine hours of work may be counted toward the B.A. degree. Full work for the M.A. degree is offered.

201. Modern Education: A Study of the Principles of Education, and of the Applications of Psychology to Education.

(See note IV, page 74.) This course is organized to meet the needs not only of prospective teachers but also of all who are interested in the intelligent direction of education in the home and in the community. The work of the course is illustrated throughout the year by visits to assigned schools for the observation of children and of classroom practice, and by examples of school work. A time allowance is made for the inspection of schools. The number of visits will not exceed eight for the year.

Open to juniors and seniors who have completed or who are taking Psychology 101. Three hours a week for a year. Mr. Norton, Mrs. A. B. Nichols.

Like course 203 this course is intended not only for prospective teachers, but also for all students who are interested in the intelligent discussion of educational affairs. The greater part of the semester is devoted to a study of personalities, problems, and policies in the development of public education in England, France, and Germany in the nineteenth and twentieth centuries. The course will begin with a brief survey of the historic foundations of modern education in Greek, Roman, and early Christian culture and in the rise of universities, the

*Appointed for the second semester only.
revival of classical learning and the Reformation. The lectures are illustrated by manuscripts, lantern slides, and translations from the documents.

Open to juniors and seniors. Graduates may elect this course under certain conditions. Three hours a week for the first semester. Mr. Norton.

This course may be taken as an independent unit, or it may follow course 202. The topics include a study of European influences in American education; the colonial beginnings of education in Virginia, Pennsylvania, New York, and New England; national and state policies concerning education, 1776–1860; educational leaders: Thomas Jefferson, Emma Willard, Mary Lyon, Horace Mann, Henry Barnard and others; the expansion and reorganizations of public and private education since the Civil War; educational problems of today. The course is illustrated throughout by a wealth of original documents.

Open to juniors and seniors. Graduates may elect this course under certain conditions. Three hours a week for the second semester. Mr. Norton.

204. Principles and Problems of Religious Education.
The course is meant for those who in their own homes, in Church schools or Vacation schools may be responsible for the religious guidance of children. The use of the Bible and of other materials of instruction available for different ages is discussed as well as the modern methods of teaching that are used in the better Church schools. An attempt is made throughout to relate the specific problems of religious education to the larger problems of the age in which we live.

Open to students who have completed the required work in Biblical History. One hour a week for a year. Mrs. Curtis.

301. Secondary Education.
The principles and methods of secondary education, with special reference to the high schools and junior high schools of the United States. A study will be made of approved methods of teaching English, foreign languages, sciences, mathematics, and history in high schools. Opportunity will be given for observation of the work of specially successful high school teachers in the subject which the student expects to teach. In connection with this course a semester of practice teaching is arranged for graduate students. Practice in teaching is not open to undergraduates.

Open by permission to seniors who have completed a full course in Education, and to graduates. Three hours a week for a year. Students who take course 204 or 303 are permitted to count the first semester of course 301 as a semester course. Mr. Norton, Mr. Thomas, Mrs. A. B. Nichols, and Lecturers.

The aim of this course is to teach the students how to impart to their pupils, in the shortest possible time, a speaking, understanding, reading, and writing knowledge of French. The instructor will deal with the several aspects of modern language work, such as the teaching of vocabulary, of grammar, of composition and of translation; the selection and use of books, the equipment of the teacher and of her department in the high school.
Open to seniors who have completed Education 201 and who are taking course 301, 302, 305, 306 or 307 in the Department of French. Students who elect this course may also elect the first semester of Education 301 as a semester course. This course may be counted toward a major in French. Three hours a week for the second semester.

Miss Dennis.

The standardized tests now available for college preparatory and other secondary school studies will be examined in detail in this course. The uses, advantages, misuses and disadvantages of such tests will be considered. Students will be given practice in constructing tests, in the technique of testing, and in the arithmetical interpretation of results.

Open to seniors who have completed one full course in Education. Three hours a week for the first semester.

Mr. Rothney.

321. Problems in the Application of Psychology to Education.
The subject matter of this course will vary from year to year in accordance with the equipment and needs of students. The methods of educational investigation and experimentation will be considered, and each student will be given an opportunity for intensive work in a problem in her field of interest.

Open by permission to seniors who have completed a full course in Education and who have an adequate equipment in Psychology, and to graduates who have completed two full courses in Education and who have an adequate equipment in Psychology. Three hours a week for the second semester.

Mr. Rothney.

322. The Education of Young Children: History, Theory, Problems.
This course deals with nursery, kindergarten, and primary education. The topics include (1) a review of the origins and historical development of education for children under nine years of age; (2) a detailed critical study of current theories of the nursery school, the kindergarten, and the primary school; (3) the child in relation to the home, the community, and the school; (4) current problems in child study.

Open to seniors who have completed Psychology 101, or an equivalent, and one full course in Education. Open also to graduates (see course 323). Three hours a week for a year.

Miss Eliot, Dr. Hardwick, Miss Kingman.

323. The Education of Young Children: Materials and Methods.
The practical application of the theory given in course 322. This course includes on the one hand a detailed study of the methods and materials of education for children under nine; and on the other extensive observation with practice in teaching. Observation and practice are given in the Wellesley Nursery School and the Page Memorial School, both situated on the Wellesley College campus. The schools of Boston and vicinity furnish a rich field for further study. A detailed study of the curriculum, activities, materials, and equipment is a part of the course.

Open to graduates only. This course presupposes or is to be taken with course 322. (Graduates must ordinarily take courses 322 and 323 together.) Three hours a week for a year.

† See notice on page 75.
Courses of Instruction

324. Elementary Education: History, Theory, Practice, and Problems. (Not offered in 1936-37.)

This course includes a detailed study of present elementary school practice, a critical discussion of the principles which underlie that practice, and the investigation of selected problems in elementary education.

Open to graduates who have completed Psychology 101, or an equivalent, and two full courses in Education. Three hours a week for a year.

325. History of Education. (Not offered in 1936-37.)

This course covers the same periods in the history of education as course 202, but with additional reading, critical examination of the materials, and a detailed study of one or more topics from the sources. It is intended for graduate students who have had no general course in the history of education.

Open to graduates only. Three hours a week for a year. Mr. Norton.

Attention is called to the course in Group Leadership, page 103, of especial value to students taking Education. It is not counted as a course in Education.

Directions for Election

I. Students who intend to teach should (in their sophomore year if possible) consult a member of the Department of Education concerning city and state requirements for the certificate to teach. In a majority of states these requirements include from six to seven-and-one-half hours in Education; a few states require nine hours in this subject. Plans should be made in the sophomore year for completion of the necessary courses in Education, which must be taken in the junior and senior years.

II. In general, the department recommends the following arrangements: (1) For a six-hour elective in Education choose three hours in the junior, and three hours in the senior year. (2) For a seven-and-one-half-hour elective, add to the above one and one-half hours in any semester of the junior and senior years. (3) For a nine-hour elective choose six hours in one year and three in the other, or four and one-half hours in each year.

III. (1) Prospective high school teachers should choose from the following courses: 201, 202, 301, 303 (for teachers of French only), 320, 321.

(2) Prospective kindergartners or directors of nursery schools should include course 322 in place of course 301 or 303.

(3) Students who are interested in religious education should include course 204 in their list. It is not credited toward state or city requirements for certificates for teachers in public schools.

IV. Students who have completed the prerequisite in Psychology (course 101), and who have completed Education 201, shall be entitled to credit for Education 201 on application blanks for state teachers’ certificates, as follows:

3 semester hours in Principles of Education (or Principles of Teaching or Introduction to Education).

3 semester hours in Educational Psychology.
The Theory and Practice of Pre-school (Kindergarten, Nursery School) Education

A five-year course, leading to the degrees of B.A. and M.A., may be planned by students who intend to specialize during the fifth year in the field of pre-school (kindergarten, nursery school) education.

The Department of Education offers exceptional facilities for this study. The Page Memorial School and the Wellesley Nursery School on the college campus and the Ruggles Street Nursery School in Boston give abundant opportunity for observation and practice in the nursery school, the kindergarten, and the first grade. Three lecturers of the department (Miss Eliot, Miss Kingman, and Dr. Hardwick) provide the necessary instruction in connection therewith. Various clinics and special classes for children in Boston and vicinity are also open to student observers. Related courses in other departments of the college may be chosen to form, with the courses in Education, a unified program of study.

The following suggestions are not intended to debar juniors and seniors who completed the prerequisites announced for the various courses in Education from entering upon graduate study in this field. Such students should consult the chairman of the department as to the best arrangement of their remaining undergraduate work.

Freshmen and sophomores, however, who look forward to service in the field of pre-school education may profitably include the following courses in their undergraduate years:

1. *Sophomore Year*: Complete course 101 in Psychology.
2. *Junior Year*: Elect Education 201 or 202 and Psychology 207 (or 101, if not taken in the sophomore year).
3. *Senior Year*: Elect Education 322 and Psychology 310 (or 207, if not taken in the junior year).
4. Elective courses in the Sciences, Literature, Art, and Music, and any major subject, are useful as a preparation for graduate study of the theory and practice of pre-school education.
5. The studies of the graduate year will be adapted to the needs of each student. In general, they will include Education 323 (and 322, if this course is not taken in the senior year) and such other courses or independent work as the circumstances require.

The general requirements for the M.A. degree are stated in the Graduate Circular. This should be consulted in all cases. It may be obtained from the Secretary to the Dean.
ENGLISH

I. ENGLISH LANGUAGE AND LITERATURE

Professors: Martha Hale Shackford, Ph.D.
Laura Hibbard Loomis, Ph.D.
Elizabeth Wheeler Manwaring, Ph.D.
Helen Sard Hughes, Ph.D. (Chairman)
Annie Kimball Tuell, Ph.D.

Associate Professors: Alice Ida Perry Wood, Ph.D.
Katharine Canby Balderston, Ph.D.
Bertha Monica Stearns, M.A.
Ella Keats Whiting, Ph.D.
Grace Ethel Hawk, B.Litt. Oxon.

Assistant Professor: Thomas Hubbard Vail Motter, Ph.D.

Instructor: Evelyn Kendrick Wells, M.A.

This course presents through selected types the literature of the English Renaissance as it reflects the thought, the adventure, the creative impulse of the period, from More's Utopia through the Age of Shakespeare. It considers the representative forms of Renaissance poetry; the sonnet, the short lyric, through Jonson and Campion, the romantic epic in Spenser's Faerie Queen. It studies representative types of Elizabethan and Jacobean drama, in the plays of Shakespeare and his contemporaries. It studies the prose of the period in the work of Lyly, Sidney, and Bacon.

Open to freshmen, sophomores, and juniors. Three hours a week for a year.
Miss Tuell, Miss Balderston, Miss Stearns,
Miss Whiting, Mr. Motter, Mr. Willard.

*103. The British Ballad.
The traditional ballad is studied in its British and American forms. Special attention is devoted to its tunes, to its preservation of folk lore and popular tales, and to the varying forms of special ballads. The ballad as inspiration for modern poets is emphasized. A study will be made of ballad collectors, such as Bishop Percy, Sir Walter Scott, Francis J. Child, and Cecil Sharp, with special consideration of the types of people among whom the ballad has survived.

Open to freshmen and sophomores. One hour a week for a year. Miss Wells.

201. Historical Development of English Literature.
In order to avoid the rapid reading in a general survey, the course in different years concentrates on particular phases of English literature, considered historically in relation to contemporary English life and thought. In general, the first semester deals with literature in the Middle Ages and the Renaissance; the second semester, with literature of the seventeenth, eighteenth, and nineteenth centuries. This course counts for hours toward the degree, but not for admission to a course of grade III. Examination both semesters.

Open to juniors and seniors. No prerequisites. Three hours a week for a year. Miss Hughes.

The course presents a comprehensive account of American literature from its beginnings in the seventeenth century to modern times. It stresses the work of representative writers and the changing conditions of American social life.

1 Absent on leave.
203. **Seventeenth Century Poetry and Prose Exclusive of Milton.**

This course emphasizes the stress and conflict of an age of transition. It considers primarily the innovations of Donne and Jonson in poetry and those of Bacon, Browne, Burton, Walton, and Hobbes in prose. Some time is given also to reading the Cavalier and religious poets.

*Open to sophomores who have taken course 101 in the department, and to juniors and seniors without prerequisite. Three hours a week for the first semester.*

**Mr. Willard.**

204. **Milton.**

The primary object of the course is the critical study of Milton as a master in lyric, epic, and dramatic poetry, and as a writer of notable prose. The character and genius of the poet are considered as influenced by the political and religious conflict of the time.

*Open to sophomores who have taken course 101 in the department, and to juniors and seniors without prerequisite. Three hours a week for the second semester.*

**Mr. Willard.**

206. **The English Novel: The Rise of the Types.**

The course deals with selected stages in the growth of the English novel, from the Elizabethans to Scott, placing special emphasis upon the eighteenth century in the work of Richardson, Fielding, Smollett, Sterne. It follows mainly the trend of realism, but considers types of romance: the pastoral, the picaresque, and forms associated with the Romantic Movement,—the tale of terror, the historical novel, the novel of social reform. Class discussions, lectures, tests. Final paper for students intending to do major work in the department; for others, final paper or examination.

*Open to sophomores who have taken course 101 in the department, and to juniors and seniors without prerequisite. Three hours a week for a semester; offered in both semesters. Students electing this course should state on the slip the semester chosen.*

**Miss Tuell.**

207. **Arthurian Romance.**

The course begins with an introductory study of those legends in ancient Celtic literature which definitely influenced later Arthurian story. It traces the historical development of Arthurian tradition through the medieeval chronicles, the French and the English verse romances, but centers in the study of the sources and significance of Malory's *Morte d'Arthur*. As time permits, modern forms of Arthurian romance are discussed.

*Open to sophomores who have taken course 101 in the department, and to juniors and seniors without prerequisite. Three hours a week for the second semester.*

**Mrs. Loomis.**

208. **Chaucer.**

This course traces the development of Chaucer's art. His poetry is studied in relation to its sources, and to the social and literary background of his time. The major portion of his work is read.
Courses of Instruction

Open to sophomores who have taken course 101 in the department, and to juniors and seniors without prerequisite. Three hours a week for the first semester.

Mrs. Loomis.

209. Versification.

The course has as its object in general such study of the principles of English versification as may give to the student of literature a keener appreciation of poetic expression; and, in particular, for those interested in writing verse, opportunity for experiment and criticism.

Open to students, except freshmen, who have completed or are taking one full course in the department of English Literature, and also to those majoring in English Composition. One hour a week for a year.

Miss Manwaring.

This course will undertake to present some of the chief English poets and the most striking developments in English poetry since 1900. It may not be counted toward a major in this department.

Open to juniors and seniors without prerequisite. One hour a week for a year.

Miss Manwaring.

211. The History of the English Drama.

This course studies English drama from its beginnings to the close of the Victorian period. The first semester, covering the period from the Middle Age to the Puritan Revolution, will concentrate upon the great Elizabethans; Shakespeare, represented by two plays, will not overshadow the attention given to his principal contemporaries. The second semester begins with the development of Restoration drama and continues through the establishment of the modern theatre.

Open to sophomores who have taken course 101 in the department, and to juniors and seniors without prerequisite. Three hours a week for a year.

Mr. Motter.

212. Contemporary Drama.

The modern English drama is considered in relation to parallel European drama. This course may not be counted toward a major in English Literature.

Open to juniors and seniors without prerequisite. Two hours a week for a year.

Mr. Motter.

213. Studies of Continuing Types in Greek, Latin, and English Literature. (Not offered in 1936-37.)

One of the following topics will be selected for each year's study: (1) Epic Poetry—Homer's Iliad and Odyssey; Vergil's Aeneid; Beowulf, and Milton's Paradise Lost. (2) Satire—early Greek iambic poets, Aristophanes, and Lucian; Horace and Juvenal; eighteenth century English satire. (3) Lyric Poetry—Sappho, Alcaeus, Pindar, and Theocritus; Vergil, Catullus, and Horace; various English lyric forms. Lectures on other important writers will supplement the reading of the course. Greek and Latin authors will be read in translation.

Open to students who have completed a grade I course in any literature, or to juniors and seniors without prerequisite. (A beginning course in a foreign language will not serve as a prerequisite.) Three hours a week for one semester.
301. Social Ideals in English Letters. (Not offered in 1936–37.)

Study of selected masterpieces from the social point of view. Rapid reading of Piers Plowman, More's Utopia, Swift's Gulliver's Travels; more careful work with Burke and the Revolutionary poets, and with the prose and poetry of the Victorian Age.

Open to seniors who have completed two full courses in English Literature or Economics or History, or who have completed one full course in any of these departments and are taking another course. Three hours a week for a year.

The course makes a fairly even division of time between novel and essay. Stress is laid upon Dickens, Carlyle, Thackeray, Newman, George Eliot, Ruskin, Arnold, Meredith, Pater, with some attention to Morris, Hardy, James. The course is concerned too with minor groups and figures, as it traces the main tendencies of fiction, and, with reference to present issues, successive problems of modern thought. Class discussion and lectures. Written reviews and at least one term paper. First semester, examination; second semester, final paper or examination.

Open to juniors and seniors who have either (1) completed a course of grade I, and have completed or are taking three hours of work of grade II in the department,* or (2) completed three hours of grade II in the department.* Three hours a week for a year.

Miss Tuell.

The course considers the work of the great Georgian and Victorian poets in their relation to one another and to contemporary thought. Extended study is given to Wordsworth and Coleridge; Shelley and Keats; Tennyson and Browning; with briefer readings from Byron, Scott, Landor, Clough, Arnold, Rossetti, Morris, Swinburne, and Meredith. Written reviews. Occasional brief papers. First semester, examination; second semester, test to be decided later.

Open to juniors and seniors who have either (1) completed a course of grade I, and have completed or are taking three hours of work of grade II in the department,* or (2) completed three hours of grade II in the department.* Three hours a week for a year.

Miss Shackford.

309. Shakespeare.

This course traces the development of Shakespeare as a dramatist and poet. About thirty plays are read in all, chronologically, according to types. The plays before 1600 are read in the first semester, the plays after 1600 in the second. Sufficient study of Shakespeare's predecessors and contemporaries is made to enable the student to distinguish the traditional and imitative aspects of Shakespeare's plays. The course also considers Shakespeare's life, the theatre of his day, representative source problems, and the development of Shakespearean criticism. The course requires frequent short papers during the term, and a final examination in each semester.

* Courses 201, 202, 210, and 213, not in the English Literature major, do not serve as prerequisites for grade III.
Open to juniors and seniors who have either (1) completed a course of grade I, and have completed or are taking three hours of work of grade II in the department,* or (2) completed three hours of grade II in the department.* Three hours a week for a year.

Miss Balderston.

310. Eighteenth Century Literature.
This course considers the major writers of the eighteenth century, with the exception of the novelists. In the first semester, the emphasis is upon the Queen Anne group,—Pope, Swift, Addison, and Steele; in the second semester, upon Doctor Johnson and his circle and the precursors of the Romantic Movement. The course traces the influence upon literature of politics, of current ideas concerning man and society, and changing standards of criticism. Examination both semesters.

Open to juniors and seniors who have either (1) completed a course of grade I, and have completed or are taking three hours of work of grade II in the department,* or (2) completed three hours of grade II in the department.* Three hours a week for a year.

Miss Hughes.

311. Seventeenth Century Exclusive of Milton. (Not offered in 1936–37.)
This course will be devoted to a somewhat intensive study of certain phases of the century.

Open to juniors and seniors who have completed course 101, and have completed or are taking a full year course or two semester courses of grade II. Three hours a week for a year.

312. History of the English Language.
This course traces the development of the English language from its beginning to the present day. Selected works of English authors which illustrate the various stages in the development of the language are studied. Some consideration is given to problems of modern usage.

Open to juniors and seniors who have completed or are taking a full year course or two semester courses of grade II either in English Composition or in English Literature; and, in addition, to students who are concentrating in foreign languages. Three hours a week for a year.

Miss Whiting.

The work is carried on by means of assigned reading, class discussion of individual reports, and conferences on individual investigations.

Open to seniors who have completed six hours of work in the department, and to graduate students. Three hours a week for a year.

321. Seminar. Modern Authors. (Not offered in 1936–37.)
Two or more authors are chosen each year for special study. The work is carried on by class reading and discussion, and by assigned readings upon which individual reports are made.

*Courses 201, 202, 210, and 213, not in the English Literature major, do not serve as prerequisites for grade 111.
Open to graduates, and to approved seniors who are taking a twelve-hour major in the department. Three hours a week for a year.

322. Seminar. English Romanticism. (Not offered in 1936-37.)
A study of the Romantic Movement in England, from its beginnings in the eighteenth century, on through the work of the early nineteenth century poets. Certain phases of the relation of English to German literature during the period of reaction are studied.

Open to graduates, and to approved seniors who are taking a twelve-hour major in the department. Three hours a week for a year.

323. Seminar. Critical Studies in English Drama. (Not offered in 1936-37.)
In 1934-35 the general subject was the English drama of the Renaissance, with special study of the work of Lyly, Marlowe, Shakespeare, and Jonson. The course attempts to give training in methods of research, touching problems relating to: the theory of tragedy, comedy, the theatre, publication, textual criticism, but the primary object is the study of Shakespeare's most important work in the light of contemporary drama. Special topics, discussions, conferences.

Open to seniors who have completed six hours of work in the department, and to graduate students. Three hours a week for a year.

This course considers the literary achievement in America from 1825 to 1865. It deals primarily with the work of Poe, Emerson, Thoreau, Hawthorne, Melville, and Whitman.

Open to seniors who have completed six hours of work in the department, and to graduate students. Three hours a week for a year.

325. Seminar. Beginnings of the English Renaissance from Caxton to Shakespeare. (Not offered in 1936-37.)
The course aims to give graduate training, and so to present the beginnings of the English Renaissance that the student may rightly estimate the achievements of the great Elizabethans.

Open to graduates, and to approved seniors. Three hours a week for a year.

The course will be devoted to the chief productions in ballad, romance, and drama of English Poetry before 1450. Special study will be given to Chaucer's Troilus and Criseyde. Methods those of graduate study.

Open to graduates, and to approved seniors who are majoring in the department. Three hours a week for a year. MRS. LOOMIS.

327. Seminar in Old English. (Not offered in 1936-37.)
A study of Old English inflections, phonology, and syntax. The reading of the best pieces of literature in Old English prose and poetry. A particular problem in either literature or language is assigned to each student for investigation.
Open to graduates, and to seniors by permission of the department. Three hours a week for a year.

328. Bibliography.
This course aims to acquaint the graduate student with the chief information and procedure requisite for the discovery and use of her material: examination of original texts, study of editions, use of general works of reference, technical periodicals, and special studies in different fields of English literature.

Not open to undergraduates. Required of graduate students in the department. One hour a week for the first semester. Miss Manwaring.

350. Research or Individual Study.
On consultation with the department, qualified seniors or graduate students may arrange for directed study in a field in which they have already worked.

Permission to register for this must be obtained before electives are handed in. One to three hours a week for a year. The amount of work contemplated must be indicated at the time of handing in the electives.

For courses in Greek and Latin literature in English translation, see Greek 203 and 204; and Latin 105. Knowledge of at least one foreign literature, and ability to read certain foreign languages, ancient or modern, is of great value to students of English literature.

DIRECTIONS FOR ELECTION
To insure a desirable distribution of work over several periods of literary history, students in planning majors in the department should make sure that one of their grade III courses studies the literature of a period not previously treated in courses of grade I and grade II.

Courses Not Included in the Major. Courses 201, 202, 210, 213.

General Examination
The English Literature department will present for the general examination two sets of questions, i.e. morning and afternoon, covering the courses offered by the department. In this list of questions there will be a sufficient number to insure a fair opportunity for choice. Each student will select the questions dealing with the subjects she has studied in her major.

The questions will seek to test: (1) the student’s knowledge of authors, works, types, and periods included in her major; (2) her intelligence and accuracy in correlating her knowledge; (3) her independence of judgment and her literary discrimination.

Members of the department will meet the seniors majoring in the department in a group once or twice during the first semester of each year to discuss the purpose of the general examination, and the best methods of study to prepare for it.

Miss Perkins, Miss Manwaring, Mr. Sheffield, Miss Batchelder, Miss Hamilton, Miss Denkinger, Miss Kelly, Miss Prentiss, Miss Garlinghouse, Miss Shepherd.

102. Continuation Course in Composition.

Practice in the organization and presentation of ideas developed from the student’s reactions to planned reading. Special stress on vocabulary, and on paragraph and sentence, in relation to thinking.

Required of students who have made D grade in the second semester of course 101. (In case the number of students incurring this requirement falls below the minimum for a class, the work will be individually conducted on a tutorial plan.) Three hours a week for the first semester.

Mr. Sheffield.

201. The Essay.

This course traces the development of the technique of the English essay through the letter, the character, and other literary forms; and studies the methods of such essayists as Lamb, Hazlitt, Stevenson, and Chesterton. The course offers varied reading in contemporary essays and frequent practice in writing different types of essays, with class discussion of principles and craftsmanship.

Open to students who have completed the requirement in English Composition. Not open to students who have completed three semesters of grade II work or are taking course 203, 206, 301, or 304. Three hours a week for the first semester.

Miss Johnson.

203. Studies in Journalistic Writing.

A critical study of selected types of journalistic writing: news story, editorial, special article, book review, dramatic review, as exemplified in typical American and English newspapers and weekly periodicals. Constant practice in writing.

† Absent on leave for the second semester.

† If a student submits papers notably deficient in English as part of her work in any department, she may incur a condition in English Composition, whether or not she has completed the requirement in English Composition.
Open to students who have completed the requirement in English Composition. Not open to students who have completed three semesters of grade II work or are taking course 201, 206, 301, or 304. Three hours a week for the first semester.

Miss Perkins, Miss Batchelder.

204. Studies in Contemporary Writing.

This course is a continuation of course 203, 206, or 201, or may be taken separately. A study of the elements of style, the essay form, the critical review, the biography, and the sketch. Fortnightly themes or their equivalent.

Open to students who have completed the requirement in English Composition. Not open to students who have completed three semesters of grade II work or are taking course 205, 207, 208, 302, or 304. Three hours a week for the second semester.

Miss Johnson.

205. Further Studies in Journalistic Writing. (Not offered in 1936–37.)

This course is primarily a continuation of course 203 or may be elected separately. A study of articles in various American and English monthly magazines, with special reference to the suggested use of the student's own resources. Monthly or fortnightly articles, and collateral reading.

Open to students who have completed the requirement in English Composition. Not open to students who have completed three semesters of grade II work or are taking course 204, 207, 208, 302, or 304. Three hours a week for the second semester.

Miss Perkins.

206. Free Writing.

Practical and creative forms of prose composition with illustrative reading. The types of writing are selected in accordance with the interests of individual members of the class. Discussion of papers in class and in conference.

Open to students who have completed the requirement in English Composition. Not open to students who have completed three semesters of grade II work or are taking course 201, 203, 301, or 304. Three hours a week for the first semester.

Miss Hamilton.

207. Free Writing (continued).

Emphasis laid upon contemporary material in the types of writing studied and practiced. Discussion of papers in class and in conference.

Open to students who have completed the requirement in English Composition. Not open to students who have completed three semesters of grade II work or are taking course 204, 205, 208, 302, or 304. Three hours a week for the second semester.

Miss Johnson, Miss Hamilton.

208. Studies in Biography and Literary Portraits.

This course deals with some of the problems and practices that distinguish biography as a developing form of literary art. Emphasis will be placed on the contemporary biographer's way of handling his materials, often as influenced by other fields of expression. This course may follow course 203 or 206 or 201. Writing varied and frequent.
Open to students who have completed the requirements in English Composition. Not open to students who have completed three semesters of grade II work or are taking course 204, 205, 207, 302, or 304. Three hours a week for the second semester. Miss Batchelder.

301. Narrative Writing.
Study of the principles and forms of narrative writing, including the short story. The course aims to lead the student to discover the possibilities of material at her disposal, and to appreciate more fully the qualities of good narrative.

Open to juniors and seniors who have completed the requirement in English Composition. Two hours a week for the first semester. Miss Manwaring, Miss Johnson.

A consideration of the background and development of modern English prose. Practice in writing narrative and exposition, with special emphasis on literary criticism.

Open to juniors and seniors who have completed the requirement in English Composition. Two hours a week for the second semester. Miss Manwaring, Miss Johnson.

Lectures on the critical theory of Plato and Aristotle and on the more important English and French critics.

Open to juniors and seniors. One hour a week for a year. Miss Hart.

304. Advanced Course in English Composition.
Studies in exposition, description, and narration, with one piece of dramatization or an original play. An opportunity will be given once each semester to correct some freshman themes, under the criticism of the instructor. Frequent practice in writing.

Open to seniors who have completed course 203 or 206 or 201 followed by course 204, 205, 207, or 208; or courses 301-302; or, by special permission, course 303. Not open to students who are taking course 301 or 302 or a course of grade II. Three hours a week for a year. Miss Hart, Miss Denkinger.

350. Research or Individual Study.
Open by permission to graduate students only. One hour a week for a year.

MAJORS

Courses should be elected in the following sequence:
Grade I: 101.
Grade II: 201, 203, 206 (first semester); 204, 205, 207, 208 (second semester).
Grade III: 301 (first semester), 302 (second semester), 303, 304.
Recommended for a twelve-hour major: 101, two semester courses of grade II (see restrictions under individual courses); six hours of grade III. Course 303 should always be included.

Note.—Either 301-302 or 304 must be taken in the senior year in a twelve-hour major.
Note that no two of the grade II courses may be taken at the same time, nor may any of these or 301-302 or 304 be taken at the same time. Course 303 may be taken at the same time with another grade III or grade II course in the department.

Courses in English Language (English Literature 312 and 327) or English Literature 209 or 306 may count as a part of a twelve-hour major in Composition; but at least three hours of grade III work in Composition must be included in any major in the department.

Students intending to teach English Composition should include in their program some courses in English Literature and, if possible, a course in English Language.

Students are referred to the course in Group Leadership, page 103.

GENERAL EXAMINATION

The general examination in English Composition will include questions on the theory—on the principles of craftsmanship—underlying the specific courses the student has taken; it will include a study of the forms of description, narration, and exposition in their general aspects; a study of differing types of essay, of biography, of criticism; a study of the historical development of the sentence, of the paragraph, and of the linguistic elements composing our vocabulary. The student will be expected to organize her answers clearly and to write with reasonable fluency and finish. Supplementary reading and detailed instructions will be given in a department statement to be issued later.

All courses beginning with course 101 are conducted in French.

*101. Elementary Course.

The course includes (1) a practical study of French pronunciation, phonetic drill; (2) the practical study of French grammar; (3) readings on French life and French institutions; (4) selected readings from modern writers. Constant oral drill and frequent written work.

Open to students who do not present French for admission. Three class appointments and one group conference, counting three hours a week for a year.

Miss Dennis.

1 Absent on leave.
French

102. Selected Readings from Modern French Authors Dealing with Life in Different Regions of France.

These texts serve as a basis for a systematic review of syntax introductory to theme writing and oral narrative, and a practical study of French pronunciation with phonetic drill.

Open to students who have completed course 101, or present two units in French for admission. Three class appointments and one group conference, counting three hours a week for a year. Miss Dennis, Miss Melcher.

103. French Life and Institutions.

A study of modern plays and novels dealing with aspects of French contemporary life. Stress will be laid on grammar, vocabulary and pronunciation. Frequent themes and exercises. Outside reading.

Open to students who present three units in French for admission. This course is intended for students who need further training in the spoken and written language. Students whose classroom work has been conducted hitherto mainly in English are urged to elect this course rather than course 104. It is not open to students who have completed course 104 and only exceptionally, by permission of the department, to students who have completed course 102. Three hours a week for a year.

Miss Bruel, Mrs. Ilsley, Miss Malbot, Miss Melcher, Miss Pernot, Miss Quarré.

104. Introduction to the Study of French Literature.

A study of representative literary masterpieces of various periods. The aim of this course is to prepare students for more advanced work in language and literature, acquainting them with French methods of literary study. It provides an historical background and includes a study of pronunciation, grammar, and vocabulary, as well as application of lecture expliquée methods. It affords constant practice in the written and spoken language. Outside reading of representative novels.

Open to students who present three units of French for admission or have completed course 102. This course is intended for students whose previous classroom work has been conducted mainly in French. It is not open to students who have taken course 103. Three hours a week for a year. Mrs. David, Miss Malbot.

201. French Civilization before the Revolution.

An introduction to the civilization of France, as revealed in history, art, and selected literary masterpieces. Emphasis is laid on language as a preparation for later courses. Class discussion, oral reports, frequent written work.

Open to students who have completed course 103 or 104, or present four units in French for admission, and, on recommendation of the department, to students who have completed course 102 or another three-hour course of grade II. Three hours a week for a year. Miss Dennis, Miss Ruet, Miss Bruel.

202. Composition, Translation, Grammar.

First course. Weekly written work. The object of the course is to provide additional practice in the written and the spoken language.
Courses of Instruction

Mrs. Ilsley, Miss Quarré.

205. Composition, Translation, Grammar.

Second course. The work of the course is on the same lines as in course 202, but more advanced in nature.

Open to students who have completed course 202 or 201 or 204 or 207, and to other students on recommendation of the department. One hour a week for a year.

Miss Pernot.

A survey course, intended primarily for students who do not expect to major in French; more ground is covered than in course 204. Class discussion of selected masterpieces, short papers, outside reading. First semester: a brief study of the Middle Ages and the Renaissance; the seventeenth century. Second semester: the eighteenth century and the first half of the nineteenth.

Open to students who have completed course 103 with a grade of at least C, or 104 and, exceptionally, on recommendation of the department, to students who have completed course 102 or course 201. This course is not open to students who have completed or are taking course 204. Three hours a week for a year.

Miss Melcher.

204. Studies in French Literature.

A study of representative French authors of the Middle Ages, the Renaissance (the texts used are in modern French), the seventeenth and eighteenth centuries. The course will stress the work of the sixteenth and seventeenth century writers. A few subjects only are chosen for each period and special attention is given to method and to the handling of material in view of further work. Brief papers, lecture expliquée, outside reading, class discussion.

Open to students who have completed course 104 and, on recommendation of the department, also to students who have completed course 103; and, exceptionally, to students who have completed course 201. This course is not open to students who have completed or are taking course 203. Three hours a week for a year.

Miss Ruët, Miss Malbot.

206. Pronunciation and Diction.

This course is intended primarily to supplement advanced courses by practical work in speech. An analytical study of American defects, both general and regional, in French speech, and means of remedying such defects. A practical study of pronunciation and intonation.

Open to students who have completed courses 103 or 104, or 102 with the consent of the department, and to those who have taken or are taking a grade II or a grade III course in French. Two class periods a week and one hour of practice work, counting as one hour a week for a year.

Miss Pernot.

207. The Development of Modern French Drama.

After a brief introductory survey of the drama of the Middle Ages, the Renaissance, and the Classical Age, this course will study the theatre of the eighteenth
French

89

century, including Voltaire, Marivaux, Beaumarchais, le drame bourgeois; the
plays of the Romantic period; the comedy of manners and the problem play;
le théâtre libre; contemporary drama, including plays by Rostand, Maeterlinck,
Curel, J. Romain, Claudel, Giraudoux, and others.

Open to students who have completed course 104 or a three hour course of grade II,
and, on the recommendation of the department, to students who have completed course
103. Three hours a week for a year.

Mr. de Messières.

*208. Conversation.

The aim of this course is to provide additional practice in the spoken language
and to build up the student's vocabulary while giving some insight into French
current events and various aspects of French life. Class discussion based on the
study of French periodicals, newspapers, and recent books.

Open to students who have completed course 103 or 104 or present four units in
French for admission. One hour a week for a year.

Miss Bruel, Miss Quarré.

301. The Classical Period of French Literature.
The main object of the course is the study of the development of French classical
literature and of society. The authors studied are: Malherbe, Descartes,
Pascal, La Rochefoucauld, La Bruyère, Bossuet, Fénelon, Corneille, Racine,
Molière, La Fontaine, Boileau. Outside reading: Brief papers.

course 204 or 207 or 203; also to seniors who are taking three hours of grade II.
Three hours a week for a year.

Mrs. David, Miss Bruel.

302. Eighteenth Century Literature.
The aim of this course is to trace the development of French liberal thought
in the eighteenth century, and to give some account of the influences that
brought about the French Revolution and contributed to the Romantic move-
ment in France. The course will stress the works of Montesquieu, Voltaire,
Diderot, and Rousseau.

Open to juniors and seniors who have completed course 204 or 207 or 203, or who
have taken a grade III course. Three hours a week for a year.

Mr. de Messières.

304. Conversation.
A conversation course based on the reading of contemporary regional novels
on Brittany, Normandy, Touraine, Béarn, Provence, etc.

Open to juniors and seniors who have completed three hours of grade II or are tak-
ing a three-hour course of grade II, and, on recommendation of the department, to
sophomores who have completed a three-hour course of grade II. Two hours a
week for the first semester.

Miss Ruet, Miss Malbot, Miss Quarré.

309. Conversation.
The work of the course is the same as in 304, but other novels will be assigned.

Open to juniors and seniors who have completed three hours of grade II or are
taking a three-hour course of grade II, to students who have completed course 304.
and, on recommendation of the department, to sophomores who have completed a three-hour course of grade II. Two hours a week for the second semester.  
Miss Ruet, Miss Malbot, Miss Quarré.

305. Intensive Reading.
The work of this course will consist of the intensive study of one subject. In 1936-37 the subject chosen will be: History of the French Novel with special emphasis on the evolution of the genre. Oral reports, class discussion, approximately a paper a fortnight.

Open to juniors and seniors who have completed course 204 or 207 or 203, or who are taking a course of grade III. Three hours a week for a year. Miss Bruel.

A study of the romantic movement in French literature, and in particular of the great novelists and poets of that period: Lamartine, Vigny, Victor Hugo, Musset, Chateaubriand, Mme. de Staël, Benjamin Constant, Balzac, Fromentin, Stendhal, Barbey d’Aurevilly. Approximately a paper a fortnight. Occasional visits to Farnsworth Art Museum or Boston Museum of Fine Arts for basis of written work.

Open to juniors and seniors who have completed a full grade III course, and to approved juniors and seniors who have completed course 204 or 207 or 203. Three hours a week for a year.
Mr. de Messières.

I. The evolution of French poetry from Baudelaire to the present day, with special studies of Baudelaire, Verlaine, Rimbaud, Claudel, Valéry, Mme. de Noailles, etc. II. The masters of French prose during the same period: Barrès, Bergson, Gide, Proust, Giraudoux, Mauriac, Maurois, J. Romain, etc.

Open to seniors who have completed course 301 or 302 or 305 or 306 and, exceptionally, on special recommendation of the department, to seniors who have completed course 203 or 204. Three hours a week for a year. Mr. de Messières.

308. Studies in Language.
Advanced composition and translation.

Open to juniors and seniors who have completed or are taking a three-hour course of grade III, and, on recommendation of the department, to juniors and seniors who have completed course 205. Two hours a week for the first semester.
Miss Ruet, Miss Quarré.

310. Studies in Language.
The aim of this course is the same as in 308, but different subjects and texts will be studied.

Open to juniors and seniors who have completed or are taking a three-hour course of grade III, and, on recommendation of the department, to juniors and seniors who have completed course 205. Two hours a week for the second semester.
Miss Ruet, Miss Quarré.

350. Research or Individual Study.
Open to approved seniors who have taken two full grade III courses in the department, or who have completed one full grade III course and are taking another full
grade III course. The permission of the department must be secured before electives are handed in. Two to three hours a week for a semester or a year. The amount of work contemplated must be stated at the time of handing in electives.

321. Old French. (Not offered in 1936-37.)

Open to graduate students who have completed twelve year-hours of college French, and, on recommendation of the department, to seniors who have completed the same amount of work. Three hours a week for a year.

DIRECTIONS FOR ELECTION

I. Course 101 counts for the degree but does not count towards a major.

Course 102 counts for the major only if directly followed by a three-hour course of grade II.

Students planning to major in the department should not carry two three-hour courses of grade II without permission of the department.

II. A twelve-hour major will consist of not less than six hours of grade III and not more than three hours of grade I.

III. Course 202 taken in the sophomore year, course 205 in the junior year and courses 308, 310 in the junior or senior year will be most valuable to students majoring in French. Course 206 will give additional training in diction.

Students majoring in French literature are advised to include 301 in their program. Greek 203 (Greek Literature in English Translations) and Latin 105 (Latin Literature in English Translations) are recommended to students planning to elect French 301.

The following courses are suggested to students planning to elect French 302: History 102 or 201, English Literature 206, 310.

Students proposing to elect French 305 are advised to elect English Literature 207 and 206.

Students proposing to elect French 306 are advised to elect History 201, English Literature 322, and German 305.

Students proposing to elect French 307 in the senior year are advised to elect course 306 in the junior year.

All students are urged to consult their instructors and the chairman of the department in regard to their higher electives, especially such students as intend to teach French and desire the recommendation of the department. It will be well for them to plan fifteen hours of electives.

Only those students who have completed satisfactorily a twelve-hour major in the department will be recommended as teachers of French.

Special attention is called to Education 303, which is open to seniors who are taking French 301, 302, 305, 306, or 307.

GENERAL EXAMINATION

The general examination in French will consist of two parts:

Part I. French Literature, to be given in the morning. Three hours.

Part II. French Language, to be given in the afternoon. Two hours.

In part I general questions only will be asked on the subjects studied in courses 201, 203, 204, 207, especially questions that stress the interrelation between these
Courses of Instruction

courses and courses of grade III. The longer part of this examination will be devoted to questions bearing on the subjects studied in courses of grade III, involving correlation of earlier and later courses, comparisons, study of a type or "genre," etc.

Part II will consist mainly of translation from French into English, and English into French, or in explication de texte.

Model Groupings of Twelve-Hour Majors Suitable as a Basis for the General Examination

I. Students entering with two units of French.
   First Year: 102.
   Second Year: One of the following, on special recommendation of the department: 201, 203.
   Third Year: 301.

II. Students entering with three units of French.
   First Year: 103 or 104.
   Second Year: One of the following: 201, 204, 207, 203.
   Third Year: Preferably 301, or one of the following: 302, 305, 306.
   Fourth Year: 307 (or one of the following, if not previously taken: 302, 305, 306).

III. Students entering with four units of French.
   First Year: 201.
   Second Year: 301.
   Third Year: One of the following: 302, 305, 306 (preferably 306, if 307 is to follow).
   Fourth Year: 307 (or one of the following, if not previously taken: 302, 305, 306).

Important Note

To the preceding should be added, if possible, one or more of the following courses:

A. Grammar and Composition Courses: 202 in the sophomore year, 205 in the junior year, 308, 310 in the junior or senior year.

B. Pronunciation and Diction: Course 206.

C. Conversation Courses: 208 in the sophomore year, 304, 309 in the junior or senior year. (In the sophomore year on recommendation of the department.)

D. Research or Individual Study: 350 in the senior year.

GEOLOGY AND GEOGRAPHY

Professor: MARY JEAN LANIER, PH.D. (Chairman)
Associate Professor: MARGARET TERRELL PARKER, M.A.
Assistant Professor: LOUISE KINGSLEY, PH.D.
Lecturer: RUSSELL GIBSON, PH.D.
Instructors: KATHARINE FOWLER LUNN, PH.D.
ESTHER JANE ABERDEEN, M.S.
Assistant: ALICE MARY DOWSE, M.A.

*101. GENERAL GEOLOGY.

First Semester—Physiography. A study of the work which wind, waves, rivers, glaciers, volcanoes, and earth movements have done and are doing to
shape the earth's surface. This study explains the origin of hills and valleys, of plains, plateaus and mountains, of continents and ocean basins, and makes clear the ways in which these surface features have affected man's life. Second Semester—Historical Geology. The origin of the earth and its history from the time of its origin until the present. The evolution of life on the earth traced from its earliest known appearance through its recent development.

Open to all undergraduates. Six periods a week: in general, three of lecture or discussion and three of laboratory work. Occasional afternoon field trips will be substituted for laboratory work. The course counts three hours a week for a year.

Miss Lanier, Miss Parker, Miss Kingsley, Mrs. Lunn, Miss Aberdeen, Miss Dowse.

202. Mineralogy.
A study of minerals, including those which are economically valuable, such as ore minerals and gem stones, and those which are essential constituents of rocks. The student will learn to identify and determine the composition of all the better known minerals, making use of both physical properties and methods of blowpipe analysis. The modes of occurrence of minerals and the industrial uses to which they are put are included in the study.

Open to students who have completed Geology 101 or Chemistry 101. Two three-period appointments a week for lecture and laboratory work, counting three hours a week for the first semester.

Mr. Gibson, Miss Aberdeen.

203. Economic Geology. (Not given in 1936-37.)
A study of economically valuable mineral deposits, both metallic and non-metallic. The course deals with the origin, composition, and geological and mineralogical relations of these deposits, and, briefly, with their geographic distribution and political significance.

Open to students who have completed course 202. Two three-period appointments for lecture, class discussion, and laboratory work, counting three hours a week for the second semester.

Mrs. Lunn.

205. Invertebrate Paleontology. (Not given in 1936-37.)
The course deals with the facts and principles of organic evolution as revealed by the invertebrate life of the past. The steps in the development from simple, generalized forms to more complex and specialized types are illustrated by a detailed comparative study of fossils of the various phyla. The effects of physical environment upon life development are emphasized.

Open to students who have completed Geology 101 or Zoology 101. Two two-period appointments for lectures, class discussion, and laboratory work, with independent laboratory assignments. The course counts three hours a week for the second semester.

Miss Aberdeen.

301. Field Geology.
An introduction to the methods of field study. The course is designed to train the student to make a topographic map, and to interpret and map the geology of a region.
Courses of Instruction

Open to juniors and seniors who have completed courses 101 and 202. One three-period lecture or laboratory appointment, or one afternoon in the field, with independent field work related to the student's special problem. In addition to the scheduled appointment, students registering for course 301 should keep at least three other consecutive periods available for independent work on field problems. The course counts three hours a week for the second semester.

Mr. Gibson.

312. Crystallography. (Not offered in 1936–37.)
The course deals mainly with optical crystallography and the application of optical crystallography to the study of minerals. The laboratory work consists of the determination of minerals by means of their optical constants.

Open to juniors and seniors who have completed Geology 202. Juniors and seniors majoring in Chemistry or in Physics may be admitted to the course upon the recommendation of the two departments concerned. Two two-period appointments a week for lecture and laboratory work, counting three hours a week for the first semester.

Miss Kingsley.

313. Petrography. (Not offered in 1936–37.)
This course includes the identification of rocks by means of a study of thin sections with the petrographical microscope, and aims to give the student an elementary knowledge of the origin and composition of rocks.

Open to juniors and seniors who have completed course 312. Two two-period appointments a week for lecture and laboratory work, counting three hours a week for the second semester.

Miss Kingsley.

314. Igneous and Structural Geology.
An introduction to problems of vulcanism and of structure. The course will include a study of the methods by which mountain structures and intrusive igneous phenomena are interpreted.

Open to juniors and seniors who have completed courses 101 and 202. Two two-period appointments for lecture and laboratory, with occasional field trips, counting three hours a week for the second semester.

Miss Kingsley.

315. Geomorphology.
The relation of structure to land forms. The work will include a study of the main physiographic provinces of North America and comparisons of American areas with European regions. It will include also an analysis of some current controversial problems.

Open to juniors and seniors who have completed course 101 and a grade II course in geology, or by special permission to those who have completed course 101 only. Two two-period appointments a week for lecture and laboratory work, with occasional field trips, counting three hours a week for the first semester.

Mrs. Lunn.

321. Problems in Geology. (Not offered in 1936–37.)
This course is designed to give students training in independent investigation. Individual problems are assigned and reports to the instructor are made at regular intervals.

Open to graduate students and by permission to seniors who are majoring in Geology. Three hours a week for a semester or for a year.

Mr. Gibson.
350. Research or Individual Study.

The subject of study will be determined by the preparation of the student and by her special interests. Her work will be under the direction of the member of the department in whose field the subject lies.

*Open by permission of the department to juniors and seniors who are majoring in the department. Three hours a week for a semester or for a year.*

**Summer Field Work.** Credit may be given advanced students for summer field work, plans for which are approved in advance by the department. The amount of credit will depend upon the nature and extent of the work. This applies either to field trips offered by other colleges, or to special field problems directed by members of the department.

**GEOGRAPHY**

208. The Geography of Europe.

A study of man's adjustment to physical environment in Europe. Topography, climate, and other environmental factors are studied in their relation to human development in that continent. The study makes clear how environmental features help to explain the early rise of civilization in Europe, the distribution of races and languages, the origin of the present political units, and the economic development of Europe as a whole. Certain nations of major interest to American students are given further detailed study.

*Open to juniors and seniors, and to sophomores who have completed course 101 or who are majoring in History. Three hours a week for the first semester.*

**Miss Parker.**

209. The Economic Geography of North America.

A study of man's economic activities as related to environmental factors in the major geographic regions of North America. The objective of the course is to develop a clear conception of the elements of the natural environment, such as climate, topography, soils, surface and underground waters, mineral resources, native vegetation, and to emphasize in the regions studied the important adjustments which man has made to these elements.

*Open to juniors and seniors, and to sophomores who have completed course 101 or who are majoring in History. Three hours a week for the second semester.*

**Miss Lanier.**

304. The Geography of South America.

A study of the physiographic features, climates, and resources of South America; the influence of these factors upon the colonization of the continent by Europeans, upon the formation of independent political units, and upon the present and possible future economic development of the various countries.

*Open to juniors and seniors who have completed a grade II course in geography; by permission to students of South American history. Three hours a week for the first semester.*

**Miss Lanier.**

307. The Historical Geography of the United States. (Not given in 1936-37.)

An analysis of the relations between the natural environment and the settlement and development of the country. The adjustments to varied environ-
ments in connection with the westward expansion of the American people. An interpretation in selected areas of readjustments made from time to time in response to the changing significance of some element or elements in the environment. A geographic background to American history.

Open to juniors and seniors who have completed course 209, and by permission to students of American history. Three hours a week for the first semester.

**Miss Lanier.**

308. Problems in the Geography of Eurasia.
A geographic study of selected regions of the Eurasian continent (exclusive of countries given detailed treatment in course 208). Students will interpret independently in so far as possible the human response to physical environment in each region. The course gives opportunity to apply independently geographic principles developed in earlier regional courses, as well as to gain familiarity with new territory and to study interesting contrasts between oriental and western civilization.

Open to juniors and seniors who have completed course 208. Three hours a week for the second semester.

**Miss Parker.**

309. Climates of the World. (Not offered in 1936-37.)
A course designed to give an understanding of the major types of climate and of their distribution in the several continents; to show the significance of climate as a factor in the economic activities of a region and in the trade between different regions.

Open to juniors and seniors who have completed at least one regional course in geography. Three hours a week for the second semester.

305. Seminar in Geography. (Not offered in 1936-37.)
The course begins with a study of the methods of individual research. Early in the course a selected topic is assigned to each student for investigation and reports of the individual work are presented weekly.

Open to graduate students and to approved seniors. Three hours a week for the second semester.

**Miss Parker.**

350. Research or Individual Study.
The subject of study will be determined by the preparation of the student and by her special interests. Her work will be under the direction of the member of the department in whose field the subject lies.

Open by permission of the department to juniors and seniors who are majoring in the department. Three hours a week for a semester or for a year.

**DIRECTIONS FOR ELECTION**

**Geology.** Students who wish to major in Geology are advised to take Chemistry. Students intending to do graduate work in Geology will find German indispensable.

A Geology major should include courses 101, 202, and at least seven and a half hours selected from other courses in the subject.

**Geography.** Students who wish to major in Geography will find that this work correlates well with work in History and Economics. For advanced work in the
subject, both French and German are useful, though there is somewhat more material available in French than in German.

A Geography major should include courses 101, 208, 209, and at least six hours of grade III work in the subject.

By permission of the department, three hours of closely correlated work in History will be accepted as part of a twelve-hour major in Geography.

GENERAL EXAMINATION

A major offered for the general examination in Geology or in Geography must include course 101.

Some questions based upon the fundamental work given in course 101 will be required both of students majoring in Geology and those majoring in Geography. With this exception, entirely different examinations will be set for the two groups. Some choice of questions will be possible. The questions will involve correlation and interpretation of material, and the application of general principles to specific cases.

The department will suggest supplementary summer reading for those students who desire such assistance.

GERMAN

Professor: Natalie Wipplinger, Ph.D. (Chairman)
Associate Professor: Marianne Thalmann, Ph.D.
Assistant Professors: Barbara Salditt, Ph.D.
Margaret Jeffrey, Ph.D.
Instructors: Johanna Elisabeth Volbehr.
Doris Elizabeth Rich, M.A.

The language of the classroom in all courses is almost exclusively German. The student thus has constant practice in hearing, speaking, and writing German.

A limited number of qualified students are permitted to spend the junior year in Munich.

The texts used in this course are made the basis for a study of grammatical forms and rules, for speaking exercises and composition work. Frequent written exercises are required.

Open to students who do not present German for admission. Three hours a week for a year. Miss Salditt, Miss Jeffrey, Mrs. Volbehr, Miss Rich.

*102. Elementary Course. Reading, free reproduction, written and oral exercises, short themes; memorizing of poems.

The methods are the same as in course 101. In connection with the reading, special attention is given to the learning of the more common idioms. Several poems are memorized. Frequent written tests or short themes are required. Course 102 is intended to fit students to enter course 202.

Open to students who have completed course 101 or present two units in German for admission. Three hours a week for a year. Miss Thalmann, Miss Salditt, Miss Jeffrey Mrs. Volbehr, Miss Rich.
Courses of Instruction

*104. Outline History of German Literature.

The object of this course is to furnish the student with the vocabulary necessary for the reading and discussion of literature, and to give her a general historical background for the more detailed study of German literature in subsequent courses.

Open to freshmen who present three or more units in German for admission. Three hours a week for a year.

Mrs. Volbehr.

202. History of German Literature.

First semester: discussions, reading, and occasional lectures on the history of German literature before Goethe. The aim is to trace the parallel development of literature, social conditions, and religious ideals of the times. Works read and discussed are: the Hildebrandslied, selections from the Nibelungenlied, the works of Wolfram, Gottfried, Hartmann, the Minnesingers; Volkslied, selections from Luther, Hans Sachs, Lessing, Herder. Second semester: Schiller, Goethe, and a brief survey of the nineteenth-century literature.

Open to students who have completed course 102. Three hours a week for a year.

Miss Wipplinger, Miss Salditt, Miss Jeffrey.

204. Schiller's Life and Works.

(Introductory Course.) Lectures, discussions. Study of Schiller's life and some of his important dramatic works. Texts: Die Räuber (Cotta); Wallenstein (Carruth); Schiller's Gedichte (Cotta); Schiller's Briefe (Kühnemann). Occasional themes.

Open to students who have completed courses 104 or 202. Three hours a week for the first semester.

Miss Thalmann.

205. Goethe's Life and Works.

(Introductory Course.) Lectures, discussions. Study of the principal characteristics of Goethe's life and works to the time of his literary co-operation with Schiller. Works discussed in class: Götz von Berlichingen, Werther, Iphigenie, Egmont, selected poems. Interpretation of "Storm and Stress" in connection with Götz, of German classicism in connection with Iphigenie. Supplementary discussion of Goethe's Briefe (Langewiesche), Dichtung und Wahrheit, Bielschowsky's Goethe, Euripides' Iphigenie. Occasional themes.

Open to students who have completed courses 104 or 202. Three hours a week for the second semester.

Miss Wipplinger.

206. Conversational German.

Modern German works are read and discussed. Talks in German based on material used in other college courses or found in current German magazines are prepared and given by members of the class.

Open to students who have completed courses 102 or 104, or on special recommendation to those who have completed course 101. One hour a week for a year.

Mrs. Volbehr.

207. Advanced Conversational German.

The same method used as in 206. More difficult reading material used.
German

Open to students who have completed course 202 or 206, and by special permission to those who have completed course 104. One hour a week for a year.  

MRS. VOLBEHR.

301. German Novel.  
Historical development of the German novel since Goethe.  
Open to juniors and seniors who have completed three hours of grade II. Three hours a week for the first semester.  

MRS. THALMANN.

302. History of the German Language.  
This course aims to give a fuller and more thorough understanding of modern German through the study of its historical development.  
Open to juniors and seniors who have completed three hours of grade II. Three hours a week for the second semester.  

MRS. JEFFREY.

303. Middle High German. (Not offered in 1936-37.)  
(Introductory Course.) Survey of Middle High German forms and sounds. Translation of Middle High German epic and lyric poetry into the modern idiom.  
Open to juniors and seniors who have completed at least three hours of grade II. Three hours a week for the second semester.  

MRS. WIPPLINGER.

304. Goethe’s Faust, Part I.  
Study of the pre-Goethean development of the Faust legend in its more important literary forms. Close study of the text of Goethe’s Faust, Part I. Collateral readings and reports on the relation of the poem to Goethe’s life and times. Part II will be treated in a few final lectures. Frequent tests.  
Open to juniors and seniors who have completed course 205. Three hours a week for the first semester.  

MRS. WIPPLINGER.

305. The German Romantic School.  
A study of the development and spirit of the German Romantic School.  
Open to juniors and seniors who have completed course 304. Three hours a week for the second semester.  

MRS. WIPPLINGER.

306. Lessing as Dramatist and Critic. (Not offered in 1936-37.)  
Treatment of Lessing’s critical work in literature, theology, and aesthetics.  
Open to juniors and seniors who have completed course 304. Three hours a week for the second semester.  

MRS. SALDITT.

(Seminary Course.) Study of Goethe’s lyrics, ballads, later dramas, parts of Faust II, and other works. Collateral reading in the Goethe Jahrbuch, and from Eckermann, Grillparzer, Groff, Harnack, and others. Consideration of Goethe’s relation to other literatures.  
Open to seniors who have completed course 304. Three hours a week for the first semester.  

MRS. WIPPLINGER.

308. Nineteenth Century Drama.  
Special study of Kleist, Grillparzer, Hebbel, Ibsen, Hauptmann, Schnitzler, Hofmannsthal, Strindberg, Wedekind; their relation to classic and romantic art, and to the social and philosophical problems of the century.
Courses of Instruction

Open to seniors who have completed course 304. Three hours a week for the second semester. Miss Thalmann.

309. Schiller as Philosopher and Writer on Aesthetics. (Not offered in 1936-37.)
(Seminary Course.) Study of Schiller through his correspondence with Körner, Goethe, etc., and through his philosophic poems and essays.
Open to seniors who have completed course 204 and at least three hours of grade III. Three hours a week for the first semester.

310. Gothic. (Not offered in 1936-37.)
Open to graduates and to seniors by permission of the instructor. Three hours a week for the second semester.

311. German Lyric Poetry in the Nineteenth and Twentieth Centuries.
Open to juniors and seniors who have completed three hours of grade II. Three hours a week for the second semester. Miss Thalmann.

350. Research or Individual Study.
Open to graduate students, and, by permission, to approved seniors. Three hours a week for a semester or for a year.

Directions for Election

I. For students who begin German in college.
First Year: Course 101.
Second Year: Course 102.
Third Year: Courses 202, 206.
Fourth Year: Courses 204, 205, 207, 301, 311, 302.

II. For students who offer the Two Unit Requirement.
First Year: Course 102.
Second Year: Courses 202 and 206.
Third Year: Courses 204, 205, 207, 301, 302, 311. Students may not omit 204 and 205 except by permission from the chairman of the department.
Fourth Year: Courses 304, 305, 307, 308, 207, 301, 311.

III. For students who offer the Three Unit Requirement.
First Year: Course 104.
Second Year: Courses 204, 205, 206. Students may not omit 204, 205 except by permission from the chairman of the department.
Third Year: Courses 207, 304, 302, 305, 301, 311.
Fourth Year: Courses 302, 304, 305, 307, 308, 301, 311.
The major is based on courses 104 or 202. Students planning to major in German are advised to take courses in Philosophy, Mediæval History, and English and French Literature.
Students intending to teach German will be recommended by the department only on condition that they have taken from three to six hours of grade III. They are advised to take courses 207 and 302.
GREEK

GENERAL EXAMINATION

The questions for the general examination will be on the following four groups:
(1) The general history of German literature.
(2) The period of Goethe and Schiller.
(3) Rationalism and Romanticism.
(4) Nineteenth century literature.

GREEK

Associate Professor: Helen Hull Law, Ph.D. (Chairman)
Assistant Professor: Barbara Philippa McCarthy, Ph.D.

*101. Beginning Greek.
   The aim of the course is to cover in one year the fundamental facts of Greek grammar with practice in reading and writing. The text-book is Crosby and Schaeffer’s *An Introduction to Greek*. The Greek reading includes selections from the great writers of prose and poetry.
   Open to students who do not present Greek for admission. Three hours a week for a year. Miss McCarthy, Miss Law.

*201. Plato.
   Apology, Crito and selections from other dialogues.
   Open to students who have completed course 101 or present two or three units in Greek for admission. Three hours a week for the first semester. Miss Law.

*205. Homer.
   Selected books of the *Iliad*.
   Open to students who have completed courses 101 and 201 or present two units in Greek for admission and have completed course 201, and to others on recommendation of the department. Three hours a week for the second semester. Miss McCarthy.

   Selected books of the *Odyssey* or other material selected to meet the needs of the class.
   Open to students who present three units in Greek for admission and have completed course 201, and to those who have completed course 205. Three hours a week for the second semester. Miss Law.

203. Greek Literature in English Translation: Homer, Lyric Poets, Tragedy.
   The class will read the *Iliad*, selections from the lyric poets, and as many of the plays as possible of Æschylus, Sophocles, and Euripides. The class discussions will be accompanied by lectures on the origin of epic poetry and tragedy and their influence on later literature. This course may not be counted toward a major in Greek.
   Open to juniors and seniors without prerequisite, and to sophomores who have completed a course in literature in any department. (This does not include a beginning course in a foreign language.) Three hours a week for the first semester. Miss McCarthy.
207. Greek Literature in English Translation: From the Late Fifth Century through the Græco-Roman Period.

This course with course 203 gives a survey of the field of Greek literature, but either course may be elected independently. A study will be made of the origin and development of such literary types as the short story, prose romance, comedy, mime, dramatic dialogue, pastoral, epigram, Hellenistic epic, and epyllion. Special emphasis will be placed upon the influence of these types on later literature. This course may not be counted toward a major in Greek.

Open to juniors and seniors without prerequisite, and to sophomores who have completed a course in literature in any department. (This does not include a beginning course in a foreign language.) Three hours a week for the second semester.

Miss Law.

204. Classical Mythology.

The more important myths of the classical period will be studied in relation to the literature, art, and religion of ancient times and their influence on the literatures of succeeding periods. This course may not be counted toward a major in Greek.

Open to juniors and seniors without prerequisite, and to sophomores who have completed a course in literature in any department. (This does not include a beginning course in a foreign language.) One hour a week for a year. Miss Law.

213. Studies of Continuing Types in Greek, Latin, and English Literature. (Not offered in 1936–37.)

For courses in the study of Greek Testament see Biblical History.

DIRECTIONS FOR ELECTION
Courses 203, 204, 207, and 213 may not be counted toward a major in Greek. Either 302 or 307 and 308 should be included in a major. Students majoring in Greek are advised to elect some work in Latin. Their attention is also called to the courses in Greek History, Classical Art, and Greek Philosophy.

GENERAL EXAMINATION
The general examination in Greek will include passages for sight translation with questions on language and syntax. Students will be expected to show an acquaintance with the origin, development and characteristics of the various types of literature studied together with the background of history, religion, and myth. The student should make a special effort to grasp the distinguishing characteristics of Greek civilization as shown in its literature.

GROUP LEADERSHIP
Professor: Alfred Dwight Sheffield, M.A.

201. Leadership in Organized Groups.
A study of the processes of thought and expression by which clubs, conferences, and committees deal with current problems in the community. The work will be based partly on the records of group experience in Christian Associations civic and philanthropic boards, industrial joint councils, and adult education projects, partly on guided observations of current organizational procedures, and partly on readings in social psychology. There will be written analyses of typical situations, with attention to points where adjustment calls for skill in dealing with fixed ideas, prejudices, and other emotional factors. Occasional brief papers in both semesters, with examination for the first semester and final paper for the second.

Open to seniors, and to juniors and sophomores who have completed, or are taking, Economics 101 or a course of grade I in History or Political Science. Three hours a week for a year.

Mr. Sheffield.
*101. Medieval and Renaissance Europe.

Beginning with a discussion of Rome's legacy to Europe, this course includes the study of such topics as the Mediaeval Church, feudal society, Mohammedanism and the Crusades, mediaeval towns and guilds, the development of commerce and banking, the intellectual awakening of the thirteenth century, the Renaissance of Art and Literature, the age of exploration and early colonization, the Protestant movement, and the foundation of modern European nations.

Open to all undergraduates. This course or course 102 is prerequisite to later election. Three hours a week for a year.

MISS ORVIS, MRS. HODDER, MISS MOFFETT, MRS. COLE.

*102. Modern European History.

After a survey of conditions in the second half of the seventeenth century, this course will trace the leading movements in the development of modern Europe, such as French and English colonial expansion in the eighteenth century, the Industrial Revolution, the French Revolution, the Liberal and Nationalist movements of the nineteenth century, the emergence of the modern British Empire, the unification of Italy and Germany, and the Great War.

Open to all undergraduates. This course or course 101 is prerequisite to later election. Three hours a week for a year.

MISS MILLER, MISS WILLIAMS, MRS. COLE.

201. History of Europe since the French Revolution.

An introductory survey of the French Revolution and the Napoleonic Era is followed by a discussion of the political development of France, Germany, Austria, Italy, and Russia from 1815 to the present.

Open to sophomores, juniors, and seniors who have completed one full course in History. Three hours a week for a year.

MISS ORVIS.

203. The History of Greece.

This course will open with a brief survey of the oriental civilizations by which the Greeks were influenced. A study of the social, economic, and political development of the Greek State will follow, and with this as a foundation Greek civilization in its most significant aspects will be considered.

Open to students who have completed one college course in History and, without prerequisite, to those who are giving special attention to the Classics. Three hours a week for a year.

MRS. HODDER.
204. **History of Rome.** (Not offered in 1936-37.)

This course offers a general survey of Roman History. The conclusions of modern archaeologists and historians with regard to the earlier period are studied, but the main emphasis is placed upon Rome's experiments in government, the attempts of her statesmen to solve the social and economic problems of the Republic, and the Empire, and upon the development of Rome's legacy to the modern world.

*Open to sophomores, juniors, and seniors who have completed one college course in History, and without prerequisite to those who are giving special attention to Latin, Greek, or Economics.* Three hours a week for a year. **MRS. HODDER.**

Miss Overacker.

350. RESEARCH OR INDIVIDUAL STUDY. (Not offered in 1936-37.)
By consultation with the department, students may arrange for from one to three hours of individual work in political science.

DIRECTIONS FOR ELECTION
Students electing History may choose either of the introductory courses 101 or 102, but both of these courses may not be counted in a major. A major in Political Science is based on course 104. The only other restrictions are those required by the prerequisites stated for each course. Students desiring to take the general examination in History are advised, however, to seek the advice of the chairman and other members of the department in order to insure a proper correlation of courses.

The courses are designed to help the student to acquire methods of historical work, and to furnish a basis for the more detailed study of particular periods. Courses in Political Science may not be included in a major in History, and courses in History may not be included in a major in Political Science without the special permission of the department.

Students may take their general examination in History or in Political Science, and these subjects may be combined in the twenty-one hours of work for concentration.
The courses in Political Science are arranged to meet the needs of three groups of students: those intending to do graduate work in Political Science or Law; those desiring to supplement their work in History, Economics, or Sociology with a knowledge of Political Science; students in other fields who wish to be prepared to take an intelligent part in the political activities of their communities after college.

The department will advise candidates for honors in regard to their fields of special study and will direct their work.

Students proposing to teach history are advised to take at least four courses in the department.

By permission of the department three hours of closely correlated work in Geography will be accepted as part of a twelve-hour major in History.

By special permission certain courses of grade III in Economics and Sociology may be counted toward a major in Political Science.

Students are urged to consult with the department before deciding upon the courses to constitute a major in History.

GENERAL EXAMINATION

The purpose of the general examinations in History and in Political Science is to test:

(1) General knowledge of the subject matter of the courses composing the major.

(2) Ability to analyze, correlate, and compare the subject matter of these courses.

(3) Power to judge and appraise movements and personalities.

The general examination will not assume a knowledge of fact outside the subject matter of the separate courses.

I. UNDERGRADUATE COURSES

The Department of Hygiene and Physical Education aims to build up in each student
sufficient strength and vitality to meet the demands of a normally active life; to encourage an
appreciation and maintenance of fundamental health habits; to develop poise, a habit of
normal unstrained carriage, a sense of rhythm, coordination and motor judgment—to
enable her to handle herself confidently in any situation; to develop skill and permanent
interest in wholesome recreational activities adapted to individual needs and capacities; to
awaken in her a sense of self as a vital, responsible part of a group and the necessity for both
harmony and individuality in effective group work; in short, the Department aims to help each
girl to adapt herself efficiently and happily to the demands made upon her by modern life.

Two hours in Hygiene and Physical Education are prescribed for the degree.
One hour is met by course 120, Personal Hygiene; the second hour is met by two
periods per week of physical education activities during freshman and sophomore
years. Each of the two years' work is divided into Fall and Spring sport seasons,
and the Winter or indoor season.

All student choices for sports or winter work are subject to the approval of the
department on the basis of the results of the medical and physical examinations,
the results of the Motor Test, and the student’s previous experience.

Sports: During the four sport seasons, the department requires that students
take one season of a team sport; two seasons of an individual sport; and the other
season either an individual sport, a team sport, or, in the spring, the Modern
Courses of Instruction

Dance (outdoor). If a student can demonstrate fair skill in an individual sport, or if she has a Life Saving Certificate, she may substitute team sports for individual sports, or, in the spring, the Modern Dance (outdoor).

Winter Season: Freshmen who pass the Motor Test may elect any of the winter activities listed under 121; those who fail the Motor Test may choose between the Modern Dance and Gymnastics. All sophomores who have completed the first year indoor work may elect any of the activities listed under 122. All electives are subject to the approval of the department.

Posture Requirement: Every student must attain a grade of at least C—on her official posture photograph before completing her requirement.

*120. Personal Hygiene.

The aim of this course is to present the principles of personal hygiene and public health and to develop their intelligent application to the daily living of college students and members of families and communities. Personal conferences are arranged for each student.

Required of freshmen. One hour a week for a year, counting one hour toward the degree.

Dr. DeKruif, Miss Cook, Miss Powell, Miss Harris.

*121.† Sports and Indoor Activities for Freshmen.

Choice of the following:

Fall: Archery, basket ball, golf, hockey, riding, rowing, tennis, volley ball.
Winter: Folk dancing, gymnastics, modern dancing, tap dancing, winter riding.
Spring: Archery, golf, lacrosse, modern dancing (outdoor), riding, rowing, tennis.

Required of freshmen, two periods a week for a year, counting one-half hour toward the degree.

The Staff.

122.† Sports and Indoor Activities for Sophomores.

Choice of the following:

Fall: Archery, basket ball, golf, hockey, riding, rowing, tennis, volley ball.
Winter: Fencing, folk dancing, gymnastics, modern dancing, tap dancing, winter riding.
Spring: Archery, golf, lacrosse, modern dancing (outdoor), riding, rowing, tennis.

Required of sophomores who have completed course 121. Two periods a week for a year, counting one-half hour toward the degree.

The Staff.

*124. Individual Gymnastics for Freshmen.

Required of freshmen whose physical condition indicates the need of individualized gymnastics. Two hours a week in the winter, with course 121 fall and spring, counting one-half hour toward the degree.

Miss Wells and Assistants.

† In addition to the regular gymnasium costume required of all students the following requirements with approximate prices should be noted: crew ($3.50), fencing ($8.00), modern dancing ($3.00; sandals optional, .90), advanced tap dancing ($3.00), gymnastics ($8.00). Students are required to furnish their own individual equipment for such activities as golf, riding and tennis. Archery rental fee $1.00. Riding $20.00 fall or spring; $40.00 winter. Written permission from the parents to elect riding and special permission for jumping must be filed with the Hygiene Recorder at the time of election.
125. **Individual Gymnastics for Sophomores.**

*Required of sophomores whose physical condition indicates the need of individualized gymnastics.* Two hours a week in the winter, with course 122 fall and spring, counting one-half hour toward the degree.

**Miss Wells and Assistants.**

126. **Voluntary Activities for all Students.**

Students may elect with the permission of the department any of the activities listed under courses 121 and 122 and, in the winter, indoor basket ball. Students awarded dancing honors may elect modern dancing in the Junior Dance Group or in Orchesis.

*Open to all students. Two hours a week in the fall, winter, or spring terms. Not to count toward the degree.*

**The Staff.**

*131. Restricted Activities for Freshmen.*

*Required of freshmen whose physical condition indicates the need of restricted activities.* Two hours a week in the winter, with course 121 fall and spring, counting one half hour toward the degree.

**Miss Clarke.**

132. **Restricted Activities for Sophomores.**

*Required of sophomores whose physical condition indicates the need of restricted activities.* Two hours a week in the winter, with course 122 fall and spring, counting one-half hour toward the degree.

**Miss Schroeder, Miss Fitch, Miss Johnson.**

II. **Courses for the Certificate and M.S. Degree in Hygiene and Physical Education**

The Graduate Department of Hygiene and Physical Education is organized to meet the insistent demand for women of liberal education and broad professional training in this field. Its aim is to develop skilled teachers and supervisors, not only thoroughly conversant with the existing traditional subject matter, but also prepared to contribute to the current advance in educational and scientific research and its application in teaching and organization.

A. **Certificate in Hygiene and Physical Education.**

(1) A two years' course especially designed for the training of teachers of hygiene and physical education and leading to the Certificate of the Department of Hygiene and Physical Education is offered to graduates of approved colleges. In order to be admitted to this course candidates must be without organic disease or serious functional disorder, with a keen sense of rhythm and the ability to use the voice with ease and power.

Candidates should present for admission: elementary courses in the following physical education activities: Fundamental Gymnastics (Danish) and Apparatus; Modern Dancing, Tap Dancing; Archery, Baseball, Basket Ball, Golf, Hockey, Lacrosse, Tennis, and Swimming as evidenced by a Red Cross Life Saving Certificate;—one year of Chemistry, one year of Physics (Physics and Chemistry completed in secondary school may be accepted), one semester of Psychology or Educational Psychology, one semester of Principles of Education, and, in order to meet the requirement for state teachers’ certificates, Principles of Secondary Education and History of Education. Whenever possible the equivalent of Mammalian Anatomy (Zoology 301 and 313) and Physiology (Zoology 302)
Courses of Instruction

should be presented for admission.† The courses required for the Certificate are listed on pages 114 to 118 inclusive.

(2) A five years' course is offered leading to the B.A. degree and the Certificate of the Department of Hygiene and Physical Education. This course is open only to candidates for the B.A. degree in residence at Wellesley College. Students in this course receive the B.A. degree at the end of the fourth year and complete in the fifth year the work required for the Certificate and, in special cases, the requirements for the M.S. degree in Hygiene and Physical Education. (See schedule of required courses for five-year students, page 118.)||

B. Master of Science in Hygiene and Physical Education.

Graduate students who have qualified for advanced study and research, who have completed or are completing the requirements for the Certificate, and who have given evidence of a reading knowledge of French or German, may register for and complete in one or two years the twelve year-hours required for the M.S. degree in Hygiene and Physical Education. This requirement may be fulfilled by electives from the following: Hygiene and Physical Education 303, 321, 322, 323, 350, thesis, and, with special permission, graduate courses in closely allied fields.||

202. Technique of Teaching Sports.

Advanced technique, methods of coaching and officiating. (a) Fall season—basket ball, hockey; spring season—archery, lacrosse, tennis, track. (b) Fall season—baseball; spring season—golf.

(a) Required of first-year graduate students who have completed at least elementary courses in the activities listed. Five hours a week in the fall and spring with an additional hour of lecture once a week in the winter.

(b) Required of second-year graduate students who have completed at least elementary courses in the activities listed. Two hours a week in the fall and spring.

Miss Beall, Miss Harris, Mr. Howe, Miss Schroeder.

203. Technique of Teaching Gymnastics and Apparatus.

Lectures on gymnastic terminology, selection and adaptation of material, progression; methods of presentation with practice in teaching.

Required of first-year graduate students who have completed an elementary course in fundamental gymnastics (Danish) with apparatus. Three hours a week in the winter.

Miss Beall, Miss Clarke.

204. Technique of Teaching Rhythmic Activities for Children, Folk and Tap Dancing.

Elementary rhythmic work and dramatic play for small children; folk and national dances with practice teaching; tap dancing.

Required of first-year graduate students. Three hours a week for a year.

Miss MacEwan, Miss Beall.

† See undergraduate courses in Chemistry, Physics, Psychology, Education, Zoology.

|| See Bulletin of Graduate Department of Hygiene and Physical Education, and Wellesley College Graduate Circular.
Measurement in Physical Education.

Instruments of precision and statistical methods as used in Hygiene and Physical Education. This course is preparatory to research and to the study of problems of applied physiology.

Required of first-year graduate students. Two hours a week for a year; one hour of lecture and one hour of laboratory, counting one hour a week for a year. This course counts one hour toward the B.A. degree.

Mr. Howe.

Technique of Teaching Play Activities.

Psychology of play; growth and development of the child; selection and adaptation of activities for different age periods. Playground management and supervision. Study, demonstration and practice in methods of teaching story plays, games of low and high organization, stunts, achievement tests, and social games.

Required of first-year graduate students. Two hours a week for a year.

Miss Beall, Miss Cook.

Physical Examination and First Aid.

Purpose and technique of the physical examination, methods of recording, and the interpretation of findings. Study of first aid methods.

Required of first-year graduate students. Two hours a week for the second semester.

Miss Wells.

Introduction to the Study of Physical Education.

A brief historical survey of physical education in Europe and America is used to show the relation between aims and current practice in physical education and the social needs and political ideals of different periods. Present-day objectives are discussed and the distinctive values of type activities are suggested.

Required of first-year graduate students. One hour a week for the first semester.

Miss Elliott.

Technique of Teaching and Practice, the Modern Dance.

Lectures and practice. Sources, classification, selection and adaptation of material; terminology; principles of progression; analysis of methods of presentation and teaching.

Required of second-year graduate students who have completed the equivalent of the elementary and intermediate undergraduate courses in the modern dance. Students who have completed only the equivalent of an elementary course in the modern dance may register in this course provided they take an intermediate course in the modern dance concurrently. Four hours a week during the winter: three hours of practice teaching and one hour practice for skill during the first semester; four hours' practice for skill during the second semester.

Miss MacEwan.

Supervised Teaching.

Students assist in the college undergraduate required activities and conduct, under supervision, physical education programs in the public schools of Wellesley.

Required of second-year graduate students. Ten hours a week for a year, exclusive of individual conferences.

Miss Cook and the Staff.
216. **Music in Relation to Dancing.**

The purpose of this course is to furnish the basis for an intelligent appreciation of musical composition from the standpoint of the dance. It includes discussion and application of the principles of interpretation with emphasis on ear training, fully illustrated with music. No special technical knowledge of music is required.

*Open to first-year graduate students. One hour a week for the second semester.*

**Miss Johnson, Miss MacEwan.**

301. **Mammalian Anatomy.**

(Zoology 301—See Department of Zoology and Physiology.)

313. **Mammalian Anatomy.**

(Zoology 313—See Department of Zoology and Physiology.)

302. **General Physiology.**

(Zoology 302—See Department of Zoology and Physiology.)

303. **Kinesiology.**

Lectures and recitations dealing with the anatomical mechanism of movements; the roles of joint motion, muscular action, gravity, leverage, inertia, and internal resistance in the production and modification of movements and their effects.

*Required of first-year graduate students. Courses 301 and 313 or their equivalents must be taken concurrently if not presented as prerequisites. Three hours a week for a year. This course counts three hours toward the B.A. degree, or (with supplementary assignments) toward the M.S. degree in Hygiene and Physical Education.*

**Miss Powell.**

304. **Principles and Philosophy of Physical Education.**

Study and discussion of the purposes, scope, and ideals of physical education, including a detailed study of the main groups of activities usually included in a program of physical education with special reference to the selection and adaptation of the same to varying situations in the field.

*Required of second-year graduate students. Two hours a week for a year.*

**Miss Elliott.**

306. **Organization and Management.**

The study of procedures upon which the teaching situation depends; i.e., analysis and selection of activities, examination and grouping of pupils, testing the results of teaching, evaluation of the teacher or leader, provision of equipment, department organization. Illustrative problems are selected from those of elementary or secondary school and the college.

*Required of second-year graduate students. Two hours a week for the second semester.*

**Miss Elliott.**

309. **Reconstructive Hygiene.**

Conditions which affect general health; application of hygiene, corrective exercise, and massage in treatment. Approximately 30 lectures in this course are
given by orthopedic and medical specialists. Clinical demonstration of orthopedic material is given in the Carney Hospital, Boston, and other clinics.

Required of second-year graduate students. Course 303 or its equivalent is prerequisite. Three hours a week for a year.

Miss Wells, Dr. MacAusland, and Special Lecturers.

317. Problems of Organization and Administration. (Not given in 1936-37.)

Organization and management studied by field trips, discussion, and library investigation. Records, reports and budgets, construction and upkeep of buildings and sports fields.

Open to second-year graduate students registered in course 306. One hour a week for the second semester.

Miss Elliott.

The application of human physiology to the problems of hygiene and physical education. Functional, ability, and achievement tests, nutritional standards. Advanced problems in nutrition and growth, fatigue, coordination and training.

Required of second-year graduate students. Hygiene 207 and Zoology 302, or their equivalents, are prerequisite. Course 207 may be taken concurrently with the permission of the instructor. Three hours a week of lecture and recitation for a year, and one two-hour laboratory period in the winter, counting three hours a week for a year. This course counts three hours toward the M.S. degree in Hygiene and Physical Education.

Mr. Howe, Miss Powell.

322. Health Problems of School and Community.

The problems of growth, of health instruction, and environmental hygiene in the solution of which the teacher in physical education should be prepared to assist, advise or supervise. Students take active part in a school health program of measurement and instruction.

Required of second-year graduate students. Five periods a week; in general three of lecture and two of practical work, counting three hours a week for a year. This course counts three hours toward the M.S. degree in Hygiene and Physical Education.

Mr. Howe, Miss Cook.

323. Seminar in Hygiene and Physical Education. (Not given in 1936-37.)

Reading, investigation, and reports on current problems in hygiene and physical education; conferences; presentation of one or more papers for discussion.

Open to second-year graduate students. One or more semester hours. This course counts toward the M.S. degree in Hygiene and Physical Education.

Miss Elliott, Mr. Howe.

350. Research or Individual Study.

With the permission of the department, qualified graduate students may arrange for directed individual study in Hygiene and Physical Education.

Open to second-year graduate students. One to three hours a week for a year. This course counts toward the M.S. degree in Hygiene and Physical Education.
DIRECTIONS FOR UNDERGRADUATES WHO ARE CANDIDATES FOR THE B.A. DEGREE AND FOR THE CERTIFICATE OF THE DEPARTMENT OF HYGIENE AND PHYSICAL EDUCATION

Five years are required to complete the work for both degree and certificate. The work for the degree may be completed in four years.

A student may enter this five-year course at the beginning of her freshman, sophomore, or junior year. The College Recorder will furnish the student with a form to be presented to the chairman of the department, since permission to register for the five-year course must be obtained from the chairman by each applicant. By the end of the sophomore year a student should have completed Hygiene and Physical Education 120, 121, 122, Biblical History 112 or 104, Chemistry 101, Psychology 101, Physics 101, the prescribed courses in English Composition, and Speech, or should offer satisfactory equivalents. A full major in Zoology is an advantage. The required work for the last three years is as follows:

**Junior Year:** Courses 126, 204, 210, 212, Education 201, Zoology 301, 313. Hygiene 207 and Zoology 302 may be taken in the junior or in the senior year.

**Senior Year:** Courses 126, 202(a), 203, 208, 303, and Hygiene 207 and Zoology 302, if not completed in the junior year.

**Suggested Electives:** Courses in French or German, Economics, Sociology, Psychology, additional courses in Zoology, Hygiene 216, and, in order to meet the requirement for state teachers' certificates, Principles of Secondary Education and History of Education.

**Fifth Year:** Courses 202(b), 213, 214, 304, 306, 309, 321, 322; and thesis for the candidates for the M.S. degree in Hygiene and Physical Education.

Students are referred to the Bulletin of the Graduate Department of Hygiene and Physical Education.

ITALIAN

**Professor:** Gabriella Bosano, Dottore in Filologia Moderna (Chairman)
**Assistant Professor:** Angeline La Piana, Dottore in Lettere.
**Instructor:** Pierina Alessandra Borrani, Dottore in Lettere.

The language of the classroom is Italian except for occasional necessary explanations of grammar and idiom.

*101. Elementary Course.*
Grammar, with written and oral exercises; reading and sight translation; conversation. In the second semester a general view of Italian civilization is given through reading and conversation.

*Open to students who do not present Italian for admission. Three hours a week for a year.*
Miss Bosano, Miss La Piana, Miss Borrani.

*102. Practical Phonetics.*
Exercises in pronunciation based on reading aloud short passages of prose and poetry. Emphasis on rhythm and melody of the spoken language and on practical application of scientific phonetics.

*Open to students who are taking course 101 and required of students majoring in Italian. One hour a week for a year.*
Miss Borrani.
201. **History of Italian Literature in the Twentieth Century.**
Emphasis on drama and short stories.

*Open to students who have completed course 101 or equivalent. Three hours a week for a year.*

Miss La Piana.

202. **History of Italian Literature in the Nineteenth Century.**
Emphasis on realism and pessimism in the Italian literature of this period through a detailed study of Giovanni Verga, Giacomo Leopardi, Alfredo Oriani.

*Open to students who have completed course 101 or equivalent. Three hours a week for a year.*

Miss Borrani.

205. **Composition.**
A study of the most difficult parts of Italian grammar and syntax. Free composition with special attention to letter writing. The subject matter will deal chiefly with contemporary Italy.

*Open to students who have completed course 101 and are taking course 201 or 202. Two hours a week for the first semester.*

Miss Borrani.

206. **Conversation.**
Dealing especially with the various aspects of Italian contemporary life; to give to the student a larger vocabulary and correct pronunciation, ease and freedom of expression and clear phrasing.

*Open to students who have completed course 101 and are taking course 201 or 202. Two hours a week for the second semester.*

Miss Borrani.

301.| Dante and His Time. |
The study of the outstanding characteristics of the Middle Ages and of its writers. The reading of Dante’s *Divina Commedia* and *Vita Nuova* in the original and in full.

*Open on consultation with the instructor to juniors and seniors who have completed or are taking course 201 or 202. Three hours a week for a year.*

Miss Bosano.

**Note:**—The Dante Society offers an annual prize of one hundred dollars for the best essay on a subject drawn from the life or works of Dante. The competition is open to students or graduates of not more than three years’ standing from colleges or universities in the United States. For subjects and conditions consult page 320 of the Harvard University Catalogue, November 1935.

305.| Composition. |
A comparative study of Italian grammar with reference to Latin and to the Romance languages. A careful analysis of passages from masterpieces. Translation from English into Italian. Free composition with special attention to essays and literary criticism.

*Open to students who have completed courses 101, 201 or 202, and are taking course 301 or 307. Two hours a week for the second semester.*

Miss La Piana.

† It will be the privilege of students in courses 301, 305, 306, and 307 to have access to the manuscripts and early—often contemporary—editions of Italian authors contained in the Frances Pearsons Plimpton Collection.
306.† Conversation.

Italian civilization as seen in the development of art and philosophy; to give
to students a further training in diction and in expressing themselves freely on a
given subject.

Open to students who have completed courses 101, 201 or 202, and are taking
course 301 or 307. Two hours a week for the first semester. Miss La Piana.

307.† Drama and Short Stories in the Italian Renaissance.

Emphasis on the plays of Poliziano, Guarini, Machiavelli, Ariosto, Tasso,
Aretino, and Lasca, and on the short stories of Boccaccio and Bandello.

Open on consultation with the instructor to juniors and seniors who have com-
pleted or are taking course 301. Three hours a week for a year. Miss Bosano.

308. History and Epics in the Italian Renaissance. (Not offered in
1936-37.)

A detailed study of Machiavelli's and Guicciardini's works, considered as
literary masterpieces, and the poems of Pulci, Boiardo, Ariosto, and Tasso.

Open on consultation with the instructor to juniors and seniors who have com-
pleted or are taking course 301. Three hours a week for a year. Miss Bosano.

DIRECTIONS FOR ELECTION

A major in Italian is generally based on course 101. It is very desirable that
students majoring in Italian should have had or be taking a college course in
Latin or in one of the Romance languages, and should elect such courses in
History and Art as deal in whole or in part with Italian civilization and culture.
Such courses will be required of students working for honors.

Students taking a twelve-hour major should include courses 102, 201 or 202,

Students taking a fifteen-hour major should include courses 102, 201, 202, 301,

Note:—Course 101 may not count toward the major.

GENERAL EXAMINATION

The general examination for students taking a major in Italian will be based
largely on the work done in the courses of grade II and III, and will be of such a
character as to bring out the interrelation of these courses (of grade II and III),
bearing in mind that while some appear to be more closely articulated than others,
they all make their contribution to the cultural development of Italian life.
Some of the questions will have a direct bearing on the content of the courses,
while others will be of a more general character, and will best be answered by
opinions expressed and deductions drawn.

The results of the elementary work will appear in the degree of accuracy and
ease of expression shown in the written portion of the examination, but especially
in translating from English into Italian and vice versa.

The chairman of the department will be ready to answer any questions that
the above statement has not made clear.

† See footnote on page 119.
LATIN

Professor:  Anna Bertha Miller, Ph.D. (Chairman)
Associate Professor:  Helen Hull Law, Ph.D.
Assistant Professor:  Dorothy Mae Robathan, Ph.D.
Margaret Elizabeth Taylor, Ph.D.

The reading will be chosen from the following topics: studies in mythology from Ovid's Metamorphoses; legendary Rome in Livy's History, Bk. I; Cicero's philosophy in the De Senectute; lyric verse in the shorter poems of Catullus and the Odes and Epodes of Horace.

Open to students who have completed four entrance units of Latin, or course 103 or 106, and by special permission to those who have completed only three entrance units including one of Vergil. Three hours a week for a year.

Miss Taylor, Miss Robathan.

*103. Vergil's Aeneid.

The Roman Epic and its place in literature. Reading based chiefly on books I-VI, with selections from the later books.

Open to students who have completed only three entrance units of Latin, and to especially recommended students who have completed two units, or course 107. Three hours a week for a year.

Miss Taylor.

*104. Roman Life and Customs.

A study of Roman civilization through the medium of its social conditions, religious customs, education, amusements, buildings, etc. Lectures will be illustrated by lantern slides, photographs, coins, and other Roman antiquities. The required reading will be in English.

Open to all undergraduates. Three hours a week for the first semester.

Miss Miller.

*105. Latin Literature in English Translations.

The most important poets and prose writers will be read in translation, with emphasis upon those authors who have especially influenced modern forms of literature. Lectures on the development of Latin literature will include also the later writers of the empire who contributed largely to the thought of the Middle Ages.

Open to all undergraduates. Three hours a week for the second semester.

Miss Miller.

*106. Mediæval Latin.

Readings from Latin writers in the fields of literature, history, and philosophy of the Middle Ages. Selections include Cassiodorus, Gregory the Great, Bede, Geoffrey of Monmouth, John the Scot, Erasmus, Abelard, the chroniclers of the Crusades, the romancers of the Gesta Romanorum, religious drama, songs of the Goliards, and church hymns. Only so much attention will be given to linguistic study as the reading requires.

Open to students who have completed three entrance units of Latin, and to especially recommended students who have completed two units, or course 107. Three hours a week for a year.

Miss Miller.
122 Courses of Instruction

107. Beginning Latin. (Not offered in 1936-37.)
   The aim of the course is to acquire in one year sufficient knowledge of grammar and syntax to enable the student to read Latin authors. Reading will include simple Latin and selections from classical writers.
   Open to students who do not present Latin for admission. Three hours a week for a year.

   Selections from the Eclogues, Georgics, and Aeneid. Study of the poet’s early work in pastoral romance, and his later development through didactic epic, the Georgics, to the heroic epic of the Aeneid.
   Open to students who have completed course 101. Three hours a week for the first semester. Miss Taylor.

   Careful study of two plays followed by the rapid reading of others. The course includes a study of the sources of Latin comedy, its linguistic and literary features, and its influence upon later literature.
   Open to students who have completed course 101. Three hours a week for the first semester. Miss Taylor.

204. Tacitus and Pliny.
   The Agricola of Tacitus, with selections from the Histories; Pliny’s Letters. Reports on special topics concerned with the literary style and social background of these authors.
   Open to students who have completed course 101. Three hours a week for the second semester. Miss Robathan.

205. Cicero’s Philosophical Works.
   Selections from the Tusculan Disputations, the De Officiis and other works.
   Open to students who have completed course 101. Three hours a week for the second semester. Miss Taylor.

206. Latin Writing.
   Practice in turning connected English passages into Latin. Emphasis is placed upon accuracy of expression and correct idiom.
   Open to students who have completed course 101. One hour a week for a year. Miss Taylor.

213. Studies of Continuing Types in Greek, Latin, and English Literature. (Not offered in 1936-37.)
   For description and prerequisites, see English Literature 213.

   Some attention is paid to the origin and development of satire as a literary form. The chief emphasis is placed upon the satires of Horace and Juvenal, but the work of other Roman satirists is studied by special topics and reports. Sight reading in Martial.
Open to students who have completed a year of grade II. Three hours a week for the first semester.

303. Latin Epigraphy. (Not given in 1936-37.)
Selected inscriptions will be studied both for their form and for their content as sources for the study of Roman public and private life.
Open to students who have completed a year of grade II. Three hours a week for the first semester.

304. Topography of Rome.
A study is made of the early history of the city, its development, the construction and furnishings of typical public and private buildings in Rome and in provincial towns. Such study of the material surroundings is connected with the literary and social development of the Roman people, and is introductory to further work in classical archaeology.
Open to students who have completed a year of grade II. Three hours a week for the second semester.

306. Studies in Roman Religion.
The subject of the course is primarily the changing religious experience of the Roman Republican period, but in special topics the study of the influence of Oriental cults is included. Readings from the sources, especially from Livy, Cicero, and Ovid, with class discussions and lectures.
Open to students who have completed a year of grade II. Three hours a week for the second semester.

307. Prose Literature of the Later Empire.
The Latin novel; its origin and development: Petronius, Apuleius. The Christian apology: Minucius Felix, Tertullian; a study of the conflict of pagan and Christian thought. The course may be given in one weekly appointment.
Open to students who have completed a year of grade II. Three hours a week for the second semester.

308. Latin Writing. Advanced Course. (Not given in 1936-37.)
Open at the discretion of the instructor to students who have completed course 206. One hour a week for a year.

309. Prose Literature of the Early Empire.
History: Livy, Tacitus, Suetonius, Velleius Paterculus. Philosophy: Seneca. Reading based on choice of topics. The course may be given in one weekly appointment.
Open to students who have completed a year of grade II. Three hours a week for the first semester.

310. Poetry of the Republic.
Some study is given to the beginning of Latin poetry and the earlier poets, but the main emphasis is placed upon the poets of the Ciceronian Age, Catullus and Lucretius.
Open to students who have completed a year of grade II. Three hours a week for the first semester.  

Miss Miller.

312. Poetry of the Empire.

The aim of this course is to secure an acquaintance with representative poets of the period, and to show the interest and the value of the later Latin poetry. Rapid reading without translation is one of the features of this course.

Open to students who have completed a year of grade II. Three hours a week for the second semester.

Miss Robathan.

321. History of Latin Literature. (Not given in 1936–37.)

The design of this course is to enable a graduate student to study the authors and periods and forms of literature which were not included in her undergraduate work, and thus to complete the work done in individual courses by a comprehensive view of Latin literature as a whole and its place in world literature. The course demands much independent work and is intended to meet individual needs.

Open to graduate students only. One to three hours a week for a year.

The Teaching Staff.

DIRECTIONS FOR ELECTION

A major in Latin is based on course 101. Any other grade I course may be counted in a fifteen-hour major except course 107. Course 213 may not be counted toward a major in Latin. Students intending to major in Latin are advised to take at least one course in Greek, and a course in Roman History. Art 320 and 321 may be counted toward a fifteen-hour major in Latin by students who are at the same time taking a course of grade III in Latin. No students are recommended as teachers of Latin who have not had at least one full course of grade III and course 206.

GENERAL EXAMINATION

Every student who presents herself for the general examination in Latin shall be required to show:

(1) Her ability to use the language by translation at sight of passages in prose and verse.

(2) A general knowledge of the history of Latin literature from its beginnings through the reign of Trajan, and of as much of the historical and social background as is necessary for understanding the literature.

(3) Familiarity with the specific fields of literature which have been covered in the courses elected by the individual student.

MATHEMATICS

Professor: MABEL MINERVA YOUNG, PH.D. (Chairman)

Associate Professor: LENNIE PROEBE COPELAND, PH.D.

Assistant Professor: MARION ELIZABETH STARK, PH.D.

Helen Gertrude Russell, PH.D.

Course 106 is for students who have not had a course in trigonometry, 107 is for those who have spent a half-year in studying this subject.

Students should consult the announcements of the departments of Astronomy and Physics for courses to which mathematics is prerequisite.

Algebraic trigonometry and the solution of oblique triangles. An introduction to the theory of limits and derivatives. The study of a polynomial in one variable—its roots, maximum and minimum values, and its graph. Determinants. Analytic geometry of the straight line and conic sections, polar coordinates, translation of axes. This course aims to give students some acquaintance with advanced methods as well as advanced subjects. Earlier work in algebra is extended, algebra is applied to geometry, and new methods are given for the study of the graph of a function.

Open to students who present three units in mathematics for admission. Three hours a week for a year.

Miss Young, Miss Copeland, Miss Stark.

*107. Introduction to Calculus, Analytic Geometry.

This course is similar to 106, except that it assumes an acquaintance with trigonometry. This makes it possible to carry farther the work in analytic geometry.

Open to students who present four units in mathematics for admission, or have had a course in trigonometry equivalent to that outlined by the College Entrance Examination Board. Three hours a week for a year.

Miss Russell.

A study of derivatives and rates of change, with applications to the conic sections and curves of higher order, and to series; integration as the inverse of differentiation and as a process of summation, with some work on the lengths of curves, on areas and on volumes.

Open to students who have completed course 106 or 107. Three hours a week for a year.

Miss Copeland, Miss Stark, Miss Russell.

The evolution of the fundamental concepts of mathematics. Great mathematicians and their chief contributions to elementary mathematics. A brief survey of modern developments in mathematics and its literature. A standard text is used, supplemented by lectures and short reports chiefly based upon rare old books in the mathematical library.

Open to juniors and seniors who have completed or are taking course 202. Three hours a week for the second semester.

Miss Copeland

204. Introduction to the Theory of Statistics.

Statistical methods, with special emphasis on the use of elementary mathematics in the development of theory and in practice.

Open to students who have completed course 106 or 107. One period of lecture with the equivalent of one laboratory period a week, counting one hour a week for a year. This course counts toward the degree, but not toward a major in the department.

Miss Young.
206. **Descriptive Geometry I.** (Not offered in 1936-37.)

The theory and practice of the representation of geometric figures. The use of two or more planes of projection in representing lines, surfaces, and solids. Intersections and shadows.

*Open to students who have completed or are taking course 202, and, by special permission, to a limited number who have completed course 106 or 107. All must have a knowledge of the elements of solid geometry. The department will give directions for gaining readily the necessary acquaintance with this subject. One period of lecture with one period of laboratory a week, counting one hour a week for a year.*

Miss Stark.

208. **Descriptive Geometry II.**

Special methods for the construction of curves and solids. Intersections of curved surfaces. Different types of perspective.

*Open to students who have completed course 206. One period of lecture with the equivalent of one laboratory period a week, counting one hour a week for a year.*

Miss Stark.

302. **Higher Analysis.**

The number system of algebra; continuity and other properties of functions; convergence of series; representation of functions by power series; theory of integration. Infinite products, infinite integrals, Fourier series, and other allied subjects.

*Open to students who have completed course 202. Three hours a week for a year.*

Miss Stark.

303.† **Differential Equations.**

An introductory course in ordinary and partial differential equations.

*Open to students who have completed course 202. Three hours a week for the first semester.*

Miss Copeland.

304. **Introduction to Modern Algebraic Theory.**

Determinants, matrices, systems of linear equations, symmetric functions, eliminants, resultants, discriminants, invariants and covariants, quadratic forms.

*Open to students who have completed course 202. Three hours a week for the second semester.*

Miss Russell.

305. **Introduction to Differential Geometry.**

Calculus applied to geometry of two and three dimensions, including a study of twisted curves.

*Open to students who have completed course 202. Three hours a week for the first semester.*

Miss Russell.

306. **Modern Synthetic Geometry.**

Fundamental concepts underlying modern geometry; harmonic forms; projective and metrical properties of forms of first and second orders in plane and in sheaf; ruled surfaces of second order; inversion.

*Open to students who have completed course 202. Three hours a week for a year.*

Miss Young.

† Physics 305, if preceded by Mathematics 303, may be counted toward a major in mathematics.
307. **Advanced Geometry.**

An introduction to the study of plane curves. Both algebraic and synthetic methods will be used. The theory of the conic will be extended, and curves of the third order studied. Lectures, reading, and discussion.

*Open to students who have completed course 306, and have completed or are taking three additional hours of grade III. Three hours a week for a year.* Miss Young.

308. **Functions of a Complex Variable.**

Elementary treatment of analytic functions. Infinite series and products, with applications to elliptic functions.

*Open to students who have completed course 302. Three hours a week for a year.* Miss Copeland.

**DIRECTIONS FOR ELECTION**

For a major or minor or for honors in mathematics course 202 is required as a basis.

A major must include at least six hours of grade III.

The ability to read French, German, or Italian is required in all grade III courses. A reading knowledge of more than one of these languages is desirable.

Only those students who have completed satisfactorily at least three hours of grade III in the department will be recommended as teachers of mathematics.

**SPECIAL COURSE**

Not counted in the major: Course 204.

**GENERAL EXAMINATION**

Modern mathematics is a many sided subject, including fields widely diverse in nature. Work in each of these fields, however, requires as a basis an understanding of the fundamental principles and methods of analytic geometry and the differential and integral calculus. This implies skill in the use of elementary algebra, geometry, and trigonometry as tools. Each student majoring in mathematics is therefore expected to spend two years in gaining acquaintance with the elements of these essential subjects. On this foundation rests more advanced work of three types: analysis, geometry, and applied mathematics. The work offered by the department in these fields is as follows:

- **Analysis:** Courses 302, 303, 304, 308.
- **Applied Mathematics:** Courses 206, 208, 303, Physics 305, Astronomy 302 or 303.

Course 203, History of Mathematics, is supplementary to all these fields.

The general examination will include some questions on the fundamental subjects and some on the more advanced subjects, with special emphasis on the interrelations between the courses.
Courses of Instruction

MUSIC

Professor: Howard Hinners, B.A. (Chairman)
Assistant Professors: Helen Joy Sleeper, M.A., Mus.B.
Edward Barry Greene, B.A.
Director of Choir
Instructor: Hubert Weldon Lamb, B.A.
Assistants: Barbara Goldsmith Trask, M.A.
Malcolm Haughton Holmes, B.S.

(For list of Instructors in Practical Music, see page 130)

I. MUSICAL THEORY

The courses in theory and history are open to all students without regard to previous musical knowledge, and count toward the B.A. degree. The history and theory courses are subject to no separate tuition fee. Courses 206, 208, 305, 309, 314, 317, and 318 are designed especially for those students who desire to gain an appreciative knowledge of musical literature.

A limited number of tickets for reserved seats at the concerts of the Boston Symphony Orchestra in Symphony Hall, Boston, are free to students who are able to use them profitably.

*101. ELEMENTS OF MUSIC.

Rudiments, major, minor and ecclesiastical modes, modality and tonality, intervals, chord construction, analysis of the mechanism of modulation. Aural drill in the identification of the roots of triads and dominant seventh chords and their inversions. Intensive work in ear-training and sight-singing, designed to develop a keen ear for intervals, rhythmic patterns and tonal relations.

Open to students who do not offer harmony for admission. This course or course 102 or, by special permission, course 201 or 203 or 208 is required of all freshmen who elect practical music. Not to be counted toward a major. Four periods a week, one of lecture and three of dictation, counting three hours a week for a year.

Miss Sleeper, Mr. Greene.

*102. INTRODUCTION TO THE HISTORY OF MUSIC.

An analytical study, for students without previous training, of the essentials of musical expression and the principles of harmonic design as exemplified in the music of the eighteenth and nineteenth centuries. Intended for those who do not expect to major in music.

Open to students who do not offer harmony for admission. This course may be taken to fulfill the theory requirement for practical music. Not to be counted toward a major. Students taking this course may not also elect either course 101 or 206. Three hours a week for a year.

Miss Trask.

*201. HARMONY.

Major and minor triads and their inversions, elementary modulation, suspensions and other non-harmonic tones. Harmonization—both written and at the keyboard—of simple melodies and basses, figured and unfigured. Dictation and analysis.

Open to students offering harmony for admission and to those who have completed course 101, or who can satisfy the instructor, by a special test in ear-training, of their ability to take the course. All candidates for the course must have an elementary knowledge of piano or organ playing sufficient to enable them to play simple hymn-tunes at sight. Three hours a week for a year.

Mr. Hinners.
203. Elementary Counterpoint.

Strict counterpoint and canon. Composition in two and three voices in the styles of the sixteenth and seventeenth centuries. Analysis.

Open to students offering harmony for admission and to those who have completed course 101, or who can satisfy the instructor, by a special test in ear-training, of their ability to take the course. Three hours a week for a year. Mr. Lamb.

205. Sound (Physics 205). See Department of Physics. (Not offered in 1936–37.)

206. Introduction to Musical Literature.

An historical survey course designed to develop the student's musical understanding, insight, and powers of observation through the study of music of various styles and periods. No previous knowledge of music is required.

Open only to juniors and seniors who have had no other course in the department. Not to be counted toward a major. Three hours of lecture and one section meeting a week, counting three hours a week for a year. Mr. Greene, Mr. Holmes.

208. Music of the Eighteenth and Nineteenth Centuries.

A survey course presenting the characteristic features of various styles as represented in the works of leading composers from Bach to Debussy. An attempt will be made to show relationships between the musical developments and contemporary social and cultural aspects of the two centuries.

Open to students offering harmony for admission and to those who have completed course 101 or 102. Three hours a week for a year. Miss Sleeper.

303. Advanced Counterpoint and Composition.

Counterpoint in four and five voices. Double counterpoint. Introduction to the fugue. Composition in the simpler contrapuntal forms of Bach and his contemporaries.

Open to graduate students and to approved undergraduates who have completed courses 203 and 310 and, by special permission, to students who are taking 310. Three hours a week for a year. Mr. Lamb.

305. Medieval and Renaissance Music.

Gregorian chant and early polyphony. The rise of the sixteenth century style to its culmination in the works of Palestrina and Lassus.

Open to juniors and seniors who have completed course 201 or 203 or 207 or 208. Three hours a week for the first semester. Mr. Lamb.

309. The Instrumental Music of J. S. Bach.

Seventeenth century continental forms and their relation to the style of Bach. Analytical study of representative solo, chamber, and orchestral compositions.

Open to juniors and seniors who have completed course 201 or 203 or 207 or 208. Three hours a week for the second semester. Mr. Lamb.

310. Advanced Harmony.

Dominant and secondary seventh and ninth chords, altered chords and modulation to remote keys. Harmonization of more extended melodies and basses,
involving some of the elementary principles of musical composition. Advanced
dictation, keyboard work, and analysis.

Open to juniors and seniors who have completed course 201. Three hours a week
for a year.

Mr. Hinners.

Rise of the opera, cantata, and oratorio. The evolution of dramatic style in
secular and sacred music from the opening of the seventeenth century to the
death of Mozart.

Open to juniors and seniors who have completed course 201 or 203 or 207 or 208.

Three hours a week for a year.

Mr. Hinners.

315. Instrumentation. (Not offered in 1936–37.)
The technique, timbres and ensemble of the instruments of the modern or-
chestra. Drill in transposition by clef and practice in simple score-reading.
Elementary orchestration. The mechanism and scope of the various instru-
ments will be illustrated by members of the Boston Symphony Orchestra.

Open to graduates and to approved juniors and seniors who have completed courses
201, 203, and 310; and by special permission to students who have completed course
201, and 203 or 310, and are taking 310 or 203. Three hours a week for a year.

Mr. Hinners.

For 1936–37 the subject will be: the development of the classical symphonic
style from the Viennese and Mannheim schools through Mozart. Analysis of
scores.

Open to juniors and seniors who have completed course 201 or 203 or 207 or 208.

Three hours a week for the first semester.

Mr. Lamb.

318. Seminar: Beethoven and his Contemporaries.
For 1936–37 the subject will be: the chamber music of Beethoven, Weber, and
Schubert. An examination of the early nineteenth century style as seen in the
quintet, the quartet, and the accompanied and solo sonata.

Open to juniors and seniors who have completed course 201 or 203 or 207 or 208.

Three hours a week for the second semester.

Mr. Lamb.

350. Research or Individual Study.
On consultation with the department, graduate students may arrange for
directed study in theory, composition, or the history of music.

Three hours a week for a semester or for a year.

II. Practical Music (Instrumental and Vocal Lessons)

Instructors in Practical Music: Gladys Avery Lebert (Voice)
Yves Chardon (Violoncello)
Richard Burgin (Violin)
David Barnett, B.A. (Piano)
Carl Weinrich, B.A. (Organ)
Malcolm Haughton Holmes, B.S. (Conductor of
Orchestra and Director of Chamber Music)

Attention is called to the fact that a student need not necessarily spend five years in college in
order to carry on practical music at the same time with the academic course. See (a) following.

Freshmen may not elect instrumental or vocal music without course 101 or course 102 or,
by special permission, course 201 or 203 or 208. There is an extra charge for instrumental
or vocal music, and work in this field is not credited toward the B.A. degree.
Practical music, subject to the restrictions above and under paragraph (a) below, is an elective, and students should notify the department of their election of the subject in the usual manner and at the proper time. It is offered to all students, whether candidates for degrees or not, as stated below:

(a) Candidates for the B.A. degree who propose to spend but four years in college may take practical music, provided that they obtain each year the permission of their Dean as well as of the chairman of the department; they must also take a full course in Musical Theory, unless they have completed two three-hour courses in the subject.

(b) Candidates for the B.A. degree who are willing to devote five years to the college course will be permitted to take practical music each year of the course, governed by the restriction laid down in (a).

(c) Candidates for the B.A. degree who wish also the Certificate of the Department of Music should plan to devote five years to the college course. Such students are required to take practical music, two lessons a week, throughout the five years. They must complete, satisfactorily to the department, a course in the literature of the instrument chosen or of the voice; they must apply for the certificate at least three years in advance. The study of Musical Theory is required throughout the course.

(d) Students not candidates for the B.A. degree who desire to specialize in music must meet the requirements prescribed for admission to the freshman class, and must in addition pass an entrance examination in Harmony. Special students must take both Musical Theory and vocal or instrumental lessons, two a week, with not less than twelve hours of weekly practice. They must also take from six to nine hours per week of academic work, including Musical Theory, as may be decided in consultation with the Dean.

(e) Students not candidates for the B.A. degree who wish the Certificate of the Department of Music must comply with the conditions laid down in (d); moreover, the academic work taken must include modern languages. Such students must apply for the certificate on entering the department, and must have already acquired the fundamental technique of the instrument chosen or of the voice. The time occupied in study for the certificate depends upon the talent, upon the proficiency of the student at entrance, and upon her subsequent diligence; but in general four years at least are necessary. The various courses are so arranged that the pupil on completion will have an acquaintance with the best musical literature.

(f) Graduates of Wellesley College or of other institutions may make special arrangement for instrumental or vocal lessons.

(g) Permission to practice in Music Hall cannot be given to students not regularly registered in the department.

(h) Students whose progress is not satisfactory may be required to discontinue their lessons.

DIRECTIONS FOR ELECTION

For a twelve-hour major, the following courses are required: 201, 203, 208, 310. For a fifteen-hour major, the following courses are required: 201, 203, 208, 310, and any grade III history course.

Course 101, which does not count toward a major, is a prerequisite to either of the above sequences.
The new requirements for the major, as stated above, apply only to the class of 1939 and thereafter.

Suggested correlative subjects for students majoring in music:
European History, Literature, Art, Physics 205.
A reading knowledge of German, French, Italian, and Latin is important for advanced work.

GENERAL EXAMINATION

The general examination will be a test of the student's knowledge of (1) musical theory (harmony, counterpoint, and composition); and (2) music history and appreciation, including familiarity with outstanding examples of the work of leading composers studied in each course.

Required questions will deal with courses taken by all the major students. Questions on other courses will be wholly or partly optional.

PHILOSOPHY AND PSYCHOLOGY

Professors: THOMAS HAYES PROCTOR, PH.D.
EDNA FRANCES HEIDBRIDER, PH.D. (Chairman)

Associate Professors: MICHAEL JACOB ZIGLER, PH.D.
MARY LOWELL COOLIDGE, PH.D.

Assistant Professor: EDITH BRANDT MALLORY, PH.D.

Instructor: VIRGINIA ONDERDONK, B.A.

Assistants: GRACE ALLERTON ANDREWS, M.A.
THELMA GORSFINKLE ALPER, M.A.
LOUISE WARD GATES, M.A.
ALFRED HAROLD HOLWAY, PH.D.
HARRIET FAUST METZGER, B.A.

I. PSYCHOLOGY

*101. Introductory Course in Psychology.

This course is designed to secure to students a comprehensive survey of the field of general psychology, to provide a psychological basis for their study of philosophy, of sociology, and of education and to fit them for more advanced psychological work. Texts: Woodworth, Psychology; Warren and Carmichael, Elements of Human Psychology; Gault and Howard, An Outline of General Psychology; Murphy, General Psychology; Garrett, Great Experiments in Psychology.

Open to sophomores, juniors, and seniors and, by special permission, to approved freshmen. Three hours a week for a semester. Offered in both semesters.

Lecturers: Miss Heidbreder, Mrs. Mallory, Mr. Zigler.
Conference Instructors: Mrs. Alper, Miss Gates, Mr. Holway.

204. History and Method of Psychological Experimentation.

This course aims to trace the historical development of the principal movements in experimental psychology and to indicate the steps in refinement of method and technique which have attended advance in these movements. Reference texts include Boring, A History of Experimental Psychology, and Murphy, Historical Introduction to Modern Psychology.

Open to students who have completed course 101. Three hours a week for the first semester.

Mr. Zigler.
207. Genetic Psychology.
This course presents the characteristic changes in conscious attitude and in behavior tendencies which take place in normal individual development. Attention is given both to the instinctive or unlearned traits and to the differentiating effects of environment and training. The material is primarily that of child psychology, but is supplemented by data drawn from the study of animals and of primitive peoples. The texts include Goodenough, Developmental Psychology, and Johnson, Child Psychology.

Open to seniors, juniors, and by permission to sophomores, who have completed course 101. Three hours a week for the second semester. Mrs. Mallory.

209. Experimental Psychology, Laboratory Course.
Every student is expected to perform one or two typical experiments in each of the main fields of psychological investigation. The laboratory work is supplemented by occasional lectures. This course is designed to train the student in psychological method.

Open to students who have completed course 101. Six periods a week of laboratory work, counting three hours a week for a semester. Offered in both semesters.

Mr. Zigler, Mrs. Mallory, Mrs. Alper, Miss Gates, Miss Metzger.

210. Experimental Problems in Psychology.
This course comprises investigation of special problems by individual students. In 1936-37 problems may be chosen in the following subjects: visual, auditory, tactual and olfactory sensation, higher mental processes, and attitudes. The methods employed are wider than the problems and are adapted to training students in the fundamental demands of research.

Limited in number and open to students who have shown in course 209 an aptitude for laboratory work. Six periods of laboratory a week, including one or two with instructor, counting three hours a week for a semester. Offered in both semesters.

Miss Heidbreder, Mr. Zigler, Mrs. Mallory.

The purpose of this course is to familiarize students with recent work on selected topics such as intelligence, motivation, personality, animal behavior, and applied psychology.

Open to students who have completed course 101. Three hours a week for the second semester.

Mrs. Mallory.

303. Advanced Course in Experimental Problems in Psychology.
This is an experimental-project course. It resembles course 210 except that greater mastery of laboratory technique is required.

Open to students who have completed course 210. Six periods of laboratory a week, including one or two with instructor, counting three hours a week for the first semester.

Miss Heidbreder, Mr. Zigler, Mrs. Mallory.

308. Advanced Course in Experimental Problems in Psychology.
This is also an experimental-project course. It may be taken either as a continuation of course 303 or as a substitute for it.
Courses of Instruction

Open to students who have completed course 210. Six periods of laboratory a week, including one or two with instructor, counting three hours a week for the second semester.

Miss Heidbreder, Mr. Zigler, Mrs. Mallory.

309. Abnormal Psychology.

This course presents the facts of abnormal psychology in such a way as to throw light on the psychology of normal people. It deals with such topics as the symptoms of abnormality and their significance, various neuroses and psychoses, and the principal theories and interpretations of abnormal behavior. Reference books include: Bleuler, Manual of Psychiatry; Rosanoff, Manual of Psychiatry; Conklin, Abnormal Psychology; Dorcus and Shaffer, Abnormal Psychology.

Open to juniors and seniors who have completed course 101 and have completed, or are taking, at least two semester courses chosen from the following: courses 204, 207, 209, 210, 313 and 310 in Psychology; course 303 and the second semester of course 202 in Sociology; course 306 in Zoology; and the second semester of course 201 in Education. Three hours a week for the first semester. Miss Heidbreder.

310. Social Psychology.

This course deals with current problems in social psychology, such as the interaction of personalities in social groups, attitudes, custom, propaganda and racial and national antipathies. Reference books will include: Dunlap, Civilized Life; Murphy, Experimental Social Psychology; Murchison, Handbook of Social Psychology.

Open to juniors and seniors who have completed course 101 and have completed, or are taking, at least two semester courses chosen from the following: courses 204, 207, 209, 210, 313 and 309 in Psychology; course 303 and the second semester of course 202 in Sociology; and the second semester of the course in Group Leadership or of course 201 in Education. Three hours a week for the second semester. Miss Heidbreder.

313. Differential Psychology.

This course treats of the differences which exist between one human being and another in respect to mental traits and capacities. It offers a survey of the methods by which psychologists have tried to determine and define such differences and also includes a study of the test movement. Opportunities are offered for students to acquaint themselves with representative tests, and to gain some practice in giving and scoring them. The reference works include Freeman, Mental Tests; Terman, The Measurement of Intelligence; Garrett and Schneck, Psychological Tests, Methods, and Results.

Open to juniors and seniors who have completed course 101 and have completed or are taking at least two semester courses chosen from the following: courses 204, 207, 209, 210, 309 and 310 in Psychology; course 306 in Zoology; course 320 and the second semester of course 201 in Education. Three hours a week for the first semester. Mrs. Mallory.

Studies of representative contributions to psychological theory.

Open to graduate students, to seniors who are taking twelve hours in Psychology,
and to approved seniors who are taking nine hours. Three hours a week for the second semester. Miss Heidbreder, Mr. Zigler, Mrs. Mallory.

326. Seminar. Special Topics Studied from Sources. (Not given in 1936-37.)

This course is designed to train students especially interested in psychology to trace the development of special problems through the psychological literature. Experimental contributions bearing upon a topic will be analyzed and discussed.

Open to graduate students, to seniors who are taking twelve hours in Psychology, and to approved seniors who are taking nine hours. Three hours a week for the first semester. Miss Heidbreder, Mr. Zigler, Mrs. Mallory.

350. Research or Individual Study.

Open only to graduate students by special permission. Three hours a week for a year.

II. PHILOSOPHY

*102. Introduction to Philosophy.

The aim of this course is to stimulate philosophical thinking, to give the student some acquaintance with metaphysical problems and some training in method. The discussion will be based on contemporary texts, supplemented by reference to classical authors.

Open to sophomores, juniors, and seniors and, by special permission, to approved freshmen. Three hours a week for a semester. Offered in both semesters.

Mr. Procter, Miss Coolidge, Miss Onderdonk.

*107. Introduction to Philosophy Through Greek Thought.

A year course based on the material presented by the Greek thinkers. After a discussion of the various Pre-Socratic schools, special attention is given to Plato’s Apology, Crito, Phaedo and Republic and to Aristotle’s Ethics and to parts of the Metaphysics. Texts: Bakewell, Source Book in Greek Philosophy; Plato, Selections (Demos); Plato, The Republic; Aristotle, Selections (Ross). Supplementary reading.

Open to sophomores, juniors, and seniors and, by permission, to approved freshmen. Three hours a week for a year.

Mr. Procter.

*108. Logic.

Training in argument and in logical criticism through the examination of fallacious reasoning compared with valid arguments. The emphasis of the course is on deductive logic, supplemented by some study of the principles of inductive logic and scientific methodology. The course is designed to meet the practical needs of the student.

Open to sophomores, juniors, and seniors and, by permission, to approved freshmen. One hour a week for a year.

Miss Onderdonk.

203. Aesthetics.

A study of philosophical problems concerning the nature of beauty, of artistic creation, and of standards in criticism. Some attention will be given to the relation of aesthetic to other values. The reading will be partly of the writings of such classical philosophers as Plato and Schopenhauer, and partly of those of such contemporary writers as Croce and Santayana.
Courses of Instruction

Open to sophomores who have completed a course in Philosophy, and to juniors and seniors without prerequisite. Three hours a week for the first semester. Miss Coolidge.

205. Ethics. (Not offered in 1936-37.) Study and criticism of representative ethical theories. The course will not be an historical one, but it will include discussion of the writings of such older moralists as Plato and Kant as well as those of later or contemporary philosophers, such as Schopenhauer and Nietzsche, Dewey and Bergson.

Open to sophomores who have completed a course in Philosophy, and to juniors and seniors without prerequisite. Three hours a week for the first semester. Miss Coolidge.

211. Introduction to Philosophy Through the Problems of Religion. A brief historical and psychological study of the religious consciousness leading to a discussion of the nature and validity of religious experience in contrast with other types of experience and of the philosophical problems involved in this contrast. Reference texts include Moore, The Birth and Growth of Religion; James, Varieties of Religious Experience; Russell, A Free Man's Worship; Whitehead, Religion in the Making and Science and the Modern World.

Open to sophomores who have completed a course in Philosophy, and to juniors and seniors without prerequisite. Three hours a week for the first semester. Mr. Procter.

Open to sophomores who have completed a course in Philosophy, and to juniors and seniors without prerequisite. Open also, by special arrangement, to graduate students. Three hours a week for a year. Miss Onderdonk.

306. Advanced Logic. (Not offered in 1936-37.) A study of modern developments of logic including a discussion of the nature of a deductive system, the logic of classes, the calculus of propositions, and the logic of propositional functions.

Open to juniors and seniors who have completed or are taking a grade II course in Mathematics or Philosophy. Three hours a week for the first semester. Miss Onderdonk.

307. The History of Greek Philosophy. An advanced study of Greek Philosophy, offering more extended and more detailed readings in Plato (with emphasis on the later dialogues) and also in Aristotle, the Stoics, Epicureans, and Neo-Platonists. In addition to the texts of the Greek philosophers, use is made of Robin's Greek Thought.

Open to juniors and seniors who have completed four and one-half hours in the department, of which three must be in Philosophy, and, by special permission, to
other seniors majoring in related departments. Open also to approved graduate students. Not open to students who have taken course 107. Three hours a week for a year. 

Mr. Procter.

The course will consist of papers and discussions based on representative readings from the writings of Bradley, Royce, Bergson, and Whitehead. This course may be given in extra schedule hours.

Open to juniors and seniors who have completed course 214 or four and one-half hours in Philosophy including a course in Greek Philosophy, and to graduate students. Three hours a week for the second semester. 

Mr. Procter.

325. Study of Naturalism, Pragmatism, and Realism in the Last Half Century.
Study of representative writings of such philosophers as James, Dewey, Russell, Alexander, Santayana, etc.

Open to juniors and seniors who have completed course 214 or four and one-half hours in Philosophy including a course in Greek Philosophy, and to graduate students. Three hours a week for the first semester. 

Miss Coolidge.

350. Research or Individual Study.
Open only to graduate students by special permission. Three hours a week for a year.

HONORS
The department will advise candidates for honors in regard to their field of special study and will direct their work. Students are urged to consult the department before making their plans.

INDIVIDUAL WORK
The attention of students is called to courses 210, 303, 308, and 350.

DIRECTIONS FOR ELECTION
I. Major in Psychology
A twelve or fifteen hour major in Psychology must include courses 209 and 324 and one semester of grade I work in Philosophy. Courses supplementary to a Psychology major include courses in Philosophy, Education, Statistics, Sociology, Physics, Physiology and Zoology.

The attention of students interested in social psychology is called especially to the course in Group Leadership.

II. Major in Philosophy
A twelve or fifteen hour major in Philosophy must include courses 101, 214, and either 107 or 307. As courses supplementary to a Philosophy major may be suggested certain courses in Psychology, Mathematics, Natural Science, History, Political Science and Sociology, and in English, German, French, Latin and Greek literature.

GENERAL EXAMINATION
Students who plan to take the general examination in Philosophy or in Psychology are expected to consult the department. Advice in regard to preparation will be given gladly.
GRADUATE WORK

The department offers to graduate students direction in independent work both in Philosophy and in Psychology, and conducts graduate conferences with individual students at stated times.

PHYSICS

*101. Elementary Physics.

This course is for beginners, and presents briefly the elementary principles of mechanics, sound, heat, electricity, and light, and their applications. The lectures are fully illustrated by experiments.

*104. Elementary Physics.

This course is for beginners. The same topics are considered as in course 101, but somewhat greater emphasis is placed upon the mathematical development of the subject. The lectures are fully illustrated by experiments.

*102. General Physics: Mechanics, Electricity, and Light.

This course is intended for students who already have an elementary knowledge of physics; it gives a rapid survey of the fundamental principles in mechanics, magnetism and electricity, wave motion and light. The lectures are fully illustrated by experiments.

*203. Meteorology.

The study of the phenomena of the weather with special attention to the application of the principles of heat. Topics include temperature, air pressure, winds, clouds, precipitation, progress of storms, cold waves; the principles of weather prediction; atmospheric optical phenomena.

OPEN TO STUDENTS WHO DO NOT PRESENT PHYSICS FOR ADMISSION. THREE PERIODS OF LECTURE AND DISCUSSION WITH ONE THREE-PERIOD LABORATORY APPOINTMENT A WEEK, COUNTING THREE HOURS A WEEK FOR A YEAR.

MISS McDOWELL, MISS WILSON, MISS ARMSTRONG, MISS HEYWORTH, MISS GOERNER, MISS HUDSON.
Physics for admission. Three periods of lecture and discussion with one three-period laboratory appointment a week, counting three hours a week for the second semester. 

Miss Wilson, Miss Goerner.

207. Electricity.

Direct and alternating current phenomena: the effect of resistance, capacity, and inductance in direct and alternating current circuits; the study of generators, motors, and transformers.

Open to students who have completed course 101 or 104 or 102, and to those who are exempt by examination from course 102. Three periods of lecture and discussion, with one three-period laboratory appointment a week, counting three hours a week for the first semester. 

Miss Heyworth.

208. Atomic Physics.

The course gives a brief introduction to the kinetic theory of gases, to theories of the nature of radiant energy and of the structure of the atom; and considers in some detail the evidence offered by the phenomena of cathode rays, x-rays, positive rays, radioactivity, isotopes, photoelectricity, ionization, and optical spectra. The treatment is non-mathematical.

Open to students who have completed course 207 (201 for 1936–37) and by special permission to sophomores, juniors, and seniors who have completed course 101 or 104 or 102. Three hours a week for the second semester. 

Miss McDowell.

*205.† Sound. (Not offered in 1936–37.)

A preliminary study of vibrations and wave motion, including reflection, refraction, interference, and the principle of resonance. Properties of musical notes: intensity, pitch, and quality; scales and tonal combinations; types of sounding bodies; musical instruments; architectural acoustics; reception of sound by the ear; reproduction by telephone, phonograph, and radio.

Open to students who have completed course 102, and to sophomores, juniors, and seniors who have completed or are taking course 101 or 104 or who present one unit in Physics for admission. Three periods of lecture and discussion, with one two-period laboratory appointment a week, counting three hours a week for the second semester.

204. The Automobile: Principles and Construction.

The internal combustion engine; carburetors; systems of ignition, starting and lighting, and transmission. Lectures with demonstrations to illustrate the physical principles involved. Individual laboratory study of various automobile mechanisms.

Open by permission to sophomores, juniors, and seniors who have completed course 101 or 104 or 102 or who present one unit in Physics for admission. One period of lecture or one three-period laboratory appointment a week, counting one hour a week for a year. 

Miss Wilson.

301.‡ Light.

The wave theory and its application to the phenomena of dispersion, interference, diffraction, double refraction, and polarization; theory and use of optical instruments; brief discussion of the quantum theory.

† Offered in cooperation with the Department of Music.
‡ Astronomy 301, to which Physics 301 is prerequisite, may be counted toward a major in Physics.
Courses of Instruction

Open to juniors and seniors who have completed a course of grade II in Physics, or a year course of grade I in Physics and a year course of grade I in Astronomy. Three periods of lecture and discussion with one three-period laboratory appointment a week, counting three hours a week for the first semester.

Miss Wilson, Miss Goerner.

302. Electromagnetic Oscillations and the Principles of Radio Communication. (Not given in 1936-37.)

The production and detection of electromagnetic oscillations; the effect of resistance, inductance and capacity; resonance, damping, coupled circuits; electron tubes and their application to the transmission, reception and amplification of electromagnetic waves. Experimental lectures with individual laboratory study.

Open to juniors and seniors who have completed course 207 in Physics (206 for 1936-37) and course 202 in Mathematics. Three periods of lecture and discussion, with one three-period laboratory appointment a week, counting three hours a week for the first semester.

Miss McDowell.

304.† Theoretical Electricity and Magnetism.

The work is based upon Starling’s Electricity and Magnetism and free use is made of the calculus.

Open to juniors and seniors who have completed course 207 (201 for 1936-37) and also course 202 in Mathematics. Three hours a week for the first semester.

Miss Heyworth.

305.† Mechanics.

Equations of motion; simple harmonic motion; central orbits; statics of rigid bodies; work, energy; dynamics of a particle; motion of rigid bodies. Emphasis is placed on the application of mathematics, especially plane analytic geometry and the calculus, to physics; use will be made of differential equations.

Open to students who have completed course 101 or 104 or 102 in Physics and course 202 in Mathematics. When combined with course 303 in Mathematics it may be counted toward a major in Mathematics. Three hours a week for the second semester.

Miss Heyworth.

309. Experimental Atomic Physics.

Individual experiments dealing with the properties of electrons, x-rays, radioactivity, etc.

Open to juniors and seniors who have completed course 208. Six periods of laboratory and one of lecture a week, counting three hours a week for the second semester.

Miss Armstrong.

307. Laboratory Technique.

Practice arranged to fit the needs of the individual student. Photography, including the making of lantern-slides; glass blowing; silvering; shop work, including the use of the lathe.

† Mathematics 303, if followed by Physics 304 or 305, may be counted toward a major in Physics.
Spanish  

Open to juniors and seniors who have completed or are taking a course of grade III in the department, and by special permission to advanced students in other science departments. One three-period laboratory appointment a week, counting one hour a week for a year.

The Staff.

350. Research or Individual Study.

The work will be under the direction of the member of the department in whose field the work lies. Opportunity will be offered for a series of experiments as well as for investigation of a single problem.

Open to graduate students and, by permission of the department, to juniors and seniors who have completed nine hours in the department. To count two to three hours a week for a semester or for a year. By permission the work may be arranged to count one hour for the first semester in case two or three hours are elected for the second semester. The amount of work contemplated must be indicated at the time of handing in electives.

DIRECTIONS FOR ELECTION

A major in physics should ordinarily include courses 101 or 104 or 102, 207, 208, 301 and at least two of the following: 302, 304, 305, 309. It may not include courses 204 and 307.

A knowledge of calculus is required and a year of chemistry is advisable for students majoring in physics. A reading knowledge of French and German is essential for students intending to take graduate work in physics.

For honors, physics may be combined with mathematics and chemistry or astronomy.

Pre-medical students are referred to the requirements as given under electives, page 41.

GENERAL EXAMINATION

The general examination may be based on any combination of courses which includes the courses mentioned under Directions for Election. The questions will be designed: (1) to show the essential unity in the different branches of physics; (2) to test the knowledge of fundamental principles and the ability to apply these principles to concrete problems.

SPANISH

Associate Professors: Ada May Coe, M.A. (Chairman)
HeLEN PHIPPS HOUCK, Ph.D.
Assistant Professor: Anita Oyarzabal, M.A.
Visiting Professor: Pedro Salinas, Ph.D.

All courses of the department are conducted in Spanish.
A limited number of qualified students are permitted to spend the junior year in Spain with the foreign study group of Smith College.

*101. Elementary Course.

Grammar, composition, dictation, conversation, prepared and sight translation, short lectures in Spanish.

Open to students who do not present Spanish for admission. Three hours a week for a year.

Miss Coe, Mrs. Houck.
142 Courses of Instruction

*102. Intermediate Course.
Grammar, composition, themes, lectures, reading from modern authors and selections from Don Quijote.

Open to students who have completed course 101 or an equivalent. Three hours a week for a year. Miss Oyarzabal.

*103. Outline History of Spanish Literature.
A survey course with illustrative reading, grammar, and composition, planned especially for those who intend to major in Spanish.

Open to students who present three units in Spanish for admission and on recommendation of the department to students who have completed course 101. Three hours a week for a year. Mrs. Houck.

201. Spanish Literature in the Nineteenth Century.
The aim of this course is to give the student a general idea of Spanish literature after the Golden Age: the French influence, Romanticism, and the noted authors of the latter part of the nineteenth century. Rapid reading of both prose and poetry will be required, and authors previously studied will be referred to in the outline.

Open to students who have completed course 102 or 103. In special cases the department may give permission for the election of either semester of this course without the other. Three hours a week for a year. Mr. Salinas.

203. Advanced Conversation and Composition.
This course is designed to give special opportunity for conversation, composition, and the acquisition of a large working vocabulary.

Open to students who have completed course 103, and to approved students who have completed course 102. One hour a week for a year. Miss Oyarzabal.

204. Contemporary Spanish Literature.
A survey of the literary movement since 1898 as represented by the novel, drama, and essay.

Open to students who have completed course 102 or 103. In special cases the department may give permission for the election of either semester of this course without the other. Three hours a week for a year. Miss Oyarzabal.

205. Spanish Civilization.
The aim of this course is to provide a background for the study of Spanish literature. Lectures in Spanish, some illustrated, will treat briefly the geography and history of Spain, the development of its social and economic institutions, its arts, national ideals, and customs. Parallel readings and papers will be assigned.

Open to students who have completed course 102 or 103. One hour a week for a year. Mr. Salinas.

301. Drama of the Golden Age.
This course will be introduced by a short general outline of the historical and literary influences at work during the period. Characteristic dramas of Lope de Vega, Alarcón, Tirso de Molina, and Calderón will be studied as representative of the nation’s thought and ideals at the time.
OPEN TO JUNIORS AND SENIORS WHO HAVE COMPLETED COURSE 201 OR 204. THREE HOURS A WEEK FOR A YEAR.

MRS. COE.

302. NOVEL OF THE GOLDEN AGE.

The first semester will be devoted to a general study of the novel before 1650, especially the caballeresca, picaresca, and pastoril. During the second semester Don Quijote will be studied.

OPEN TO JUNIORS AND SENIORS WHO HAVE COMPLETED COURSE 201 OR 204. IN SPECIAL CASES THE DEPARTMENT MAY GIVE PERMISSION FOR THE ELECTION OF EITHER SEMESTER OF THIS COURSE WITHOUT THE OTHER. THREE HOURS A WEEK FOR A YEAR. MRS. HOUCK.

303. OLD SPANISH LITERATURE FROM 1100 TO 1500. (NOT GIVEN IN 1936–37.)

STUDY OF EL POEMA DEL CID AND OTHER CHARACTERISTIC WORKS OF THE PERIOD.

OPEN TO GRADUATES AND TO APPROVED SENIORS WHO HAVE COMPLETED AT LEAST ONE COURSE OF GRADE III. THREE HOURS A WEEK FOR A YEAR. MISS COE.

304. SPANISH POETRY. (NOT OFFERED IN 1936–37.)

SPECIAL STUDY OF THE ROMANCES AND OF THE POETRY OF THE GOLDEN AGE.

OPEN TO GRADUATES AND APPROVED SENIORS WHO HAVE COMPLETED AT LEAST ONE COURSE OF GRADE III. THREE HOURS A WEEK FOR A YEAR. MISS OYARZÁBAL.

305. CERVANTES. (NOT GIVEN IN 1936–37.)

A CAREFUL COMPARATIVE STUDY OF THE WORKS OF CERVANTES.

OPEN TO GRADUATES AND APPROVED SENIORS WHO HAVE COMPLETED COURSE 302. THREE HOURS A WEEK FOR A YEAR. MRS. HOUCK.

306. MODERN SPANISH AMERICAN LITERATURE. (NOT OFFERED IN 1936–37.)

THE AIM OF THIS COURSE IS TO SHOW THE INFLUENCES AT WORK IN THE MAKING OF SPANISH AMERICAN LITERATURE WITH THE REACTION, ESPECIALLY IN POETRY, ON THE LITERATURE OF SPAIN.

OPEN TO JUNIORS AND SENIORS WHO HAVE COMPLETED COURSE 201 AND HISTORY 214 OR AN EQUIVALENT. THREE HOURS A WEEK FOR A YEAR. MISS COE.

307.† SEMINAR. DRAMA AND POETRY OF THE TWENTIETH CENTURY.

A STUDY OF PRESENT-DAY TRENDS IN THE DRAMA AND LYRIC POETRY.

OPEN TO JUNIORS AND SENIORS WHO HAVE COMPLETED COURSE 201 OR 204. THREE HOURS A WEEK FOR A YEAR. MR. SALINAS.

350. RESEARCH OR INDIVIDUAL STUDY.

OPEN BY PERMISSION TO A LIMITED NUMBER OF SENIORS WHO ARE TAKING OR HAVE COMPLETED A COURSE OF GRADE III IN THE DEPARTMENT. ONE TO THREE HOURS A WEEK FOR A YEAR OR TWO TO THREE FOR A SEMESTER. THE AMOUNT OF WORK CONTEMPLATED MUST BE INDICATED AT THE TIME OF HANDING IN ELECTIVES. MR. SALINAS.

DIRECTIONS FOR ELECTION

COURSE 101 COUNTS FOR THE DEGREE BUT DOES NOT COUNT TOWARD A MAJOR.

† THIS COURSE IS OFFERED ONLY FOR 1936–37.
The department advises that the sequence be 103, 201, 301, but students may consult their instructors in regard to other combinations. It is also very desirable that every major should include 203 and 205. It is expected that those who are planning to teach will complete satisfactorily a twelve-hour major.

Students planning to major in Spanish are advised to take courses in History, Spanish Art, English Literature, and either French or Italian Literature.

GENERAL EXAMINATION

Every student who presents herself for the general examination in Spanish shall show:

(1) Her knowledge of the language by her ability to use it in the examination.
(2) A general knowledge of the outline of Spanish literature with as much of the historical background as is necessary for understanding the literature.
(3) Familiarity with the specific fields of literature elected and their interrelation.

SPEECH

Assistant Professors: Edith Margaret Smaill, A.A.  
Edith Winifred Moses, M.A. (Chairman)  
Instructors: Cécile de Banke  
Jeannette Barry Lane, Ph.B.  
Assistant: Sarah Emily Brown, M.F.A.

Not more than seven and one-half hours in this department may be counted within the minimum number of hours for the B.A. degree.

One hour in the sophomore year is required of all students except those who are exempted by examination or have completed course 101 or 105 in the freshman year, or who elect course 101 in the sophomore year.

Each applicant for an examination for exemption from Speech will be asked to give from memory a two-minute excerpt from a poem, preferably a lyric, and to speak extemporaneously for two minutes on a topic of interest to herself.

The courses are designed to help the student to acquire: (a) free use of the voice and a good pronunciation of English, (b) ease in public address, (c) the power to read aloud simply and with expression, (d) the ability to interpret dramatic literature. The courses are arranged to make possible systematic and progressive study along these various lines.

The general aim of all the courses is, through training in speech, to add to the effectiveness of the individual.

*101. FUNDAMENTALS OF VOCAL EXPRESSION.

The purpose of this course is to develop the ability to read and speak audibly, correctly, and expressively. Phonetics, voice production, platform delivery, and the oral study of various forms of literature.

Open to all undergraduates. Three hours a week for a year.  
Miss Moses, Miss de Banke, Miss Lane.

*104. VOICE AND SPEECH (A).

This course is intended to promote right habits in the production of voice, and to increase precision in articulation and pronunciation for conversation, classroom use, and extempore speaking.

Required of sophomores except those who have been exempted by examination or have completed or are taking course 101 or have completed course 105. Not open to students who have completed course 101 or 105. One hour a week for a year. 
Miss Moses, Miss de Banke, Miss Lane.
*105. Voice and Speech (B).

This course is, in general, the same as course 104 with some extension of the work.

Open to freshmen and, by special permission, to sophomores. Not open to students who have completed course 101 or 104. Three hours a week for the second semester.

Miss de Banke.

201. Interpretation of Modern Poetry and Drama.

This course is designed to stimulate creative imagination and to give practice in the art of platform reading, to assist the student in acquiring a repertoire of poetry and drama, and to develop an individual style of presentation. Modern drama, from Ibsen to the contemporary period, and modern poetry will be used.

Open to students who have had one course in the department, also, by special permission, to those who have had work elsewhere that is acceptable to the department. Three hours a week for a year.

Miss Smaill.

202. The Art of Speaking in Public.

The course makes a study of the principles of speech composition, and of the technique of delivery, with application of these to different kinds of original addresses, including speeches of introduction, welcome, presentation, commemoration, the after-dinner speech; the speech designed to persuade; types of debate. An opportunity will be given to organize and conduct an open forum meeting.

Open to students who have completed one course in the department and, by special permission, to sophomores, juniors, and seniors who have been exempted from the Speech requirement. Three hours a week for a year.

Miss Moses.

203.† Theatre Workshop.

Study and practice in the modern theatre. Survey of historical backgrounds of stage forms. Theories of various types of production, acting, setting, and direction. Principles of stage design and construction, lighting, and costuming. Practice through the production of several workshop plays and one public performance. The purpose of the course is to arouse appreciation of the art of the theatre and to prepare students to put on school and community plays.

Open to students who have completed or are taking a course in Speech, and either English Literature 211 or 212. Art 203 is advised. Four hours of class and four hours of laboratory a week, counting three hours a week for a year. The extra hours of scheduled work are in place of outside preparation. Director, Miss Smaill. Assistant, Miss Brown.

204. Choral Speaking.

This course introduces the origin and modern revival of Choral Speaking, and studies the educational, psychological, and social values of the verse-speaking choir, together with special technique requisite for its presentation.

Open to students who have completed one course in the department. The instructor has the right to refuse admission to students whose speech and voice are not con-

† A special fee of $25.00 is charged for Speech 203. Loans from the Malvina Bennett Fund for this fee are available for a limited number of students. The chairman of the department should be consulted.
sidered suitable for this type of work. Two periods of class instruction, counting one hour a week for a year.  

301. Dramatic Interpretation of Shakespeare.
A comedy and a tragedy will be studied in detail for oral interpretation, and scenes from these and other Shakespearean plays will be acted under student direction.

Open to juniors and seniors who have completed a three-hour course in the department. Two hours a week for a year.

ZOÖLOGY AND PHYSIOLOGY

Professors: Marian Elizabeth Hubbard, B.S.
Julia Eleanor Moody, Ph.D. (Chairman)

Associate Professors: Margaret Alger Hayden, Ph.D.
Harriet Cutler Waterman, Ph.D.

Assistant Professors: Helen Warton Kaan, Ph.D.
Mary Lellah Austin, Ph.D.
Ada Roberta Hall, Ph.D.

Instructors: Margaret Elliott Van Winkle, M.S.
Curator of Museum.
Rosemary Anne Murphy, M.A.
Helen Elizabeth Butts, Ph.D.
Louise Palmer Wilson, Ph.D.
Eleanor Leach, M.A.
Custodian of Laboratories.

Laboratory Assistants: Pauline Burgess Rohm, B.A.
Judith Dudley Smith, B.A.
Stephanie Dorothea Lowther, B.A.

Secretary and Custodian: Kathleen Millicent Leavitt

*101. The Biology of Animals.
This course aims to furnish the basis for an intelligent understanding of animal life and of the place of man in the world of living things. The study of a series of forms of increasing complexity, culminating in a vertebrate, develops a conception of what an animal is and suggests probable evolutionary sequences. Cells are studied as units of structure and to demonstrate, particularly in germ-cells, the mechanism of heredity. Supplementing the facts gained in the laboratory, there runs through the second semester a series of lectures and discussions on the evidence and factors of evolution, on heredity and eugenics.

Open to all undergraduates. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory, counting three hours a week for a year.

Miss Hubbard, Miss Hayden, Miss McCosh, Miss Austin, Mrs. Van Winkle, Miss Butts, Mrs. Wilson.

ZOÖLOGY

203. Vertebrate Zoölogy.
Evidences of evolution from the study of the comparative anatomy and the development of the vertebrates, based upon a careful dissection of dogfish, necturus, and cat. It is the aim throughout the course to trace the evolution of the vertebrate type from a primitive form to man, with particular emphasis upon the changes leading up to the structures found in the human body. Lectures, laboratory, and museum work.

* Absent on leave for the second semester.
Open to juniors and seniors without prerequisite, and to other students who have completed course 101. Five-year Hygiene students electing this course must also take course 301. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory, counting three hours a week for a year.

Miss Moody, Miss Waterman, Miss Leach.

204. Animal Ecology.
A study of representative members of certain phyla based upon their distribution and natural history. Primary consideration is given to animals in the local fauna. Special emphasis is placed upon their behavior and activities, the relations existing between them and their environment, and their relations with each other. Lectures, laboratory and field work.
Open to students who have completed course 101. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory or field work, counting three hours a week for a year. Miss McCosh.

301. Mammalian Anatomy (Hygiene 301).
Lectures and laboratory work on the gross anatomy of bones and muscles.
Required of first-year graduate students in the Department of Hygiene and Physical Education; also of juniors who are registered as five-year Hygiene students. If counted as part of a major in Zoology, course 301 should be preceded by course 101. Three periods a week, in general one of lecture, discussion or quiz, and two of laboratory, counting two hours a week for the first semester. Miss Waterman.

313. Mammalian Anatomy (Hygiene 313).
Lectures and laboratory work on the digestive, respiratory, excretory, reproductive, circulatory, and nervous systems.
Required of first-year graduate students in the Department of Hygiene and Physical Education; also of juniors who are registered as five-year Hygiene students with the exception of those students who have already completed course 203. If counted as part of a major in Zoology, course 313 should be preceded by courses 101 and 301. Three periods a week, in general one of lecture, discussion, or quiz, and two of laboratory, counting two hours a week for the second semester. Miss Waterman.

303. Histology and Histological Technique.
This course includes a study of the microscopic structure of the tissues and organs of mammals. Emphasis is laid on the relation of structure and function. Some training is given in the preparation of tissues for microscopical study.
Open to juniors and seniors who have completed or are taking course 203 or 204 or 308. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory, counting three hours a week for the first semester. Miss Kaan.

304. Embryology.
This course deals with the development of an individual from its origin as a fertilized egg through the time of formation of the principal organs and systems. The maturation and function of the germ cells are also considered. Laboratory work is based chiefly on a study of chick and pig embryos.
Open to juniors and seniors who have completed or are taking course 203 or 204 or 308. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory, counting three hours a week for the second semester. Miss Kaan.
305. Theories and Problems of Zoology.
A course dealing with the present-day theories and problems of Zoology, and the history of their development; including such questions as the origin of life, growth, and the theories and factors of evolution. Three hours are spent in lecture, reports, and discussions. One or two short papers are usually required.

Open to students completing a twelve-hour major, and under special conditions to others with the approval of the department. Three hours a week for the second semester.

Miss Hayden.

306. Heredity.
A study of the principles of heredity, based on the cytological and genetical evidence found in animals; the application of these principles to human inheritance and to the practical problems of eugenics. The class work is supplemented by a few practical breeding tests with Drosophila and guinea-pigs, carried on in the preparation time allotted to the course. There are no fixed hours for experimental work. Three hours are spent in lecture, reports, class discussion, and quizzes.

Open to students completing a twelve-hour major, to five-year Hygiene students completing a major in Zoology, and to others under certain conditions with the approval of the department. Three hours a week for the first semester.

Miss Moody.

310. Histology of the Organs (and Histological Technique).
This course continues the study of organs not included in course 303. Various aspects of histological research are considered in a series of reports on original papers. Individual problems afford practice in special methods of technique.

Open to juniors and seniors who have completed 303. Six periods a week, in general one of lecture or discussion and five of laboratory, counting three hours a week for the second semester.

Miss Kaan.

314. Cytology. (Not given in 1936–37.)
This course treats of the biology of the cell, including the structure of protoplasm, nucleus, cytoplasm; the phenomena of mitosis, maturation, fertilization; the relation of cellular structure to sex and heredity. Some training is offered in the technique of microscopical preparation.

Open to students completing a twelve-hour major in Zoology. Six periods a week, in general two of lecture, discussion, or quiz and four of laboratory, counting three hours a week for the second semester.

Miss Hayden.

315. Protozoology. (Not offered in 1936–37.)
This course will include (1) a study of the morphology, taxonomy, and interrelations of the Protozoa, in order to introduce the student to the vast series of forms comprised in this group; (2) a study of their general physiology; (3) a consideration of some of the problems of broad biological significance illustrated by a study of the group.

Open to students completing a twelve-hour major in Zoology. Six periods a week, in general two of lecture, discussion, or quiz and four of laboratory, counting three hours a week for the first semester.

Miss Austin.
350. Research or Individual Study.

This course offers elementary research problems in Histology, Embryology, Invertebrate and Vertebrate Zoology, Ecology, Cytology, Protozoology, and Physiology. Independent work will be required of the student under the direction of the instructor in the field chosen.

Open to graduate students and, with the advice of the department, to approved seniors who have completed or who are completing a twelve-hour major in Zoology. Three to six periods a week, counting one and one-half to three hours a year, or six periods a week, counting three hours a week for a semester. For graduate students, three to twelve periods a week, counting one and one-half to six hours for the year, or six to twelve periods, counting three to six hours for a semester. The amount of work contemplated must be indicated at the time of handing in electives.

The Teaching Staff.

Physiology

302. General Physiology (Hygiene 302).

The course aims to give a fundamental knowledge of general physiological processes. It includes elementary physical and chemical phenomena of living organisms, and a study of the coordinated systems in mammalian forms. Lectures, demonstrations, written reports, and laboratory work cover simple chemical studies of the constituents of living matter, and observations of more complex physiological processes—nutrition, circulation, respiration, excretion, nerve-muscle response, reproduction, endocrine activities.

Required of first-year graduate students in the Department of Hygiene and Physical Education; also required of students registered for the five-year Hygiene course, either in the junior or senior year. If counted as part of a major in Zoology, course 302 should be preceded by course 101. Open to Hygiene students only; others take course 308. Six periods a week, in general two of lecture, discussion, or quiz and four of laboratory, counting three hours a week for a year. Miss Hall.

308. General Physiology.

The course aims to give a fundamental knowledge of general physiological processes. It includes elementary physical and chemical phenomena of living organisms, and a study of the coordinated systems in mammalian forms. Lectures, demonstrations, written reports, and laboratory work cover simple chemical studies of the constituents of living matter, and observations of more complex physiological processes—nutrition, circulation, respiration, excretion, nerve-muscle response, reproduction, endocrine activities.

Open to students who offer as prerequisites Zoology 101 and Chemistry 101 or 102; or to students who in addition to fulfilling the Chemistry requirements have completed or are taking Zoology 203. Open by special permission without prerequisite to students majoring in Chemistry. Chemistry 301 is recommended as a parallel course. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory, counting three hours a week for a year. Miss Murphy.

309. Metabolism.

A study of the physiological reactions by means of which energy changes are produced in the animal body. The laboratory work includes a clinical method of
determining basal metabolism and individual problems to illustrate normal and abnormal physiological oxidations in laboratory animals.

Open to students who have completed course 302 or 308. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory, counting three hours a week for the first semester. 

Miss Murphy.

311. Physiology of the Nervous System. (Not given in 1936-37.)
A study of the control of the animal organism through the central nervous system and the organs of special sense. The course includes a consideration of the theories of conductivity, and of the physiological basis of mental processes and behavior.

Open to students who have completed course 308 or 302. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory, counting three hours a week for the first semester. 

Miss Hall.

312. Physiology of Nutrition.
The course includes the study of assimilation by tissue cells as well as the processes involved in normal digestion and absorption of foodstuffs. Normal and faulty nutrition will be compared by feeding experiments with animals. Laboratory and written work will be individually assigned.

Open to students who have completed or are taking course 308 or 302. Chemistry 301 is not required as a prerequisite but is recommended. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory, counting three hours a week for the second semester. 

Miss Murphy.

316. Physiology of the Endocrine Glands.
A study of the chemical control of the animal organism through the secretions of the endocrine glands. Individual problems will constitute a part of this course.

Open to students who have completed or are taking course 302 or 308. Six periods a week, in general two of lecture, discussion, or quiz, and four of laboratory, counting three hours a week for the second semester. 

Miss Hall.

350. Research or Individual Study.
(See Zoology.)

DIRECTIONS FOR ELECTION

These courses are designed to provide for the general student a basis for the interpretation of phenomena in the world of living things. At the same time they may furnish a foundation for students who plan to follow professionally some phase of biological work, such as teaching, research, laboratory technique, medicine, public health, physical education, nursing, medical social service.

Five-year Hygiene students wishing to major in the department should elect course 101 in the freshman or sophomore year, and courses 301, 313, 302, 306 in the junior and senior years.

Pre-medical students are referred to the requirements as given under electives, page 41.
For public health work, students are advised to elect courses 101 or 203, 308 and 303. Students majoring in Zoology are advised to include Botany 308 as part of the six or nine hour minor.

A major is based on course 101. A knowledge of Chemistry is required of all students majoring in Physiology and is desirable for all students majoring in the department. A reading knowledge of German will prove valuable.

Students majoring in Zoology or Physiology may under certain conditions obtain special permission from the Chemistry Department to take organic Chemistry, course 301, after having taken course 101.

Students who intend to major in Zoology or Physiology as a foundation for professional work are urged to consult with the department before completing their plans.

GENERAL EXAMINATION

The general examination will be based on the courses taken in the major subject. In the course of the year members of the department will meet major students to discuss methods of preparation for the examination. No summer reading is required but references will be given to students desiring them.

The purpose of the general examination is to test the student’s knowledge of the fundamental principles underlying animal life, the essential facts involved and their significance. Four hours in one session will be allowed for the examination. The questions offered will permit adequate choice.

The following combinations are suggested as samples of a basis for the general examination:

- (1) 101, 203
- (2) 101, 204
- (3) 101, 308

Plus six hours or more of grade III courses which may be chosen in Zoology or Physiology or a combination of the two.

It is desirable that the student consult the department before electing her courses of grade III.

Graduate and special students who do not live in college buildings make payment for room and board directly to the management of the private houses in which they have secured lodging and meals, at such rates and times as the parties to the arrangement may agree upon. Information regarding boarding places may be obtained by addressing the Dean of Residence.

**Payments must be made before the student can take her place in the classroom. No exception will be made to this rule without written permission from the Assistant Treasurer.**

**Checks or money orders should be made payable to Wellesley College. If sent by mail, they should be addressed to the Assistant Treasurer.**

**There are no deductions for absences, and no refunds save in exceptional cases of which the College shall be the sole judge.**

TUITION AND OTHER CHARGES IN DEPARTMENT OF MUSIC

For instruction for the college year in Pianoforte, Organ, Violin or Voice,

- two lessons a week: $150
- One lesson a week: 75
  (Lessons thirty minutes in length)

For use of the Pianoforte, one period daily for the college year: 15
For two or three periods daily, in proportion.
For use of the Pipe Organ in Music Hall, one period daily for the college year: 20
For two or three periods daily, in proportion.

Special arrangements may be made for lessons on instruments not mentioned above.

Tuition in music is payable in advance in two equal installments, one at the beginning of each semester, and is not subject to return or deduction since no student may elect music for a shorter period than one semester.

FEES

1. Undergraduate.
   a. Application Fee.

An application fee of $10 is required from all candidates for admission, and no application is recorded until the fee is received. The same fee is required from all former students who apply for readmission. If the fee of $10 for application for admission to college was paid before March 15, 1931, it will be credited on the first payment for tuition. As heretofore announced, application fees paid after March 15, 1931, will not be credited on any bill. If the application is cancelled for any reason the fee is forfeited to the College. A student who
postpones entrance until the year following the one for which she first applied may transfer her application fee.

b. Diploma Fee.

At the time of taking the B.A. degree a diploma fee of $10 is charged.

Note:—Every student should also plan for an expenditure of $30 to $50 for the purchase of books and supplies.

II. Graduate.

A matriculation fee of $5 is payable when an applicant is accepted as a graduate student. The amount of this fee will be deducted from the diploma fee of $25 payable for the Master's degree, or from the fee of $10 payable for the certificate in Hygiene and Physical Education.

No student may receive a diploma until a satisfactory settlement of all her college dues has been made.

HALLS OF RESIDENCE

The residence halls within the limits of the campus are situated as follows: Hazard Quadrangle—Bebee, Cazenove, Pomeroy, Shafer, with Munger adjacent; Tower Court group—Claffin, Crawford, Severance, Tower Court; Stone group—Dower, Homestead, Olive Davis, Stone; Norumbega; Fiske. In addition to these houses the College maintains four houses on property immediately adjoining the college grounds: Eliot, Elms, Washington, Little, and Noanett for freshmen; Crofton for graduate students. In all houses the rooms are furnished, and equipped with desk lamps. A Head of House, appointed by the President of the College, presides over each house.

Rooms are assigned to new students in the order in which their original application fees have been received.

HEALTH

The college physicians, together with the Director of the Department of Hygiene and Physical Education, and (ex officio) the President, the Dean of the College, the Dean of Residence, and the Class Deans constitute a board of health to which all matters affecting the health of students are referred. Simpson Cottage is maintained as an infirmary under the charge of the Resident Physician. Three trained nurses are in constant attendance. The privileges of the infirmary, when prescribed by the Resident Physician, are open to all students without charge for a period not exceeding seven days, provided no extra service is required. There will be a charge at the rate of $2.25 a day for periods exceeding seven days. Charges for extra service will be determined by the amount required. The services of the college physicians for consultation and treatment are free to all students.

FELLOWSHIPS AND SCHOLARSHIPS

FOR GRADUATES

The Alice Freeman Palmer Fellowship, yielding an income of about $1,400, was founded in 1903 by Mrs. David P. Kimball. The holder of this fellowship must be a graduate of an American college of approved standing, a
Fellowships and Scholarships

woman of good health, not more than twenty-six years of age at the time of her appointment, unmarried throughout the whole of her tenure, and as free as possible from other responsibilities. She must have completed at least one year of graduate study. The same person will not be eligible to the fellowship for more than two years.

The fellowship may be used for study abroad, for study at any American college or university, or privately for independent research. Three times during the period of tenure the holder of the fellowship must furnish evidence that it is used for purposes of serious study and not for general culture; and within three years from entrance on the fellowship she must present to the faculty a thesis embodying the results of the research carried on during the period of tenure.

A form to be used in applying may be obtained from the Secretary to the President, Wellesley College. The application must be filed before February first. Each applicant must furnish papers showing her most advanced work, letters from instructors as to ability, and a certificate of health.

The Fanny Bullock Workman Scholarship, yielding an income of about $1,200, was founded in 1929 by the bequest of Mrs. Fanny Bullock Workman. The holder of this scholarship must be an alumna of Wellesley College who has completed at least one year of graduate study. She must present evidence of good health, character, financial need, and ability; and must be free from personal obligation which would interfere with study. The scholarship may be used to assist preparation for any useful work. Twice during the period of tenure the holder of the scholarship must furnish evidence of work done; and not later than one year after the completion of the period she must present a full report or other suitable evidence of the use to which the scholarship has been applied.

Forms to be used in applying may be obtained from the Secretary to the President, Wellesley College. Applications must be filed before February first. Each applicant must furnish letters of recommendation and papers showing her most advanced work.

The Anne Louise Barrett Fund, yielding an income of about $1,000, was founded in memory of her sister, by bequest of Mrs. Helen Barrett Montgomery of the class of 1884. The income is to be awarded, preferably in the field of music, to a woman who is a graduate of an American college of approved standing and who is a candidate for an advanced degree or has completed at least one year of graduate study. At the discretion of the trustees it may be awarded in any other field. On presenting evidence of notable accomplishment, the same person will be eligible to apply for the fellowship for a second year. In the case of candidates of equal ability, preference will be given to a Wellesley graduate.

The fellowship may be used for study abroad, for study at any American college or university, or privately for independent research. Work in music must be primarily in musical theory, or composition, or the history of music. Twice during the period of tenure the holder must furnish evidence of work done; and not later than one year after the completion of the period she must present a full report, or other suitable evidence of the results of her work while holding the fellowship.

Forms to be used in applying may be obtained from the Secretary to the President, Wellesley College. The application must be filed before February first.
It should be accompanied by letters of recommendation and papers showing the candidate's most advanced work. Letters recommending candidates in music should specifically cover the following points in musicianship: 1) the candidate's ability to read at sight (a) four-part score involving the treble, bass, soprano, mezzo-soprano, alto and tenor clefs and (b) orchestral scores of the pre-Beethoven period; 2) an estimate of the accuracy of the candidate's ear. Applicants in music should submit their most advanced work in theory or composition as well as in the field of musical history.

The Horton-Hallowell Fellowship has been established by the Alumnae Association of Wellesley College in honor of Mary E. Horton, the first professor of Greek, and Susan M. Hallowell, the first professor of Botany. It is open to alumnae of Wellesley College for graduate study in candidacy for the degree of Doctor of Philosophy or for private research of equivalent standard. The amount of the fellowship is $1,200. A candidate for this fellowship must present evidence of good health and financial need.

Forms to be used in applying may be obtained from the Chairman of the Fellowship Committee, Alumnae Office, Wellesley College. Applications must be filed before February 15. The applicant should describe the plan of study which she proposes to follow if granted the fellowship, and should present specimens of written work which demonstrate her ability to carry on independent study.

The Susanna Whitney Hawkes Teaching Fellowship, from the bequest of Susanna Whitney Hawkes, is offered by the department of English Composition.

The object of this fellowship is to give to students interested in teaching English an opportunity (1) to do graduate study leading in two years to the Master's degree; and (2) to gain experience in teaching through conducting a certain number of classroom periods in freshman English Composition, through reading themes, and holding conferences with students—all under careful supervision. The holder of the fellowship will, with the approval of the Department of English Composition and the Committee on Graduate Instruction, elect graduate courses, in accordance with her individual needs, in English Language, Literature, Composition, Education.

The fellowship is open to those graduates of Wellesley College who have shown special competence in English work, and who have received their B.A. degree within six years. The fellowship, which may be awarded for two successive years, covers tuition fees for graduate courses at Wellesley College and also carries with it an annual stipend of $500.

Applications, with full information about the applicant's work, must be received not later than March first and should be addressed to The Chairman of the Department of English Composition, Wellesley College.

Research Fellowship for the Study of Orthopedics in Relation to Hygiene and Physical Education, yielding $1,000.

The general requirements to be met by applicants are as follows:—good health; the bachelor's degree from a college or university of good standing; sound preparation in chemistry, physics, and biology; special preparation in anatomy,
kinesiology, and physiology; familiarity with the elements of orthopaedic theory and practice; and an insight into some one or more of the problems of orthopaedics as related to hygiene and physical education.

The work on the problem chosen in consultation with the department must be done in residence at Wellesley College. It will, in general, begin in the September following the acceptance of the applicant, and will continue through one calendar year. It will involve kinesiology, applied physiology, and the study of clinical material. For the latter, opportunity will be provided to study the work of orthopaedic surgeons in Boston and other eastern cities. The results of the investigation are to be embodied in a thesis to be submitted to the department and published.

Applications for this fellowship should be received by the Chairman of Department of Hygiene and Physical Education, Wellesley College, not later than March first of the academic year preceding that for which the fellowship is asked. The decision reached by the department will be based upon the applicant's record, upon personal correspondence, and, when possible, upon personal interviews.

The Loretta Fish Carney Memorial Scholarship, yielding an income of about $48, was founded in 1920 by the alumnae and staff of the Boston Normal School of Gymnastics and the Department of Hygiene and Physical Education of Wellesley College; the income of this fund to be awarded, at the discretion of the teaching staff of the department and of the President of the College, to a second-year student in the department.

The Amy Morris Homans Scholarship Fund, yielding an income of about $268, was founded in 1924 by the Mary Hemenway Alumnae Association of the Graduate Department of Hygiene and Physical Education in honor of Miss Amy Morris Homans, pioneer and leader in physical education in the United States; the income of this fund to be awarded, at the discretion of the teaching staff of the department and of the President of the College, to a student in the Graduate Department of Hygiene and Physical Education who is in need of assistance and shows proficiency and promise.

The Trustee Graduate Scholarships. Two scholarships yielding an income of $750 each have been established by the Trustees of Wellesley College for members of the senior class who are qualified for graduate work. The scholarships may be used for study in this country or abroad. Notice of the conditions of application are sent by the Dean of Graduate Students in the spring of each year to qualified seniors.

Eighteen Graduate Scholarships of the annual value of tuition for one year have been established for the benefit of approved candidates for the Master's degree in residence at Wellesley College. Application for one of these scholarships should be made before March first by personal letter from the candidate to the Dean of Graduate Students, Wellesley College, stating the applicant's reasons for desiring to do graduate work in the department chosen, and her reason for applying for the scholarship. The application should be accompanied by letters of recommendation from persons familiar with the candidate's college work, and by a doctor's certificate of health. The award will be made after the candidate's formal application for admission to graduate work has been accepted.
Students who do not maintain their work at graduate grade during the first semester will be required to relinquish their scholarships at mid-years. Laboratory assistants and other members of the official staff of the College are granted the privileges of graduate study without tuition charge.

GRADUATE STUDY IN CLASSICS:—

The American School of Classical Studies in Athens offers special opportunity for graduate study in Greek. Membership without tuition* is open to all graduates and graduate students of Wellesley College who have done sufficient work in Greek and Archaeology to profit by the opportunity. The object of the School is to furnish an opportunity to study in Greece the literature, art, antiquities, and history of the country under suitable guidance; to prosecute and to aid original research in these subjects; and to assist in the exploration and excavation of classic sites. Three fellowships of $1,000 each are awarded annually on the basis of competitive examinations and are open to graduates of the cooperating colleges of which Wellesley College is one. For further information apply to Associate Professor Law.

The American School of Classical Studies in Rome is an integral part of the American Academy. The object of this School is to promote the study of classical literature in its bearing upon antiquities and history; of classical, Etruscan, and Italian art and archaeology, including topography, palæography, and epigraphy, and of the art and archaeology of the early Christian, Mediaeval, and Renaissance periods within the boundaries of Italy. It furnishes regular instruction and guidance in some or all of these subjects, encourages and assists in original research and exploration. Students should have the ability to read ordinary Greek and Latin prose at sight and to use French and German as instruments of research; they will find an elementary knowledge of Italian very useful. Those admitted are expected to put themselves under the guidance of the Director of the Academy and the Professor in charge of the Classical School for the full period of eight months. Duly qualified graduates of Wellesley College are exempt from any charge for tuition. Three Fellowships in the School of Classical Studies are offered by the Academy, each with a stipend of $1,500 a year for two years, and an allowance of $500 for transportation to and from Rome. The academic year begins on the first day of October and students are expected to report in Rome at the Academy on that day. A Summer School established in 1923 offers a program of great value for students and teachers of the classics. For further information application may be made to Professor A. Bertha Miller.

Scholarships in the Marine Biological Laboratory at Woods Hole:— Admissions to courses at Woods Hole is upon a selective basis. Wellesley College offers annually two scholarships to applicants who are successful candidates. This laboratory is primarily for research, but in the summer courses of instruction are offered, four in Zoölogy and one in Botany. The purpose of these courses is to aid in the production and training of investigators, and first consideration is given to persons who, whether graduate or undergraduate, give prom-

ise of contributing to the advancement of science. Applicants must have completed at least two full college courses in the subject in which they wish to work. The laboratory offers, besides these courses of instruction, opportunity for research, either directed or independent. In addition, there are courses of lectures on special topics and on subjects of general biological interest.

Applicants should state the character of the work to be done, whether botanical or zoological, whether courses of instruction are desired, or investigation under direction. All applications should be sent to Associate Professor Davis or Professor Moody in time to reach Wellesley College before April first. These applications will be forwarded to Woods Hole to be acted upon May fifteenth; after this date notification will be sent to the successful candidates.

FOR UNDERGRADUATES

The scholarships listed are awarded in recognition of genuine pecuniary need and of satisfactory character, college citizenship, health, and intellectual and practical ability as tested by a year or more of life and study at Wellesley College. The foundations are of varying amounts, and the income is apportioned as justly as possible according to need and merit. These scholarships are intended primarily for students who have completed one or more years' work at Wellesley College. Provision for new students and additional provision for other students has been made as indicated below.

Over and above the grants made from the permanent scholarship funds which are listed, the trustees set aside annually a sum for the aid of students of recognized intellectual ability who are financially unable to meet the charges for tuition and residence. The scholarships vary from $100 to $500, and are awarded on the basis of merit with due consideration of need, scholarship attainment, and personal qualities.

Applications from students in college must be filed with the Executive Secretary of the College, who is Chairman of the Faculty Committee on Scholarships, before March first on forms furnished for the purpose and in accordance with the instructions posted in February of each year.

Scholarships for Freshmen:

Ten National Prize Scholarships are offered by the trustees to candidates of marked promise in character, personality, and intellectual ability. The scholarships will be offered each year to a specific group of cities and schools with as wide a geographical representation as possible. The amount of the individual scholarship is $500. The special feature of the award is the continuance of the grant for the whole course, unless the candidate forfeits it by unsatisfactory standing.

Six competitive scholarships are awarded annually on the basis of entrance examinations to members of the freshman class needing financial assistance. One of these scholarships, of $600, will be given to the freshman who has made the highest average grade in her entrance examinations. The other five scholarships, of $500 each, will be assigned by districts in the following divisions of states: New England, Middle Atlantic, Southern, Middle Western, and Far Western. In each district the freshman making the highest examination grade
will ordinarily receive the award, but if no student attains a sufficiently high average, the award will not be made.

Three regional scholarships, of $300 each, are open to candidates of good scholastic standing and evident promise from the Middle West, Far West, and South.

As funds permit, additional freshmen are aided by scholarships of $100 to $200 in the second semester.

Applications from all candidates for admission should be made to the Dean of Freshmen before March first of the year of admission.

Coöperative Houses:

Munger Hall, accommodating 111, is open to self-helping students of the three upper classes. Norumbega Hall, accommodating 50 students, has 20 places reserved for freshmen. An award of a place in a coöperative house is considered a part of the total scholarship grant.

The Personnel Bureau offers assistance to students who wish to earn money toward their college expenses. The types of employment are mainly clerical work, tutoring, library work, assisting in the various offices of the College, and some domestic work. While the Personnel Bureau makes every effort to obtain places for those who wish to work, it cautions students against depending upon this source for any regular or considerable income. Such employment makes a distinct draft upon strength and time, and it is hardly to be advised for the freshman year.

The Wellesley Students' Aid Society is another source of pecuniary aid. This organization is maintained by alumnae and former students of the College, aided by the faculty and undergraduates, as their contribution towards keeping the opportunity of Wellesley open to students of moderate means. Awards are made both in gifts and in loans, and usually in some combination of the two. These awards are made on practically the same basis as the college scholarships and supplement them for necessary college expenses. They ordinarily range from $50 to $200. Loans and occasionally gifts in small sums, $5 to $25, are also made for incidental expenses and emergencies.

The staff of the Personnel Bureau consists of a Director, an Appointment Secretary, two Associates, a Consultant from the Psychology department, and two assistants.

The Personnel Bureau is a central depository of the individual histories of the students as collected from the records of grades, from interviews, personality ratings by the faculty, psychological tests, health reports, and extra-curricular activities, and is maintained for furnishing material of value in educational and vocational advising. The Bureau is in active coöperation with other administrative offices by means of the Personnel Board. This is composed of the President of the College (Chairman), the Deans, the Recorder, the Resident Physician, the Health Officer, the Consultant, a member-at-large from the faculty, and the Director of the Personnel Bureau (Secretary). Meetings are held from time to time for the consideration of personnel questions and methods of procedure, to which other officers of the College concerned with the matter under discussion are invited.

The Personnel Bureau, established by the Founders as the Teachers' Registry, includes also in its scope the placement of graduates in teaching and in business positions, and the work of the Committee on Vocational Information, which arranges lectures and discussions on occupations. Registration for placement is open to all who have taken courses in Wellesley College. Students are invited to register during their senior year. The Bureau maintains files, collects credentials, and is the source of information concerning the vocational equipment and experience of Wellesley women. The registration fee is $2.00 for life membership, and no commission is charged for placement. The Bureau also registers undergraduates and alumnae for summer work, and has charge of undergraduate employment.

EQUIPMENT

Hetty H. R. Green Hall, the administration building, contains the offices of the President and other officers of administration, class and seminar rooms, the faculty assembly hall, and offices of student organizations.

Founders Hall, a building for lecture rooms and department offices pertaining to instruction in the Liberal Arts, was opened for use in September, 1919. The hall was built from the Restoration Fund, secured for the College through trustees, faculty, alumnae, and other friends, and replaces in some part College Hall, the first and main building of the College, destroyed by fire, March 17, 1914. The building is dedicated as a memorial to the Founders of the College, Henry Fowle Durant and his wife, Pauline Adeline Durant.

The Library of the College, endowed by Eben Norton Horsford, now numbers over 165,000 bound volumes, including the departmental libraries. The books in the General Library building form a collection chosen primarily for the use of students and instructors in the college courses in Literature and Languages, History, Economics, Sociology, Philosophy, Education, Religious History, and certain of the sciences. The General Library is open on week days from 8:10 A.M. to 9:30 P.M., and on Sundays from 2:30 to 5:30 P.M. Students have

direct access to the shelves. The Library is catalogued by author and subject entries, and the most recent and useful bibliographical aids are provided. Special effort is made to train students in methods of research.

The Library subscribes for more than six hundred American and foreign periodicals, including daily newspapers representing different sections of the United States, besides representative British and Continental dailies.

The Library has also many special collections of great interest and value to the student doing graduate or other research work. Among the most valuable of these are the Plimpton Collection, established by Mr. George A. Plimpton in memory of his wife, Frances Pearson Plimpton, of the class of 1884, which comprises over a thousand volumes of Italian books and manuscripts chiefly of the Renaissance; the Ruskin Collection, the gift of Mr. Charles E. Goodspeed; and the Collection of Early and Rare Editions of English Poetry given for the most part by Professor George Herbert Palmer.

The Brooks Memorial Room, opened in 1921, provides comfortable and beautiful surroundings with carefully selected books for leisure hours of reading.

The following departmental libraries are located in the buildings of the respective departments: Art, Astronomy, Botany, Chemistry, Hygiene, Music, Physics, Psychology, and Zoology.

Farnsworth Art Building.—The Farnsworth Art building was the gift of the late Isaac D. Farnsworth in 1889. It contains lecture rooms and exhibition galleries and is used by the department of Art for its library, study rooms, laboratories and studios.

Through the active interest of friends of the College, the Museum contains a small but representative selection of monuments from different periods and styles: Egyptian minor arts, including 16 scarabs and a seal from the Murch collection; the M. Day Kimball collection of classical sculpture; Graeco-Buddhist stucco sculpture from Kashmir; a recently excavated mosaic from Antioch; a few Italian primitives; a 16th century tapestry; the James J. Jarves collection of textiles and laces; a bronze by Kolbe; an early Corot; a late Renoir; the Cumaean Sibyl by Elihu Vedder; two paintings by Frank Duveneck; and a portrait study by Whistler.

Further information may be found in the Art Museum Bulletin.

Music Hall and Billings Hall are large brick buildings, devoted to the department of Music. Music Hall contains offices, studios, and practice rooms equipped with thirty-seven new pianos of standard makes, four victrolas and a Mason and Hamlin Ampico; also a large room, containing a two-manual pipe organ for the use of the organ pupils. Billings Hall, opened in 1904, contains the offices of the Professor of Music and the Assistant, the library, and a classroom for instruction in Musical Theory; also a concert room with a seating capacity of 330 people, containing a grand piano, a clavichord, a victrola, and the Grover organ—a three-manual organ, rebuilt and modernized by the Estey Organ Company.

The Music Library includes a collection of manuscripts, twenty-six hundred scores and two thousand reference books on musical subjects. The department owns about a thousand victrola records and fifty ampico rolls.
Alumnae Hall, the gift of the alumnae for a recreation centre, contains an auditorium seating 1,570, a hall for college dances, a library, committee rooms for the use of alumnae and students, and full equipment for entertaining.

LABORATORIES AND SCIENTIFIC COLLECTIONS

Astronomy.—The Whitin Observatory is a one-story building of brick, faced with white marble, situated on a small hill on the college grounds, and devoted entirely to the use of the department of Astronomy. It contains two rooms surmounted by rotating domes, twenty-five feet and twelve and one-half feet in diameter respectively; a transit room; a spectroscopic laboratory; a large, well-lighted room for elementary laboratory work; and another large room in which is kept the department library. In the larger dome room is mounted a twelve-inch Clark equatorial refracting telescope, which is provided with a filar micrometer, a polarizing photometer, and an attachment for photographing the moon. The smaller dome contains a six-inch Clark refractor, which is provided with an electric driving clock, a filar micrometer, a wedge photometer, and an Evershed protuberance spectroscope, and which may be used as a guiding telescope for a small photographic camera. Both domes are rotated by electric motors. In the transit room is mounted a Bamberg prismatic transit of three inches aperture. A four-inch telescope with objective by Browning is mounted in a south wall of the building, with the eye end inside and the optic axis parallel to the axis of the Earth; a plane mirror beneath the object-glass reflects into the latter the light of the object observed. In the spectroscopic laboratory are a Hale spectrohelioscope and a small Rowland concave grating spectroscope. The Observatory is supplied with two Howard sidereal clocks, a Bond mean-time chronometer, and a chronograph, any of which may be connected electrically through a switch-board with keys near the various telescopes; a Berger surveyor's transit; a 60-mm. Zeiss tripod telescope; two calculating machines; a Gaertner comparator for measuring spectrograms; a projecting lantern and about 1,200 astronomical lantern slides; and a large collection of illustrative apparatus and photographs. A flat portion of the roof of the neighboring Sage Hall is fitted with illuminated desks for the use of astronomy students during naked-eye study of the sky.

Observatory House, the residence of the Director of the Observatory, is nearby. Both the Observatory and the house, and also much of the astronomical equipment, are the gift of the late Mrs. John C. Whitin.

Botany.—The department of Botany occupies a modern building (Sage Hall) with laboratories, research rooms, offices, etc., fully equipped for general and special work. Connecting with the building at three points is a range of modern greenhouses consisting of a large palm house and fourteen smaller houses. The illustrative collections comprise an herbarium of some eighty thousand sheets, a working museum of more than five thousand specimens and models, and a large collection of charts, lantern slides, and microscopical mounts. The department has an "Outdoor Laboratory" for the use of certain courses. The greenhouses contribute to all the courses in the department, but are of special importance in connection with the work in general botany, plant culture, physiology, ecology, taxonomy, and genetics. The native flora about Wellesley is
Equipment

Easily accessible, furnishing a convenient field for both the taxonomist and ecologist. The Susan M. Hallowell Memorial Library is exceptionally well supplied with reference works and with current periodicals.

Chemistry.—The department of Chemistry occupies a modern, fire-proof building (Pendleton Hall) which is excellently equipped for its work. There are three lecture rooms with complete demonstration tables and apparatus for special experiments, a seminar room, and a library in memory of Professor Charlotte Fitch Roberts. Each course is provided with a laboratory designed and equipped for its special needs. There is a large dark room for optical instruments and smaller ones for photographic and spectrographic work. Rooms have been arranged for special organic experiments, for electrolytic work and for microcumbustions. General research rooms are available which are provided with equipment adaptable to various experimental problems. Throughout the building there are systems for hot and cold water, distilled water, gas, compressed air, vacuum, high-pressure steam, hydrogen sulfide, and both direct and alternating current, so that these services are available wherever desired.

Geology and Geography.—The building occupied by the department of Geology and Geography contains well-equipped lecture rooms and laboratories, a small library, and museum and case rooms for housing the department's large collections of demonstration materials.

The museum and laboratory material of the department includes a typical collection of dynamical and structural geology specimens, systematic mineralogical and petrographic collections, and a wide variety of fossils. The department has two noteworthy collections. The first is the Horace I. Johnson Mineral Collection, which consists of five thousand valuable and beautiful mineral specimens, including many precious metals and stones. This collection is the gift of the late Mr. John Merton, and was presented through the Class of 1915 by the courtesy of Miss M. Helen Merton. The second is the Reverend David F. Pierce Collection, which includes a complete and rare collection of building and ornamental stones and many precious and semi-precious minerals. This collection is the gift of Professor Frederick E. Pierce of Yale, Miss Anna H. Pierce, and Miss Mary E. Pierce of the Class of 1898.

The maps of the department include many large scale wall maps, maps of the United States Coast and Geodetic Survey, and complete files of geologic folios and topographic maps of the United States Geologic Survey. In addition several thousand topographic maps and folios are arranged in collections for individual use in the laboratory. The department has an excellent assortment of lantern slides which illustrate many phases of geology and geography.

Hygiene and Physical Education.—The department of Hygiene and Physical Education occupies Mary Hemenway Hall on the western border of the college grounds. The equipment of the department is designed for the application of modern science to the maintenance and promotion of health and for education through motor activity.

Mary Hemenway Hall includes a large well-lighted gymnasium with ample shower facilities, administrative offices, classrooms, and laboratories for anatomy, physiology, hygiene, anthropometry, corrective exercise, and research.
Unusual facilities for outdoor activities are provided as follows: one six-target archery range, six volley ball, four basket ball, and twenty tennis courts; one baseball diamond, two hockey and lacrosse fields, one 100-yard straight-away track and jumping pits; and a nine-hole golf course. Bridle paths are available for horseback riding. Close by, on Lake Waban, are two boathouses, with canoes, eight-oared shells, and motor boat for coaching and safety patrol. The Lake provides opportunity for swimming in the spring and fall terms, and for skating in the winter. The campus is well adapted to skiing, snowshoeing, and coasting.

The department library in Mary Hemenway Hall contains 4,600 volumes, a collection of valuable pamphlets, and regularly receives 59 periodicals dealing with matters related to hygiene and physical education.

MATHEMATICS.—The department has a collection of 45 Brill-Schilling models of surfaces, chiefly of the second and third orders, and a lantern for use with large thread models in the study of skew curves, beside several simple models, including some made by its members. There is a fine transit for the use of classes in trigonometry, and two computing machines, used in the classes in statistics.

PHYSICS.—The Physics Laboratory, opened in September, 1935, is of fireproof construction. On the second floor are large, well-lighted laboratories for general physics, optics, electricity, and meteorology; on the first floor, lecture and recitation rooms, with a large, central apparatus room, library, and offices. In the basement are well-equipped machine and wood shops, advanced laboratories, research rooms, photographic dark rooms, glass-blowing and chemical preparation rooms. Lecture tables and laboratories are fitted with gas, water, compressed air and vacuum systems. Six electrical distribution panels permit the use of direct and alternating currents in all parts of the building.

The equipment is thoroughly modern. The lecture apparatus is sufficient to permit a wide range of experiments. In the elementary laboratory, duplication of apparatus permits a close coördination between lectures and laboratory exercises. The equipment for advanced laboratory work is especially strong in electrical and optical apparatus. It includes unusual equipment for experiments in electric oscillations; a Hilger quartz spectrograph and constant deviation spectrometer; a Weiss electromagnet, a Bragg x-ray spectrometer, etc. A mechanician makes and repairs apparatus as needed.

PSYCHOLOGY.—The new laboratory in Pendleton Hall, opened in October 1935, consists of a number of small rooms in which an observer and subject may work on elementary problems; several larger laboratories for advanced problems requiring more elaborate apparatus; specially designed rooms for studies in visual, auditory, and olfactory sensations; facilities for photography; a small but well-fitted workshop. There is also a room so equipped that it may be used, when funds permit, for animal experimentation. The money from the Sanford Fund is being used to purchase all apparatus necessary for a modern laboratory.

The library and seminar room is dedicated to the memory of Eleanor Acheson McCulloch Gamble, late professor of psychology.

ZOOLOGY AND PHYSIOLOGY.—The department of Zoölogy and Physiology occupies a modern building (Sage Hall), containing lecture rooms, laboratories,
research rooms, a library—a memorial to Caroline B. Thompson,—a museum, and a vivarium which includes mammal rooms and runways and a large aquarium room containing frog and turtle pools, tanks for salt and fresh water forms and for tropical fishes.

The museum material includes teaching collections of birds, mammals, reptiles, amphibians and fishes, and many fine anatomical and embryological models.

Invertebrates are represented by extensive collections of insects and shells and models of important types.

HONOR SCHOLARSHIPS

Honor Scholarships (without stipend) have been established by the College for the purpose of giving recognition to a high degree of excellence in academic work. These honors fall into two classes: students in the first, or higher class, are termed Durant Scholars; students in the second class are termed Wellesley College Scholars.

These honors are awarded to seniors on the basis of two and one-half years' work, to juniors on the basis of one and one-half years' work. The standard in each case is absolute, not competitive.
