HOLD MEETING OF LOCAL EDUCATORS

Discussion Subjects Announced by Secretary of Association for Annual Meeting

COLLEGE OFFICERS ATTEND

The Present Athletic Management of the Campus and the future of the Athletic Department is the subject of another meeting held in the Administration Building on Friday, November 29th. It was announced that a definite plan will be announced at the next meeting. The President of the College, Dr. George T. Smith, was present. The meeting was called to order by Dr. Smith. The minutes of the previous meeting were read and approved. The President then announced that the present Athletic Management has decided to continue the existing system of regulation and control. The President further stated that the present system has been found to be satisfactory and that the College is not willing to undertake any sweeping changes at this time. The next meeting will be held on December 6th, at which time further action will be taken on the matter.

C. A. WILL GIVE OLD NATIVITY PLAY

On Sunday, December 1, at 7:30 P.M., a Christmas play will be presented by the students of the Department of Drama. The play is entitled "The Nativity." The play will be staged in the auditorium of the college. The cast will be composed of students from the Drama Department. The play is a retelling of the story of the birth of Jesus Christ, as told in the Bible.

AMPSU RIER

The second Inter-House meeting will be held in Room 109, Founders Hall, at 8:00 P.M. on Monday, December 2, 1935. The President will be present.

MINIATTI WILL SPEAK FOR DEPARTMENT OF ITALIAN

On Monday, November 30, at 4:30 P.M., Mr. Marquis Perino Miniatti will speak for the Department of Italian. The title of the speech will be "The Italian Language." The lecture will be held in the auditorium of the College. The lecture will be given by Mr. Miniatti, a well-known authority on the Italian language. The lecture will cover the history of the Italian language, its development, and its influence on modern languages. The lecture will be followed by a question-and-answer session.

WELLESLEY COLLEGE ANNUAL DINNER

The annual dinner of the Wellesley College Alumnae Association will be held on Friday, December 5, at 8:00 P.M., in the Alumni Hall. The President of the College, Dr. George T. Smith, will be present. The dinner will be attended by alumni and friends of the College. The dinner will be followed by a program of music and speeches.

BARN TO PRESENT A THREE-ACT PLAY

"The Swan" is a romantic comedy by Molnar, Watty, and Whitman. It will be presented in the auditorium of the College on Friday, December 5, at 8:00 P.M. Admission will be free to students and faculty.

CAST IS ANNOUNCED

On Friday and Saturday nights, the student drama group will present "The Swan." The play will be directed by Mr. Miniatti. The cast will be announced at a later date.

SEMINARY MEETS FOR FIRST TIME

The annual meeting of the Seminary will be held on Wednesday, December 3, at 4:00 P.M., in the auditorium of the College. The President of the College, Dr. George T. Smith, will be present. The meeting will be attended by the students and faculty of the Seminary.

SEMINARY MEETINGS

The annual meeting of the Seminary will be held on Wednesday, December 3, at 4:00 P.M., in the auditorium of the College. The President of the College, Dr. George T. Smith, will be present. The meeting will be attended by the students and faculty of the Seminary.

SEMINARY MEETINGS
PRESENTED LECTURE ON UNDERSEA LIFE

On Thursday, November 17, the Junior Board of Visitors and the Department of Zoology presented a lecture by Dr. C. H. Gilbert, who gave an illustrated lecture on Archeocyatha and the Sea Anemone. The audience was seated in the large auditorium of the Department of Zoology, and listened intently as Dr. Gilbert discussed the various forms of life found in the undersea world. His lecture was particularly interesting, and many students were inspired to pursue further studies in marine biology.

DEAN KNAPP READS 1945 HONOR ROLL (Continued from page 1, Col. 1)

which he is staring at the minute Professor Flanagan sat and said that part of scholarship is the love for and the desire to see books.

A complete list of the nineteen honor students follows.

An Additional requirement for WESLEYAN University students is to succeed in meeting a minimum of one hour of athletic activity each week, as required by the student's home and the student's college. The maximum credit which a student may receive for interscholastic participation for one year is one credit.

We are not advocates of any system which sets up barriers instead of leading toward a diploma, but we do deplore a system which gives due credit for work actually done. For such a system works a week's work a week (six hours with an hour for instruction) at the end of the semester, and three hours with a two-week period and two under instruction merely cancel each other out and result in no credit for the student's year of credit.

The term "natural" is an old-fashioned term, and it is in the process of being replaced by the term "contemporary." However, it is important to note that the term "natural" is still widely used in the field of biology, and it is important to understand the implications of using this term. The term "natural" is often used to refer to species that are not artificially bred or modified in any way. This term is used to distinguish these species from those that have been artificially bred or modified, which are often referred to as "domesticated" or "housed."

The term "natural" is also used in the field of ecology to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of economics to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of psychology to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of sociology to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of anthropology to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of archaeology to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of geography to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of history to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of literature to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of philosophy to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of politics to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of religion to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of science to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of technology to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of medicine to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of psychology to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

The term "natural" is also used in the field of sociology to refer to species that are not affected by human activities. This term is used to distinguish these species from those that are affected by human activities, which are often referred to as "managed" or "controlled."

CAMPUS CRITIC

BARRY REYNOLDS

On Monday, November 11th, at 8:40 in the Amphitheatrical Hall, Mr. Reynolds gave the first of three recitals under the auspices of the Department of Speech. In his address, Mr. Reynolds spoke with Will Shakespeare.

Mr. Reynolds had used his recital with a selection with a few remarks on Shakespeare or on the particular passages he was reciting. He then remarked that he was aware they brought him to the point that Shakespeare was the superlatives being that he is often thought to be, but rather a very human person, whose life was almost completely natural.

Mr. Irvine offered a wide range of material, from the classical, "All the world’s a stage," from Hamlet, the tragedy of Macbeth, and the comic, "A Night in deepest Carthage," from one of his comic pieces, but that he was not found in this entire collection. It is a Potemkin. The results include a formal treatise, rather than the thought of Hamlet as he tries to reason his way through a world of confusion and the world in which he is surrounded. The world of home and family is to be done by youthful actions, or at least a youthful manner. Mr. Irvine managed to make the very well that he was giving by the means of Shakespeare.

Mr. Irvine held his audience very well throughout; his delivery was clear and his command of the material was to be laudable. In all, he pleased, as can be seen by his excellent rewarding with William Shakespeare.

J. W. P., Jr.

KIRKPATRICK RECITAL

Mr. Maxine C Kirkpatrick, of the Department of Music, gave an organ recital in the Memorial Auditorium, Wednesday, December 3, 1919. The program consisted of a most interesting selection, drawn mainly from the modernists.

Cesar Franck's Choral in B Minor was the first number; this rich chromatic treatment of the composition and the echo effects coupled with a few notes very well adjusted, made the most beautiful effect. Four Preludes (composed for Pedal Piano) by Hindemith, and his Organ Fantasy, no. 1, was crisply played, the composition holding a marked rhythm, and a running effect, in which was an opportunity for the performer. Allegro, no. 2, called for a stirring and noble stop, and was admirably handled.

Kapp-Kirn's The Sylph on the Cesar piece; no performer expressed or a definition of it. A new organ, beautifully and clearly laid in sound. Quick little breaks on the surface of the material were given the full stamp, and the sudden, unexpected, was expressed in all. The choice of the interpretation of this type of descriptive music, Mr. Kirnpark observed, was no task. Mr. Kirnpark observed, was no task. In the fast hand, motions and skill in each of the compositions of the different groups of sounds were as follows:

Dr. Samuel G. H. Smith—knees, Dr. Kenneth C. H. Smith, President, Bow-

n

Chairman; Dr. Arthur A. Borden—northeast, Boston; Ernest K. Curt-

right, President, Canadian Union College, Bridgeport, Connecticut; Pub-

lic Secondary Schools—William C. Hilt, Central High School, Sprin-

field, chairperson; Thornton Jen-

It couldn't have happened in a private home.

But in that gay crowded restaurant almost anything could occur, nothing did, but the one thing she had hoped.

An obnoxious waiter was serving lime from his arm, and the horrid, bawdy talk slammed down the front of her lovely Persian green gown.

When the week-end was over, she brought us the new Mode Cline made it as lovely as ever. When such accidents happen New Mode is an inexpensive remedy.
public our additional hours to sit in the lecture room will be open every evening except Saturday and Sunday from 7:30 to 9:15.

Mrs. Magie is an American who has greatly interested himself in Japan and has gained a real place there, exhibiting a fondness for the people and their culture. She is a lady who understands and she not only makes beautiful and delicate excursions into the depths of nature but also designs and executes them in her own way. Her subjects are all varied, and her colors are chosen in keeping with the seasons of the year. Her paintings are also portraits of notables of the Orient and of the Orient itself. They are all individual works of art, painted with a delicate brush and a subtle color sense. Mrs. Magie will be glad to sell some of her work and has arranged so that these paintings may be sold immediately.
